

FUNDAMENTAL 2: Maintain the highest learning standards in the areas of fine arts; health and physical education; English language arts; mathematics; financial education; science; environment and sustainability; social studies; world languages; computer science and educational technology.

Mercer Island School District Key Performance Indicators – SBA Comparison to Surrounding Districts Addendum

This profile is a snapshot of our Smarter Balanced Assessment of student performance across a variety of grade levels as measured against a league of comparable school districts. It enables us to reflect on our performance over time and analyze patterns and trends.

* Note, the spring 2020-2021 administration of the SBA was delayed until fall 2021-2022. Students in grades 4th-12th grade (except 10th grade) took the previous year's assessments. For example, 4th grade students took the 3rd grade assessments. The SBA is not administered to 9th graders, so students in grade 10 during the 2021-2022 school year did not test in the fall (testing 20-21 skills). We will report this data under the 20-21 school year column, as it measures that year's grade level knowledge of students. This is on par with how the state is reporting on their data charts.

Students in 3rd-8th and 10th grades took the SBA in spring 2022 for their 2021-2022 grade level. Any 11th or 12th grade student during the 2021-2022 school year who had not yet met the graduation pathway requirement also tested in spring 2022.
