

Tech Tips: How to Log Into the Google Platform

Preferred Browser:

The preferred browser for use in Port Angeles School District is Google Chrome. Chrome is available for all device types - PC, Mac, tablets, smartphones, etc. If you do not currently have Google Chrome and would like to install it, please click or visit <https://support.google.com/chrome> and navigate to "Use Chrome at Home"

How do I log into Google?

Follow these steps to log in at Google.com

1. Launch Google Chrome or your preferred browser
2. Visit <https://google.com>
3. Click the blue "SIGN IN" button in the top right hand corner
4. In the sign in box, enter your student ID number followed by our domain of @gg.pasd.wednet.edu
5. Enter your password. If you do not know your password, please contact your student's teacher to have it reset
6. When you click next, you may be prompted to accept terms & conditions if this account has not been signed in previously.
7. You will be automatically returned to <https://google.com>

What's My Password?

The student password scheme is based on the student's birthdate and full name including middle initial.

- It starts with the first three letters of the month they were born spelled out with the first letter capitalized.
- Then we used the day of the month and year of their birthdate for the next four characters ddyy.
- Finally, the last three digits of the password are the student initials in lower case. This should make a password of 10 digits.

Example: If your name is Franklin Delano Roosevelt and you were born on January, 30th 1882 your

password would be "Jan3082fdr".
