Why choose

MONTGOMERY COUNTY
EDUCATIONAL SERVICE CENTER

occupational *and*
physical therapists?

Our occupational therapists help students with:

- Daily living activities, including dressing, eating, drinking and swallowing
- Fine motor skills, including grasping and manipulating small objects
- Adaptive equipment
- Eye-hand coordination
- Life skills such as self-regulation, time management and organization
- Safety skills
- Classroom and parent instructions
- Vocational and transitional skills

Our physical therapists help students improve:

- Gross motor skills, including walking, standing, sitting up
- Balance and coordination
- Strength and endurance
- Positioning to improve performance and prevent deformities
- Vocational and transitional skills

ESC therapists are right

- for children
- families
- school districts

"Our therapist is wonderful in meetings. She communicates in parent-friendly terms."

MONTGOMERY
COUNTY
EDUCATIONAL
SERVICE
CENTER

Serving families and children in Clark, Darke, Hamilton, Miami, Montgomery, and Preble counties.

Not all children develop at the same pace. If a child has special needs, ESC therapists can help. We specialize in creating customized strategies to promote children's success in school.

The Montgomery County ESC has a network of **70 licensed school-based occupational and physical therapists** who provide **educationally relevant therapy** to children with disabilities, developmental delays or learning challenges.

We serve more than 3,500 students from birth to age 21 across the Miami Valley and in Southwestern Ohio and have earned a 99% customer satisfaction rating.

"I am glad to work with a professional who puts children first."

Our occupational and physical therapists help students be successful at school through fun, creative skill-building

FAMILIES TRUST US

- We specialize in pediatric therapy to promote success at school
- Our therapists are licensed by professional medical licensing boards
- We share therapeutic interventions, strategies and activities that can be used in the classroom and at home
- We're accustomed to working with medically fragile students
- We provide support letters required by insurers and others that are needed for reimbursement for specialized equipment

Our services, which must be requested by a school district or related agency, are free to families

SCHOOL DISTRICTS COUNT ON US

- We ensure compliance with complex, ever-changing special education laws and rules
- Our extensive network of therapists ensures continuity of service required under students' IEPs in the event of staff illnesses or leaves of absence
- We use sophisticated pediatric developmental tests that provide objective results and identify underlying deficits
- We provide gait training devices, gross motor skills equipment, positioning and standing devices
- We document services allowing for Medicaid reimbursement
- We build collaborative relationships with students, staff and families
- We provide in-service training for school staff
- We assist with Response to Intervention (RTI) services for children who may need alternative educational strategies or support

Districts only pay for the services they use, allowing for flexible, as-needed therapist staffing
