

Science Expo Rules and Guidelines

1. Number one rule...think safety first before you start. Make sure your project has been approved by an adult and you have an adult to help you.
2. Never eat or drink during an experiment and always keep your work area clean.
3. Wear protective goggles when doing any experiment that could lead to an eye injury.
4. Do not touch, taste, or inhale chemicals or chemical solutions.
5. Respect all life forms. Do not perform an experiment that will harm a person or animal.
6. You may work alone or in a small group on a project.
7. Project work will be done outside of school.
8. All experiments should be supervised by an adult.
9. Always wash your hands after doing an experiment, especially if you have been handling chemicals.
10. Students may prepare a tri-fold presentation board as part of their project. Examples and guidelines for making one are available in the Learning Commons.
11. Any project that breaks district policy and/or local, state or federal laws is NOT permitted.
12. Be safe and smart when using the Internet. Be sure to let an adult know about websites you will be using or have them help you with your searches and research.
13. Please do not bring technology devices to school as part of your project.
14. Projects should be brought to school to be set up between 5:30-6pm on the evening of the Science Expo.
15. The Science Expo will be Wednesday evening, March 29th from 6:00-7:00 p.m. in the Parkway School cafeteria. Parents, friends and family are invited to attend and view all the projects on display.
16. All projects will be taken home at the conclusion of the Science Expo on March 29th.
