Student Board Liaison

Hey! My name is Veronica Watson and I am the Student Liaison here at EHS. What that means is, I get to sit on the school board during the meeting and speak on behalf of the students and let the board know any issues or ideas that the students have. The school board is in charge of things such as changing policies and rules regarding the school and how it functions. As well as being in charge of the budget and where money goes, so anytime teachers need money for furniture or field trips they have to put it on the board agenda.

The board is the key place where most changes are made in the school system, and I hope to provide some insight as to what is going on up there as I go by taking the long words, numbers, and policy changes, and putting them into much simpler language so that everyone can be adequately informed.

Alumni Highlight- Will Bowers
