

Troup County School System

Your Future Starts Today

The Troup County Board of Education is seeking bids to install fiber from Callaway High School Gym to the baseball hitting facility. Fiber must be installed in a 2" conduit underground via directional bore. Fiber should be outdoor rated, single-mode and contain six strands. The vendor is to supply a fiber termination shelf to be mounted inside a TCSS supplied 2x2 enclosed network cabinet. Fiber must be terminated with LC connectors and tested to meet industry standards. A copy of the test results must be signed off on by a TCSS staff member before the closeout of the project. A hand hole should be placed near the road that runs to the soccer field for future expansion. The proposed project should include all costs related to the installation and termination of the fiber. The winning vendor is responsible for obtaining any necessary permits and locating services. Winning vendors must be bonded and insured.

Attached is a map and estimated path of the fiber.

Bids must include delivery, parts, fees, and any other costs associated with this project.

All proposals are due via email by February 24th, 2023, at 11:00 a.m.

The Troup County Board of Education reserves the right to reject any and all proposals and reserves the right to waive any irregularities and technicalities that may arise.

Please direct any questions and proposals to:
