POTEET INDEPENDENT SCHOOL DISTRICT

INTRODUCTION

HB 1842 was passed during the 84th Texas Legislative Session in the Spring 2015 and provides Texas public school districts the opportunity to be designated as a District of Innovation. To access these flexibilities, a school district must adopt an innovation plan, as set forth in Texas Education Code Chapter 12A.

Districts of Innovation may be exempted from several state statutes and will have:

- Greater local control as the decision makers over the educational and instructional model for students;
- Increased freedom and flexibility, with accountability, relative to state mandates that govern educational programming;
- Empowerment to innovate and think differently.

Districts are not exempt from statutes including curriculum and graduation requirements and academic and financial accountability.

Current Law:

TEC 25.0811 FIRST DAY OF INSTRUCTION

- (a) Except as provided by this section, a school district may not begin instruction for students for a school year before the fourth Monday in August.

Innovation Strategy:

A school calendar that offers the option to begin the first day of instruction prior to the fourth Monday in August (as currently required by the TEC) will provide the District the ability to effectively meet the instructional needs of all students. Such a calendar will prepare our students for college and career readiness by aligning start/end dates with local colleges and allow more instructional time for students prior to state assessments. Also, the calendar will balance grading periods for more equity in instruction between the first and second semester and prevent loss of instructional time while providing more days for teachers to plan and prepare instruction during the school year.

Current Law:

TEC 21.003 CERTIFICATION REQUIRED

- (a) A person may not be employed as a teacher, teacher intern or teacher trainee, librarian, educational aide, administrator, educational diagnostician, or school counselor by a school district unless the person holds an appropriate certificate or permit issued as provided by Subchapter B.

Innovation Strategy:

The District's decisions on certification will be handled locally. Poteet ISD will make every attempt to hire individuals with appropriate credentials for the position in question. When that is not reasonably possible, exemption from TEC 21.003 allows the district to draw from a larger pool of applicants such as industry professionals, out of state certified teachers, and specialized areas. The district will carefully review the candidates' experience, education, and credentials to fill positions of need that would best benefit students. Special Education, Bilingual/ESL and Prekindergarten teachers must continue to be SBEC certified.

Current Law:

TEC 21.002 TEACHER EMPLOYMENT CONTRACT

- After any applicable probationary contract period required by the District, term contracts governed by Chapter 21 of the Education Code (educator term contracts) shall be provided to:
 - Any employees in positions required by statute to receive such contracts, including SBEC-certified employees serving full-time as principals, assistant principals, teachers, school counselors, diagnosticians, librarians, and athletic directors;
 - Full-time professional employees in other positions for which the District requires current SBEC certification; and
 - Full-time nurses.

For purposes of this policy, the District shall consider only full-time registered nurses to be eligible for educator term contracts.

Innovation Strategy:

Permit the district to issue a probationary contract for a period of up to two years to experienced teachers with 5 or more years who are newly hired in the district.

- Leads to better evaluation of a teacher's effectiveness in the classroom as critical data is not available for Principals to make informed employment decisions during the contract renewal period.

Current Law:

TEC 25.112 CLASS SIZE

- (a) Except as otherwise authorized by this section, a school district may not enroll more than 22 students in a prekindergarten, kindergarten, first, second, third, or fourth grade class. That limitation does not apply during:
 - (1) any 12-week period of the school year selected by the district, in the case of a district whose average daily attendance is adjusted under Section 48.005(c);
 - or (2) the last 12 weeks of any school year in the case of any other district.

Innovation Strategy:

Our goal is to remain within the current education guidelines. The district would have the flexibility to manage class sizes in the event that a K-4th core classroom is not able to sustain the 22:1 ratio and would not require a waiver to be sent to TEA.

Current Law:

TEC 33.006 SCHOOL COUNSELOR RESPONSIBILITIES

- Requires school districts to adopt a policy that requires school counselors to allocate at least 80 percent of their total work time on duties that are components of a counseling program developed under TEC 33.005. According to this provision, the administration of assessment instruments or providing other assistance in connection with assessment instruments is not considered as time spent on counseling.

Innovation Strategy:

To best serve our Poteet ISD students, the decision on counseling services and allocation of duties will be locally determined based on the needs of our students. This exemption will grant Poteet ISD to provide resources and services to our students so that they are successful in and out of the classroom.

Current Law:

TEC 21.102 PROBATIONARY CONTRACT

- (a) a person who is employed as a teacher by a school district for the first time.
(b) A probationary contract may not be for a term exceeding one school year. The probationary contract may be renewed for two additional one-year periods, for a maximum permissible probationary contract period of three school years, except that the probationary period may not exceed one year for a person who has been employed as a teacher in public education for at least five of the eight years preceding employment by the district.

Innovation Strategy:

A probationary contract provided to newly hired first year teachers should not exceed three years. However, if unforeseen circumstances arise within this probationary period, and additional time is needed to fairly and thoroughly evaluate, the option to add one additional year may be enforced.
