

March 2023

Dear New Students,

Welcome to Portsmouth Abbey! You are joining a school that cares deeply about all of its members and will prepare you to live a life filled with knowledge and grace.

The athletic program plays an integral part in the school community. When the class day ends students take off their blazers and train to become better athletes. We compete throughout New England against some of the best schools in the country. Student-athletes are trained by their teacher-coaches many of whom played collegiate athletics. Participating in the athletic program can become a defining experience for many students during their time at the Abbey.

Our diverse athletic offerings provide students with opportunities in various team and individual sports. We offer 25 varsity sports and 43 athletic teams overall. Our JV program places an emphasis on participation, skill development, and opportunities to learn a new sport. The varsity program emphasizes competition, the pursuit of excellence, and preparation for those who aspire to play in college. Abbey teams win championships, and successfully compete at a local, regional, and national level; our athletes earn All-League, All-State, All-New England, and All-American honors. Many Abbey athletes continue to be student-athletes at the college level.

The athletic department consists of the Director of Athletics, Assistant Director of Athletics, Head Athletic Trainer, and two Equipment Managers. The athletic facilities consist of a turf field, 6 grass playing fields, softball and baseball fields, a squash center, a fitness center, two gymnasiums, and a hockey rink. Our golf team has full access to the Aquidneck Golf Club and our sailing team competes out of the Bristol Yacht Club.

We look forward to meeting you all this coming Fall. Congratulations and it's a great day to be a Raven!

Sincerely,

Chris Milmoe
Director of Athletics
