

DENNIS AUPPERLE

KEWASKUM SCHOOL BOARD

Personal Details:

I have been a resident of the Kewaskum School District my entire life. My wife and our children all attended and graduated from Kewaskum.

I was honored with the opportunity to be the Head Wrestling Coach at Kewaskum High School from 2000-2013. In 2006 I was part of a group that started the Kewaskum Indians Wrestling Club.

These opportunities gave me the chance to work with youth and parents in the district.

In 2013 I became the co-owner of Miles Ahead Driving School. The driving school gave us the opportunity to serve children, their families and the community.

Currently, I am employed at the Village of Kewaskum as the Public Works Director. I have been with the Village 27 years. I enjoy working with residents in the community to make it a great place to live and raise a family.

Why are you running for the school board?

I feel I can continue to make a difference in the district. I believe there is a strong commitment between administration and the school board to continue moving the district in a positive direction.

My previous experiences with families in the district has given me a better understanding of the needs and vision of our community, teachers and students. I am excited to continue the focus on academics giving our students the best opportunity possible to be successful in life.

Being a part of the current board, I feel we have done a great job working as a team collaborating well with all stakeholders.

It is important to retain and recruit quality staff to give our students the best education experience.

Improving overall test scores throughout the district must be a priority.

Why is public education important to me?

Academic opportunities, students have a variety of classes to choose from. The board needs to continue to focus on what is best for all students in the district.

Students have the opportunity to participate in a wide range of extra curricular activities teaching them life long skills.

Student achievement and success, implementing policies to ensure students are given the opportunity to succeed.

A public education helps students prepare to achieve their future goals. It enables students to become well rounded individuals, be productive in life and become good citizens.
