- WORK-BASED LEARNING OPPORTUNITIES

There are job opportunities at Snap-On Tools, Rite Screens, and Kintronics Labs Inc for students who are interested. These jobs can count towards work-based learning credits and are for 4 hours per day at 5 days per week. If you are interested then please contact Mr. Culbert in CTE.

Welcome to the SPIN!

Dr. Jon Minton

Students, Welcome to the first edition of the Cyclone SPIN! Now is the time when communication is at a premium and a goal of EHS is to provide you with the information you need when it is needed. The hope is to keep the SPIN newsletter concise, clear, and student friendly. The SPIN will be made available weekly in your school email accounts so be sure to keep an eye out for it. Contact Mr. Hensley if you have feedback or suggestions. Go Cyclones!

Mr. Dustin Hensley

Cyclones, I'm so excited to be helping out with the beginning of our student newsletter. I hope that this turns out to be a way for you all to get important information and feel like you are being kept in the loop.

Monthly Board Updates

After the ECS School Board Meeting every month there will be an update in this space from Ms. Veronica Watson, EHS Student Liaison to the School Board, on decisions that are being made that directly impact students.

Changemaker of the Month

Each month a student will be selected from teacher nominations who has demonstrated the characteristics of our EHS Core Values.

For the month of September this Core Value will be Resilience. We look forward to highlighting some of our awesome students in this space.
