

North Clackamas Schools

Ballot Measure 3-487 • Nov. 8 Election

Bilquist Elementary

Built in
1960

If passed, Ballot Measure 3-487 would fund the following projects:

Security updates: construct secure passage to gym; add security cameras; install security fencing

Technology updates: improve access to classroom technology

Unfunded maintenance/site updates: replace boiler; paint interior/exterior; repair pavement; fix or replace leaky roof

2006 Bond Projects Completed

Bilquist Elementary School received major renovations throughout the building, including the addition of four classrooms, modernizing existing classrooms, expanding hallways to create instructional space and access to exterior lighting. Major systems were renovated, including electrical, security, fire, heating and ventilation.

Bond Measure for School Repairs, Safety and Overcrowding Relief

CAPTION:

Bonds to improve schools and classrooms; address safety, repairs, overcrowding.

QUESTION:

“Shall District repair, construct, update schools, classrooms; issue \$433 million in general obligation bonds estimated to maintain current tax rate?”

All District schools are scheduled for improvements.

See page 2 for project list for Rex Putnam High School feeder schools.

North Clackamas Schools are aging.

Most were built from 1924 to 1968. The bond would make repairs to address maintenance needs and reduce operating costs in older, inefficient facilities.

The district is growing.

The bond would add space to address school overcrowding and prepare for future growth.

Educational requirements continue to change.

The bond would modernize facilities for student learning and make improvements for student safety.

How Much?

If passed, the 25-year \$433 million bond is estimated to continue the current taxpayer rate of \$2.37 per \$1,000 of assessed property value.

Next steps

All registered voters in the North Clackamas School District boundaries are eligible to vote. Ballots will be mailed to voters starting on Oct. 19 for the Nov. 8, 2016 election.

Proposed Projects at Rex Putnam High Feeder Schools

Students in the following schools will attend Rex Putnam High School under the current boundary system. If passed, Ballot Measure 3-487 would fund the following projects at each feeder school:

If passed, the bond projects would support the needs of a high-quality 21st Century education by:

- Providing the tools so each child can be successful
- Maximizing learning opportunities to help students become career and college ready

The last bond approved by voters was in 2006. All projects were completed on time and within budget. A successful refinance allowed the district to complete all of the bond projects and return \$20 million to taxpayers. If approved, the district will appoint a community oversight committee for the bond projects.
