		Replace two car garage that was struck by tree and demolished by others. Attached Cianci Engineering report states foundation was not damaged and ok to rebuild on. Will rebuild with 2x4 walls 9' high and 2x6 rafters to make hipped roof as it was previously. I attached sketch and picture of neighbors garage for reference as it was exactly the same build as here. Will have clap board siding and GAF Timberline roofing shingles. 8' wide by 7' high garage doors without openers.
