

E-Portfolio Reflection How-To Form

This form is designed to help you write reflections on your portfolio. Use it to write a draft of your reflections then put them in your portfolio itself. You connect your work to the school's MISSION and EXPECTATIONS (or Patriot Pride) – same thing, different order).

Each project you do has many aspects – a bunch of steps in the process of completing it. You need to explain specifically what you did to achieve each goal. It's more than just "matching"!

Practice:

Fill out the two reflections below, and then use the space to draft more of your reflections once you get the hang of it.

1. My work on _____ demonstrates SELECT because I had to _____ as part of the project. For example while I was _____, I had to _____. This also connects to my future goal of _____ because I'll have to _____ in my future job.
2. My _____ project shows my ability to SELECT. This assignment forced me to _____ and to _____. One part that really challenged to better achieve this objective was _____. This is already helping me in my SELECT because _____.
- 3.
