Coursework subject to availability. When a student retakes a course, the grade will replace the earlier grade and the original grade WILL NOT count as an attempt for credit on the student's transcript or in the GPA calculation. The original grade will be removed from the official transcript and will be replaced with an NC (No Credit). Any students who want to be considered for qualification into the Top 30 category of academic achievement must never have utilized any of the retake and grade forgiveness options. Courses taken in middle school are not subject to this rule. Edmentum courses do not count towards NCAA eligibility.
