Y19 – Y13 Careers within the UK Government/Civil Service with Defence Nuclear Enterprise – 13 March, 5pm-6pm

Are you curious to uncover the mysteries of a top-secret UK government defence agency? The Defence Nuclear Enterprise (DNE) operates as a top-tier security organisation under the umbrella of the UK's Ministry of Defence. Their military forces and strategic partnerships with allies both home and overseas help maintain national security, advance our interests, and protect the prosperity of the UK.

Join this virtual Insight Evening with DNE to learn more about the defence industry. You will also gain some work experience as there will be an exclusive mini project for you to take part in, giving you an insight into the sort of projects DNE staff work on day-to-day. They will also tell you about their brand new apprenticeship programmes.

Places are limited due to the project element so apply ASAP. [Females of the Future with Insight to Defence Nuclear Enterprise - A Government Entity Survey \(surveymonkey.co.uk\)](#) (It is open to all Y9 – Y12 students).

Y9 – Y13 Explore degrees in Sustainability - 15 March, 5pm-6pm

Jobs with a sustainability focus are on the rise.

Join experts from Harper Adams, Huddersfield, and Royal Agricultural University to explore a range of degrees focused on tackling climate change and environmental challenges including food production and engineering. Sign up on your Unifrog Homepage.

Start >

Do you have a favourite subject or an interest that you are passionate about? Take a look at Read, Watch, Listen on your Unifrog Homepage and search for what you are interested in, e.g politics, space, sport. Unifrog will recommend a whole range of resources including films, podcasts, books, TED talks that you could take a look at. You can even use the Filter function to narrow down the selection by tone and vibe. This is great for both expanding your knowledge and for your university and job applications. Take a look...

Y7 – Y13 Virtual Work Experience

Virtual experience programmes are a great way to gain an insight into a career in your own time. Take a look at the Springpod virtual work experience page to find a programme that interests you.

Springpod 

The programmes usually involve 10 hours of activity which you have two weeks to complete. You can fit this around your schedule and complete the work in your own time. You'll hear from industry experts and give you the chance to understand what their roles really involve. You'll also complete mini-activities, projects and quizzes developed in partnership with leading employers to get a feel for the world of work. Once you've finished the programme you will receive a certificate that you can use to build your CV or Personal Statement.
