

WHAT IS HOUSE BILL 410?

In December 2016, the Ohio General Assembly passed House Bill 410 to encourage and support a preventative approach to excessive absences and truancy. To support academic success for all students, the district will partner with students and their families to identify and reduce barriers to regular school attendance. The district will utilize a continuum of strategies to reduce student absence including, but not limited to:

Consistent and timely notification of student absence to the parent or guardian

Development and implementation of an absence intervention plan, which may include supportive services for students and families

Counseling services

Parent education and parenting programs

Mediation

Intervention programs available through juvenile authorities

Referral for truancy, if applicable.

DISTRICT PLANS AND PROCEDURES

Absences are counted in hours, not days. When a student accumulates a certain amount of absent hours as noted by the chart below, the school begins the process of absence intervention. The Attendance Intervention Team will meet and develop a plan to improve attendance.
