

GRANT-FUNDED PROGRAMMING

Our team is continually evaluating opportunities to expand our impact without requiring additional investments from districts.

In 2020, we were awarded **two grants** that have provided the financial support to establish a new position that focuses on critical social-emotional resources and training services for districts:

\$29,844.39 grant funding the hiring of our **Prevention Coordinator**

\$52,000 grant from the Ohio Department of Education for our **Family and Community Liaison**
