Hot off the Press! Updated School Enrollment Projected Study!

At last evening's School Board meeting, Rebecca Wandell of Wandell Consulting presented the latest Enrollment Projection study in an effort to assist us in planning forward for the needs of our schools now and into the future. The study clearly affirms the real necessity for the need for additional spaces for our students into the future. Here is a link to the [complete study](#) and a [recording of the presentation](#), which begins 34 minutes into the video. These are also available on the building project website.

Below is a snippet about K-2 enrollment from the 100+ page report, which details how our enrollment is expected to shift across our district over the next 10 years. These shifts are attributed to a marked increase in live births in Scarborough and in in-migration of families with children moving into our community.

We hope you find this information informative and stay involved as we continue to digest this information and its potential implications for Scarborough.
