

Welcome to the

GLENBROOK SCHOOL
HEALTH CENTER

The purpose of a school health center is to provide students and staff members with access to quality medical care that supports their health and keeps them in school. The Glenbrook School Health Center (GSHC) is designed to complement the services offered by the school nurse for students who may need more complex care.

Medical records remain confidential between the patient, family and our operating partner. Parents may authorize information to be shared with the school by completing a separate consent form available from the GSHC staff.

Health Center Access

All District 225 students and staff have access to the Health Center. Students under the age of 18 must have a parental consent form on file. Consent forms may be downloaded from the Health Center webpage or picked up at the Health Center.

Location & Hours

The GSHC is located across from the nurse's office at Glenbrook South High School.

The GSHC is open Monday through Friday from 7:30 a.m. to 4 p.m. Check the website for any changes to the schedule. Students needing after-hours support may contact the Chicagoland Children's Health Alliance Pediatric Outpatient Center in Wilmette at (847) 318-9300.

Transportation

Students at Glenbrook North or Glenbrook Off Campus who need transportation to Glenbrook South during the school day may request that service when scheduling an appointment. Please note that arranging transportation may require 24 hours' notice.

Services

The services offered at the GSHC will be similar to those community members access at a pharmacy-based clinic.

- School and athletic physical exams
- Immunizations
- Examination, diagnosis, and treatment of pain or illness such as:
 - Ear pain
 - Eye irritation
 - Rashes or skin irritants
 - Complaints of headaches, stomachache and other minor aches
 - Minor wounds such as non-severe cuts, blisters, and skin abrasions
- Screenings for dental, vision, hearing and other problems
- Point-of-care testing (e.g., flu, glucose, strep throat, COVID-19)
- Diagnostic lab tests
- Referral for emergency treatment
- Referral for specialty medical, social service or behavioral health care
- Individual counseling session with a social worker

Cost of Services

All medical and mental health appointments, including on-site testing services, are provided at no cost. There may be a nominal charge for vaccinations for those not eligible for the federally funded Vaccines for Children program.

Appointments

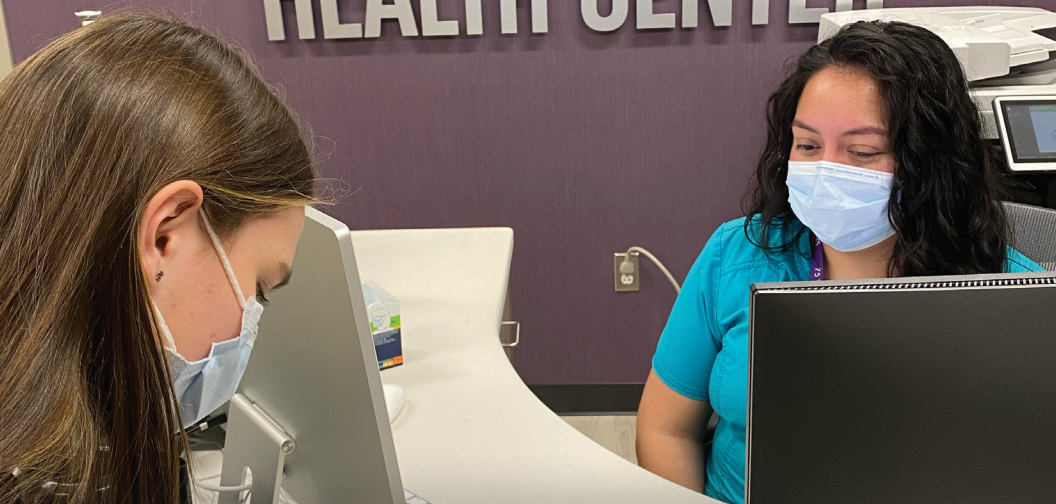

Scan the QR code or visit the GSHC page of the website at glenbrook225.org/healthcenter to schedule appointments before, during or after school. Students may also be referred to the Health Center by a school nurse.
