# March 2023 Food Service Newsletter

New Staff:

We would like to welcome the following staff: \_\_\_ Teri Monstera & Kathleen Lewandowski

#### Fruits & Veggies: National Berry Month

Mixed Berries — Strawberries as well as other berries are good for your whole body. They naturally deliver vitamins, fiber, and particularly high levels of antioxidants known as polyphenols -- without any sodium, fat, or cholesterol. They are among the top 20 fruits in antioxidant capacity and are a good source of manganese and potassium.

Buying and storing tips: California strawberries are fully ripe at the time they are picked and do not continue to ripen after harvesting. Here are a few tips on how to select & how to store strawberries to make your berries last as long as possible.

Choose berries that have a bright red color, a natural shine and fresh looking green caps. refrigerated and kept dry until just before serving. After rinsing, gently blot dry.

Health Highlights: Colorectal Cancer Awareness Month. March Colorectal cancer, or CRC, is the second deadliest cancer in the United States. Every March, National Colorectal Cancer Awareness Month spotlights this disease and inspires more people to get checked starting at age 45. Two reasons why getting checked matters:

- Screening can find the warning signs of colon and rectal cancer, letting doctors take action to prevent the disease.
- Screening can also find colorectal cancer early, when treatment is most effective.

One in 24 people will be diagnosed with CRC in their lifetime, but you can make a difference today. Learn about ways to build awareness, how to get support, and more below. *Tomorrow* can't wait! <a href="https://www.ccalliance.org/about/awareness-month">https://www.ccalliance.org/about/awareness-month</a>

March 6th to March 10th Gift Giveaway with every Breakfast served

March 15th Beef & Cheese Potato Bowl

**Smoothie stations** 

Evans, Brooke & UPE

With green stems still intact, rinse berries under cool water.

Strawberries should always be
