

Triennial Assessment Summary of the Local Wellness Policy

Instructions: The template below is offered to summarize the information gathered during your assessment. Members of a school wellness committee who are completing their triennial assessment for their school wellness policy may use this template.

Requirement: An assessment of your school wellness policy must be conducted at a minimum once every three years per United States Department of Agriculture (USDA) regulations. Local Educational Agencies (LEAs) may assess their policy more frequently if they wish.

This assessment will determine:

- Compliance with the wellness policy
- How the wellness policy compares to model wellness policies
- Progress made in attaining the goals of the wellness policy.

Results: The final rule requires that LEAs update their wellness policy as appropriate and requires that LEAS must make available to the public:

- The wellness policy, including any updates to and about the policy at minimum on an annual basis.
- The Triennial Assessment results, including the progress that has been made in meeting the goals of the wellness policy.

Record Keeping: A copy of the most recent triennial assessment along with supporting documentation must be kept on file with your wellness policy documentation for three years plus the current year. The State agency will examine records during the Administrative Review, including:

- Copy of the current wellness policy
- Documentation on how the policy and assessments are made available to the public
- The most recent assessment of implementation of the policy
- Documentation of efforts to review and update the policy, including who was involved in the process and how stakeholders were made aware of their ability to participate.

Other Model Wellness Policy: If you choose this option, please specify in the space provided below

Describe how your wellness policy compares to the South Dakota model wellness policy:

The SD Model Wellness Policy was used as a template. It has been modified to fit the needs of the Dupree School District.

Progress towards wellness goals and compliance with the wellness policy:

At a minimum, local wellness policies are required to include:

- **Specific goals for:**
 - Nutrition promotion and education
 - Physical activity
 - Other school-based activities that promote student wellness.
- **Standards and nutrition guidelines for all foods and beverages** sold to students on the school campus during the school day that are consistent with Federal regulations for school meal nutrition standards, and the Smart Snacks in School nutrition standards.
- **Standards for all foods and beverages provided, but not sold**, to students during the school day (e.g., in classroom parties, classroom snacks brought by parents, or other foods given as incentives).
- **Policies for food and beverage marketing** that allow marketing and advertising of only those foods and beverages that meet the Smart Snacks in School nutrition standards.
- **Description of public involvement, public updates, policy leadership, and evaluation plan.**

Use the tables below to assess whether the district is meeting the goal, partially meeting the goal, or not meeting the goal. Indicate the progress made for each goal and next steps that have been identified.
