WHEREAS, the Board of Trustees ("Board") of the Little Elm Independent School District ("District") is authorized by Texas Education Code § 11.151 to govern and oversee the management of the public schools in the District;

WHEREAS, on March 13, 2020, the Governor of the State of Texas declared a statewide emergency, and, later that same day, the President of the United States declared a national emergency regarding COVID-19;

WHEREAS, the Board recognizes that COVID-19 is an unforeseen and unavoidable emergency of urgent public necessity, that the World Health Organization has declared COVID-19 a pandemic, and that additional emergency declarations may follow in the coming days and weeks;

WHEREAS, the Board has a substantial public interest in protecting the health and safety of its students, staff, and community and therefore desires to ensure that the school district and community are prepared to the fullest extent possible to protect the health and safety of students, staff, and community in light of COVID-19;

WHEREAS, the Board seeks to retain its employees, reduce turnover, increase morale, help employees focus on work-related matters while at work, and facilitate the return to duty of employees if schools are closed and believes that an additional public purpose exists in doing so; and

WHEREAS, the Board believes the public purposes described above are fulfilled by efficiently and effectively making certain delegations, as described more fully herein, to the Superintendent to address this ever-changing emergency situation in the best interest of the health, safety, and well-being of its students, staff, community, and the citizenship at-large.

IT IS THEREFORE RESOLVED THAT the Board of Trustees of the Little Elm Independent School District finds a substantial public purpose exists in protecting the health and safety of its students, staff, and community and therefore in ensuring that the school district and community are prepared to the fullest extent possible to protect the health and safety of students, staff, and community in light of COVID-19.

In furtherance of the public purposes so stated in this Resolution, the Board of Trustees of the Little Elm Independent School District makes the following delegations to the Superintendent and designee(s) in order to efficiently and effectively prepare the school district in response to the declarations of emergency announced by the State of Texas, as well as in

Presenter or Contact Person:	Cr. Cyndy A. Mika, Assistant Superintendent for Curriculum and Learning Services				
Policy/Code:	CH(Local)				
Strategic Plan Goal:	Ensuring Fiscal Health and Sustainability				
Summary:	<p>Docunav is the solution that Curriculum and Learning Services and Human Resources Services has chosen for digitizing student and employee records, both past and ongoing. The benefits for having electronic records are compliance with record storage requirements, reduction in space requirements at both central office and campuses for storing records, and time saved in searching for records each time there is a request. Another major benefit is emergency retrieval of student records when faced with a natural disaster, such as school closures do to health emergencies, tornado damage or flooding, since the records can be backed up offsite. Additionally, Docunav will allow the district to have web-based forms with internal routings for electronic signatures and secure uploads for documents. This would help facilitate online Pre-K/Kinder registration, Change of Status forms, GT testing, etc... that we currently must do in a paper environment with "wet-signatures".</p>				
Financial Implications:	\$188,195.15 for three year contract, \$129,729 Extra duty pay for work to digitize cumulative folders

It also ensures that this information is always readily available through easily discernible audit logs. The Advanced edition of Audit Trail is for customers operating in the most demanding regulatory environments. Besides doing everything that the other two versions of Audit Trail do, it also tracks changes in security settings, so not only what a user is looking at or changing is tracked, but who gave them the right to do so. Searches are also tracked. For additional document security, with this edition users can be required to submit reasons for printing and exporting documents. Administrators can force printed documents to have Watermarks applied to them.

Laserfiche Subscription Guide:

Software purchased through Laserfiche Subscription is a software license that lowers initial licensing costs based on *subscribing* to the rights to use Laserfiche products and services instead of *owning* them. If a license is a subscription license, licensee may use the software covered by the subscription during the term of the subscription until the subscription expires or is terminated. Laserfiche Subscription includes DocuNav Priority Support Agreement as noted on the appended proposal. Laserfiche Subscription can be purchased as its own system or certain subscription products can be added to an existing Rio/Avante system. Subscription allows for an increase or decrease of subscription count annually.

Laserfiche Annual Subscription Agreement:

The Laserfiche Subscription Agreement allows you to use Laserfiche products for a designated period of time without purchasing a perpetual license. One payment provides on-demand access to your Laserfiche products for the duration of the subscription year. The agreement provides you with the flexibility to manage licenses across your organization or institution, according to your participants' usage roles.

General Subscription:

- **Multi- year agreements are available.** The customer that signs a multi-year agreement with subscription is exempt from any possible subscription fee changes and is locked into the original agreed upon rate for the number of paid years.
- The Subscription includes software updates, and access to online support resources during the term of the subscription. No portion of the subscription will be credited toward the purchase of new Laserfiche software products.

Perpetual Rio/Avante + Subscription (Mixed Systems):

- Laserfiche Subscription **products can be combined** with perpetual Rio/Avante products to create a "mixed system." **Subscription Full Users cannot be combined with Rio/Avante Full Users.** Subscription Employee Participants, Community Users, and Education Users can be added to existing Rio/Avante systems.
- **Payment, cancellation, and reactivation:** A mixed system will be billed and function like a subscription system. Due to subscription and Rio/Avante licensing all being connected through LFDS, if you drop subscription, you will need to reactivate Rio/Avante license.

Renewal Terms:

- Subscription terms will renew on the anniversary of the date of your DocuNav support agreement, unless you provide **cancellation notice at least 45 days prior** to the end of the subscription period.
- Laserfiche standard subscription will provide you with access to your specified Laserfiche products for 12 months, and may be extended annually thereafter.

Work shall be completed pursuant to Exhibit "A", RFP #43-19, and any additional Statements of Work agreed upon by both parties. Notwithstanding such schedules, it is acknowledged that delays resulting from any acts or omissions of Buyer, or circumstances beyond the control of Seller, including, but not limited to acts of war or terror, natural disasters, material shortages, and acts of God, shall not be deemed a breach of this agreement.

Any modification to this agreement shall only be valid if in writing and signed by the parties hereto.

14. Laserfiche VAR Strategy: The Laserfiche strategy includes the use of Value Added Resellers (VARs). The relationship between the VARs and Laserfiche is one in which end user clients are permitted to engage with a single VAR of record for software support and maintenance and additional product purchases. SERVER RECOMMENDATIONS

If you plan to host your Laserfiche system internally there are several factors to consider when planning the install. A basic Laserfiche install is comprised of the following servers:

- Laserfiche Server – hosts the application and user interface
- SQL Server – stores the data (SQL database) and runs queries
- Processing Server(s) – processing such as Workflow, DCC, Audit Trail, etc
- Web Server – handles the external interface and processes

We can help you customize a plan to tailor your install for your specific needs and expected use, but below are some guidelines to help with planning:

Tier 1: Beginner

✓ 0-25 full users ✓ 1-2 forms ✓ 1 department

Tier 2: Standard

✓ 25-50 full users ✓ 1-5 forms ✓ 1-2 departments

Tier 3: Enterprise

✓ 50+ full users ✓ 5-20 forms ✓ 2-3 department

PLEASE NOTE

If forms will be exposed to the public, it is highly recommended that a separate web server is added to every system

Tier 1: Beginner

This package is a great entry level option for those just getting started with Laserfiche and want to initially support only a few users. Laserfiche Server, SQL Server and Web Server are combined initially to save costs along with utilizing a limited license for SQL (SQL Express).

Application/Processing/Web Server/SQL Server

- Applications:
 - Laserfiche
 - Web Administration Console
 - Workflow (Service & Subscriber)
 - DCC (OCR on the Server)
 - SQL Express
- Minimum Hardware Specs:
 - 2 Processors (Cores)
 - 14+ GB RAM
 - C drive - 200 GB
 - D drive - 400GB (for SQL databases, Laserfiche volumes & Laserfiche repository files)
 - *Expandable as necessary*

Tier 2: Standard

If you are just beginning with only a few forms in 1 or 2 small departments the following setup is a good start. Laserfiche Server and Web Server are combined initially to save costs.

Application/Web Server

- Minimum Hardware Specs:
 - 2 Processors (Cores)
 - 14+ GB RAM
 - C drive - 200 GB
 - D drive - 400GB (for SQL databases, Laserfiche volumes & Laserfiche repository files)
 - *Expandable as necessary*

SQL Server

- Minimum Hardware Specs:
 - Multi-Processors (8+ cores, expandable as needed)
 - 24+ GB RAM
 - C drive - 100 GB
 - D drive - 200GB
 - SQL 2012 or higher

Processing Server (Workflow, DCC, Audit Trail)

- Minimum Hardware Specs:
 - Multi-Processors (8-12 cores)
 - 16 GB RAM
 - C drive - 100 GB
 - D drive - 100GB (to handle log files and temp processing for import)
 - Server 2012 or higher

Tier 3: Enterprise

The following is a standard implementation that is good for many organizations. It allows computing bandwidth and flexibility for many forms and several workflows.

Application Server

- Minimum Hardware Specs:
 - 2 Processors (Cores)
 - 14+ GB RAM
 - C drive - 200 GB
 - D drive - 400GB (for SQL databases, Laserfiche volumes & Laserfiche repository files)
 - *Expandable as necessary*

SQL Server

- Minimum Hardware Specs:
 - Multi-Processors (8+ cores, expandable as needed)
 - 24+ GB RAM
 - C drive - 100 GB
 - D drive - 200GB
 - SQL 2012 or higher

Processing Servers (Workflow, DCC, Audit Trail)

- Minimum Hardware Specs:
 - Multi-Processors (8-12 cores)
 - 16 GB RAM
 - C drive - 100 GB
 - D drive - 100GB (to handle log files and temp processing for import)
 - Server 2012 or higher
- Multiple Processing Servers may be needed

Web Server (WebAccess, Forms)

- Minimum Hardware Specs:
 - Multi-Processor (Cores)
 - 10 GB RAM
 - C drive - 100 GB
 - No attached drive now but may need one later
 - Server 2012 or higher
 - IIS7 or higher

RECOMMENDED SERVER MAINTENANCE

Windows server maintenance should follow your standard Windows update procedures. During updates, Laserfiche services should be taken down and brought back online in the following order:

Shutdown:

QuickFields
Workflow Services (Server and Subscriber)
Forms Routing Service
Laserfiche Server
LFDS Server
SQL Server (if necessary)

Start up:

SQL Server (Must be fully online)
LFDS Server
Laserfiche Server
Forms Routing Service
Workflow Services (Server and Subscriber)
QuickFields

SQL Database Maintenance

Following your pre-existing SQL database backup and maintenance plans, already designed and in place by your organization, is highly recommended. If there is no plan in place, here are the minimum recommendations.

Backup - Full Backup (weekly)

Backup - Differential (daily)

Backup - Transaction Logs (every 15 minutes) *This is only applicable for databases setup for full logging

Check database integrity (daily)

Reorganize index (daily – if needed)

Rebuild index (weekly)

Maintenance cleanup (daily)

If your organization does not have a standard plan, the plan provided above should be reviewed with DocuNav for possible changes for your specific environment. The plan above is a suggestion, so frequency and order of events may need to be changed based on system usage.
