Recommendations/Comments:

I have examined the above-named student and completed the pre-participation physical evaluation. The student does not present apparent clinical contraindications to practice and participate in the sport(s) or activities as outlined above. A copy of the physical exam is on record in my office and can be made available to the school at the request of the parents. If conditions arise after the student has been cleared for participation, the physician may rescind the clearance until the problem is resolved and the potential consequences are completely explained to the student (and parents/guardians).
