January 27, 2017

**Start Time: 7:30**

**Ending Time: 2:30**

What a wonderful way to start our week! We all had a wonderful time celebrating the 100th Day on Monday with very special events!

On Wednesday students should have brought home their Discovery Education testing reports in reading and math. There was also a cover sheet included that explained this information. This test was administered at the beginning of the year and mid-year (December). The results compares how your child performed according to school, district, and national averages. You can also see the total number of questions missed and specific areas of strength or growth in reading and math. Please contact your child's teacher if you have additional questions regarding the information. We will be administering the final Discovery Test the week of March 20th for 3rd and 4th grade and the week of April 17th for K-2nd grade.

We are excited to host our second Coffee with the Counselor session on Monday, January 30th in the library at Mapleton. Please see the back of the newsletter for additional details. It is a very important session on Internet safety tips.

## Counselor's Corner-

Homework was the topic in third grade guidance this week. We learned how we can use our T.O.E.S. to be more successful at our homework. This easy to remember acronym taught us the importance of time management, organization, having a clean and comfortable environment and using a variety of study strategies to tackle one of the most dreaded things about school.

In our K classes, Howard B. Wigglebottom taught us that winning isn't everything when it comes to sports and games. We learned how to display good sportsmanship so that everyone has more fun!

### **United Way Born Learning Academy**

What is the United Way born learning academy?- The health and well-being of children depends on their environment and adults around them. When family members take care of themselves, participate in child wellness checks, and have appropriate expectations, children will increase in their learning and development.

Session 4 overview- Overview of the program / Fun and practical activities you can do at home to enhance children's learning / Build friendships and support.

Child Care will be provided.

Door prizes

Agenda: 5:30-6:00- Dinner. 6:00-7:00- Mini workshop (Parent/guardian workshop and children's activity time. 7:00- Door Prizes!

### **Coffee with the Counselor**

We would like to invite all of our parents/guardians to our second annual Coffee with the Counselor session, hosted by

Mrs. Gross. During this time we will have a special guest from the Kentucky Center for School Safety and he will be talking about Internet Safety. We want to provide you the information and tools to help keep your child safer online. We hope you can make time that morning (1/30/17 at 8:00 in the Mapleton library) to join us.
