

ABC Level 1 in Automotive Studies

Level 1 Award in Automotive Studies

Skills and Education Group

Description

Motor Vehicle offers students the chance to learn new practical, manual skills and enhance their understanding of car maintenance, repair and design. This Level 1 course is on site at Slough & Eton (Level 1 means that the highest grade achievable is a Grade 3 at GCSE).

Student Criteria

Students who have a passion for motor vehicles and learning in a practical environment, using their hands and problem solving will enjoy this course. Mr Leane can be contacted for further details.

Assessment

60% of the assessment is a portfolio of evidence spanning the four compulsory areas of study;

- Working in an automotive industry environment,
- Using engineering materials and skills,
- Remove and re-fit mechanical components,
- Introduction to basic automotive electrical principles.

40% of the final assessment is a multiple choice test on the same four areas.

Progression

Successful completion of the Motor Vehicle course can lead to a Level 2 course at college or application for an apprenticeship in the industry.
