INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Kirbyville Consolidated Independent School District
206 East Main Street
Kirbyville, Texas 75956

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Kirbyville Consolidated Independent School District (the "District") as of and for the year ended August 31, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Kirbyville Consolidated Independent School District, as of August 31, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

4347 Crow Road • Beaumont, TX 77706
Phone (409) 924-9100 • Fax (409) 924-0990

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, and the TRS pension schedules on pages 4-10 and 41-43 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section and other supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and other supplementary information sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Governmental Auditing Standards*, we have also issued our report dated December 2, 2016, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* in considering District's internal control over financial reporting and compliance.

J.R. Edwards & Associates, LLC

In this section of the Annual Financial Report, we, the managers of the Kirbyville Independent School District (the District), discuss and analyze the District's financial performance for the fiscal year ended August 31, 2016. We encourage readers to consider the information presented here in conjunction with the independent auditors' report on page 2, and the District's Basic Financial Statements that begin on page 11.

FINANCIAL HIGHLIGHTS

- The District's total combined net position was $10,073,431 at August 31, 2016.
- During the year, the District's expenses were $997,955 less than the $15,979,769 generated in taxes and other revenues for governmental activities.
- The total cost of the District's programs increased slightly from the period ended August 31, 2015. The District continues to introduce new programs and enhance existing programs designed to assist students in at-risk, economically disadvantaged, and special education sub groups in order to comply with State of Texas Assessment of Academic Readiness and End of Course assessments as well as the mandates of the federal No Child Left Behind Act.
- The general fund reported a fund balance this year of $4,237,125. Of this amount, $3,137,125 is for unrestricted use by the District.
- During the 2015-2016 school year the District passed the State's Financial Integrity Rating System of Texas for the school year 2014-2015 with a Superior rating

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements include three components: (1) management's discussion and analysis (this section), (2) the basic financial statements, and (3) required supplementary information.

Government-Wide Financial Statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. They include the Statement of Net Position and the Statement of Activities that provide information about the activities of the District as a whole and present a longer-term view of the District's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

The Statement of Net Position presents information in a format that displays assets, plus deferred outflows of resources, less liabilities, less deferred inflows of resources to equal net position. Net position is displayed in three components – net investment in capital assets, restricted, and unrestricted. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. To assess the overall health of the District, one needs to consider additional nonfinancial factors such as changes in the District's tax base.

The *Statement of Activities* presents information showing how the government's net position changed during the current fiscal year. All changes in net position are reported for all of the current year's revenues and expenses regardless of when cash is received or paid. Thus, revenue and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the District's government-wide financial statements distinguish the functions of the District as being principally supported by taxes and intergovernmental revenues (governmental activities) as opposed to business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges.

OVERVIEW OF THE FINANCIAL STATEMENTS - Continued

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objects. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related requirements. The fund financial statements provide detailed information about the District's most significant funds, *not* the District as a whole.

- Some funds are required by State law and by bond covenants.
- The Board of Trustees establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The District has the following kinds of funds:

- ***Governmental Funds.*** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

  Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

  The District maintains several individual governmental funds organized according to their type. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances for the District's most significant funds. The District's major governmental fund is the General Fund. Data for the remaining governmental funds are combined into a single, aggregated presentation.

  The District adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget. The Texas Education Agency also requires the District to present a budgetary comparison statement for one of its special revenue funds (food service) and the debt service fund.

- ***Proprietary Funds.*** Proprietary funds reported by the District are generally used to account for services for which the District charges its employees or internal units. The District maintains an Internal Service fund to accumulate and allocate costs internally among the District's various functions. The District used internal service funds to account for its self-insurance program for workers' compensation. The activities and balances of these funds have been included with governmental activities in the government-wide financial statements.

- ***Fiduciary Funds.*** Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net position and the Statement of Changes in Fiduciary Net Position on pages 20-21.

OVERVIEW OF THE FINANCIAL STATEMENTS - Continued

Notes to the Financial Statements. The notes provide additional information that is essential to a complete understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 21-40 of this report.

Required Supplementary Information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* that further explains and supports the information in the financial statements. Required supplementary information can be found on page 41 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Our analysis focuses on the Net Position (Table I) and Changes in Net Position (Table II) of the District's governmental activities.

The District's combined net position was $10,073,431 at August 31, 2016. (See Table I)

Table I
Kirbyville Consolidated Independent School District
Net Position

	August 31, 2016	August 31, 2015
Current and Other Assets	$ 9,881,097	$ 16,006,698
Capital Assets	27,954,716	21,407,251
Deferred Outflows	1,271,361	233,909
Total Assets	39,107,174	37,647,858
Long-term Liabilities	26,377,033	26,210,983
Other Liabilities	2,502,247	2,133,410
Deferred Inflows	154,463	227,989
Total Liabilities	29,033,743	28,572,382
Net Assets:		
Invested in Capital Assets Net of Related Debt	5,516,249	5,156,967
Restricted for Federal and State Programs	295,434	311,882
Restricted for Debt Service	503,153	374,077
Restricted for Capital Projects	2,584,347	-
Unrestricted	1,174,248	3,232,550
Total Net Position	$ 10,073,431	$ 9,075,476

Approximately $5.5 million of the District's net position represents investments in capital assets net of related debt. The $1.2 million of unrestricted net position represents resources available to fund the programs of the District next year.

Changes in net position. The Districts total revenues were $16 million. A portion, 20 percent, of the District's revenue comes from local property taxes, 76 percent comes from grants and contributions, while only 2 percent relates to charges for services and the remaining 2 percent relates to investment earnings and other miscellaneous revenue.

Total Cost of all programs and services was $14.9 million. The net position of the District for the current year increased $997,955 (see Table II on page 7 of this report).

Key elements of the governmental activities of the District are reflected in the following table.

Table II
Kirbyville Consolidated Independent School District
Changes in Net Position

	August 31, 2016	August 31, 2015
Revenues:		
Program Revenues:		
Charges for Services	$ 300,964	$ 345,293
Operating Grants and Contributions	1,620,694	1,931,799
General Revenues:

Increase (Decrease) in Net Assets	997,955	(101,903)
Net Assets - September 1 (Beginning)	9,075,476	10,021,808
Prior Period Adjustment	-	(844,429)
Net Assets - September 1 (Restated)	9,075,476	9,177,379
Net Assets - August 31 (Ending)	$ 10,073,431	$ 9,075,476

GOVERNMENTAL ACTIVITIES

- Property tax rates were set at $1.04 per $100 valuation for M&O and $.345 for I&S. The rate for 2016-2017 is set at $1.04 for M&O and $.345 for I&S.
- The District continues to pay down the $24.4 million in bonds and notes payable.

Table III presents the cost of each of the District's largest functions as well as each function's net cost (total cost less fees generated by the activities and intergovernmental aid. The net cost reflects what was funded by state revenues as well as local tax dollars.

- The cost of all governmental activities this year was $14.9 million.
- The amount that our taxpayers paid for these activities through property taxes was $3.1 million.
- Some of the cost, $300,964 was paid by those who directly benefited from the programs or by grants and contributions in the amount of $1,620,694.

	Total Cost of Services		Net Cost of Services	
	2016	2015	2016	2015
Instruction	$ 7,262,884	$ 6,871,739	$ 6,429,328	$ 5,823,012

Food Services	875,983	792,146	57,719	(166,425)
Student (Pupil) Transportation	722,596	791,523	695,381	764,425

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The District continues to operate from a very conservative viewpoint due to a variety of issues. With much uncertainty about the future of public school finance, the District feels it is prudent to continue to approach fiscal matters conservatively.

The District completed many projects to meet student needs. The District remains in a period of conservation planning even though local values indicate a slight increase.

GENERAL FUND BUDGETARY HIGHLIGHTS

There were few budget amendments for the 2015-2016 school year required to meet various needs throughout the District approved by the Board of Trustees.

CAPITAL ASSET AND LONG-TERM DEBT ACTIVITY

Capital Assets. At August 31, 2016 the District had $27.9 million (net of depreciation) invested in a broad range of capital assets, including land, buildings, furniture and equipment used for instruction, transportation, athletics, administration, and maintenance. This amount represents a net increase of $6.5 million (including additions and deductions) over last year.

Kirbyville Consolidated Independent School District
Capital Assets
Governmental Activities

	August 31, 2016	August 31, 2015
Land	$ 596,685	$ 596,685
Construction in Progress	12,239,267	10,500,328
Buildings and Improvements	26,064,839	21,030,162
Equipment	2,348,155	2,117,694
Vehicles	2,501,432	2,418,370
Totals at Historical Cost	43,750,378	36,663,239
Less Accumulated Depreciation:		
Buildings and Improvements	(11,885,986)	(11,515,156)
Equipment	(1,833,607)	(1,762,432)
Vehicles	(2,076,070)	(1,978,400)
Total Accumulated Depreciation	(15,795,663)	(15,255,988)
Net Capital Assets	$ 27,954,715	$ 21,407,251

Long-Term Debt. At year-end, the District had $24.0 million in bonds and notes payable outstanding. More detailed information about the District's long-term liabilities is presented in the notes to the financial statements.

Kirbyville Consolidated Independent School District
Outstanding Debt

	August 31, 2016	August 31, 2015
Governmental activities:		
Capital Lease	127,317	-
General Obligation Bonds	$ 23,525,000	$ 24,075,000
Tax Exempt Obligations	357,167	391,689
Total	$ 24,009,484	$ 24,466,689

ECONOMIC FACTORS AND NEW YEAR'S BUDGETS AND RATES

- Appraised value used for 2015-2016 budget preparation increased slightly. However, due to the instability of the Texas school finance system, the District continues to systematically review staffing patterns, special projects, and revenue and expenditure projections at this time.

- General operating fund spending per student increased in the 2016 budget and is expected to increase again in 2017 primarily due to mandatory pay increases for professional staff.

- The District projected 2015-2016 refined ADA numbers to be approximately 1389. Currently the refined ADA number is 1430 which is slightly higher than projected. The attendance rate is steady at 95.5 percent.

These indicators were taken into account when adopting the general fund budget for 2015-2016. Budget amounts available in the general fund budget are slightly higher due to state funding increases.

Expenditures continue to rise due to mandated salary increases, insurance, utilities and facilities. The 79th Legislature mandated a property tax reduction from the maximum of $1.33 rate in 2006-2007 for maintenance and operations to a maximum of $1.00 in 2007-2008 with an additional 4 cents made available at the local school board's discretion for enrichment. Currently the District has been able to fill all teaching positions. Any new initiatives undertaken by the District this year are related to At-Risk, Economically Disadvantaged, Special Education or Drop Out retention or Non Completion. These initiatives are focused on improving student performance and decreasing the number of students who are unsuccessful in school. The District is focusing professional development activities on core academic areas including math, science, language arts, and social studies. The district continues to strengthen its career and technology education program.

If all revenue and expenditure estimates are realized in 2017, the District's fund balance is projected to increase by $100,000.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances as well as demonstrate accountability for funds the District receives. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the District's Superintendent, 206 East Main Street Kirbyville, Texas 75956.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION
FOR THE FISCAL YEAR ENDED AUGUST 31, 2016

Total Fund Balances - Governmental Funds	$ 7,620,059
Capital assets and bond related costs used in governmental activities are not financial resources and therefore are not reported in governmental funds.	27,954,716
Property taxes receivable unavailable to pay for current period expenditures are deferred in the funds.	412,617
Notes payable which are not due in the current period are not reported in the funds.	(24,971,253)
The assets and liabilities of internal service funds are included in governmental activities in the statement of net assets.	68,407
Payable for bond interest is not reported in the funds.	(51,561)
Included in the items related to debit is the recognition of the District's proportionate share of the net pension liability required by GASB 68 in the amount of $2,076,452, a Deferred Resource Inflow related to TRS in the amount of $154,463, and a Deferred Resource Outflow related to TRS in the amount of $1,271,361. This amounted to a decrease in Net Position in the amount of $959,554	(959,554)
Net Position of Governmental Activities - Statement of Net Position	$ 10,073,431

The notes to the financial statements are an integral part of this statement.

EXHIBIT C-4

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED AUGUST 31, 2016

Total Net Change in Fund Balances - Governmental Funds	$ (5,838,008)
Capital outlays and bond issuance costs are not reported as expenses in the statement of activities.	7,087,137
Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation is to decrease net assets.	(539,675)
The Issuance and refunding of debt and the premium on the issuance of debt is recognized as an other financing source in the funds but not in the statement of activities.	(127,317)
Repayment of loan principal is an expenditure in the funds but is not an expense in the statement of activities.	584,522
The amortization of bond premiums and discounts are not reported in the funds.	37,225
Certain property tax revenues are deferred in the funds. This is the change in these.	(14,924)
Accrued interest on bonds is not reported in the funds.	1,506
The net revenue (expense) of internal service funds is reported with governmental activities	27,662
The implementation of GASB 68 required that certain expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of 08/31/15 caused the change in the ending net position to increase in the amount of $176,231. Contributions made before the measurement date and during the previous fiscal year were also expended and recorded as a redution in net pension liability for the Distric. This caused a decrease in the change in net position totaling ($173,938). The District's proportionate share of the TRS pension expense on the plan as a whole had to be recorded. The net pension expense decreased the change in net position by ($222,466). The net result is to increase (decrease) the change in net position by $(220,173).	(220,173)
Change in Net Position of Governmental Activities	$ 997,955

The notes to the financial statements are an integral part of this statement.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Kirbyville Consolidated Independent School District (District) is a public educational agency operating under the applicable laws and regulations of the State of Texas. The District prepares its basic financial statements in conformity with Generally Accepted Accounting Principles (GAAP) promulgated by the Governmental Accounting Standards Board (GASB) and other authoritative sources identified in *Statement of Auditing Standards No. 69* of the American Institute of Certified Public Accountants. Additionally, the District complies with the requirements of the appropriate version of the Texas Education Agency (TEA) *Financial Accountability System Resource Guide* (FASRG) and the requirements of contracts and grants of agencies from which it receives funds.

A. Reporting Entity

The Board of School Trustees ("Board"), a seven-member group, has governance responsibilities over all activities related to public elementary and secondary education within the jurisdiction of the District. The Board is elected by the public and has the exclusive power and duty to govern and oversee the management of the public schools of the District. All powers and duties not specifically delegated by statute to the Texas Education Agency ("TEA") or to the State Board of Education are reserved for the Board, and the TEA may not substitute its judgment for the lawful exercise of those powers and duties by the Board. The District receives funding from local, state and federal government sources and must comply with the requirements of those funding entities. However, the District is not included in any other governmental "reporting entity" as defined by the GASB in its Statement No. 14, "The Financial Reporting Entity" and there are no component units included within the reporting entity.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (consist of the statement of net position and the statement of activities. These statements report information on all non-fiduciary activities of the District. The effect of the interfund activity in the government-wide statements eliminates services provided and used in the process of consolidation. Governmental activities are mainly supported by tax revenues and intergovernmental revenues.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function. All capital asset depreciation is reported as a direct expense of the functional program that benefits from the use of the capital assets. *Program revenues* include charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function. They also include grants and contributions that are restricted to meeting operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported as *general revenues*.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation, Continued

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting.* Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual, i.e., both measurable and available to finance expenditures of the fiscal period. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, claims and judgments, are recorded only when the payment is due.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State of Texas are recognized under the susceptible-to-accrual concept and so have been recognized as revenues of the current fiscal period. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered earned to the extent of the expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as deferred revenues until the related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount.

The District reports the following major governmental funds:

General Fund: This is the District's primary operating fund. It accounts for all financial resources of the District except those required to be accounted for in another fund.

Debt Service Fund: This fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

Capital Projects Fund: This fund accounts for the proceeds from long-term debt financing and revenues and expenditures related to authorized construction and other capital asset acquisitions.

In addition, the District reports the following fund types:

Agency Funds: These funds are used to account for resources held in a custodial capacity by the District and consists of funds that are the property of students or others. Agency funds typically involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

Proprietary Fund - Internal Service Fund: Internal service funds distinguish operating revenues from non-operating revenues. This fund is used to report on activity in the worker's compensation fund. Accrued liabilities include provisions for claims reported and claims incurred but not reported for workers' compensation insurance.

D. Assets, Liabilities, and Net Assets or Equity

1. Cash, Cash Equivalents and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, money market bank sweep accounts, and short-term investments with original maturities of three months or less from the date of acquisition. Investments for the District are reported at fair value.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

1. Cash, Cash Equivalents and Investments, Continued

For cash management purposes, the District's funds must be deposited and invested under the terms of a depository contract, contents of which are set out in the Depository Contract Law. The depository bank deposits for safekeeping and trust with the District's agent bank approved pledged securities in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

2. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the non-current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds".

Property taxes are levied by October 1, on the assessed value listed as of the prior January 1, for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Code. Taxes are due upon receipt of the tax bill and are delinquent if not paid before February 1 of the following year following the year in which imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the fiscal year.

Allowances for uncollectible tax receivables within the General Fund and Debt Service are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

3. Inventories and Prepaid Items

The District records purchases of supplies as expenditures, utilizing the purchase method of accounting for inventory in accordance with the Resource Guide.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

4. Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of funds are recorded in the accounting system in order to assign the portion of the applicable appropriation, is employed in the governmental fund financial statements. Encumbrances, which have not been liquidated, are reported as an assigned portion of fund balance in the governmental funds.

5. Capital Assets

Capital assets which include land, buildings, furniture, and equipment, are reported in the applicable governmental activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of $5,000 or more and an estimated useful life in excess of two years.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

5. Capital Assets, continued

Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. When assets are retired or otherwise disposed of, the related costs or other recorded amounts are removed.

Buildings, furniture and equipment and vehicles of the District are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Infrastructure	40
Buildings	40
Building Improvements	40
Vehicles	10
Office Equipment	10
Computer Equipment	10

6. Compensated Absences

No compensated absences are allowed under the District's personnel policies.

7. Arbitrage Payable

The Federal Tax Reform Act of 1986 requires issuers of tax-exempt debt to make payments to the United States Treasury for investment income received at yields that exceed the issuer's tax exempt borrowing rates. The Treasury requires payment for each issue every five years. The estimated liability is updated annually for all tax-exempt issuances or changes in yields until such time payment of the calculated liability is due. The District had no arbitrage liability as of August 31, 2016.

8. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities.

9. Data Control Codes

The data control codes refer to the account code structure prescribed by TEA in the FASRG. The TEA requires school districts to display these codes in the financial statements filed with the Agency in order to ensure accuracy in building a state-wide data base for policy development and funding plans.

10. Government-Wide Net Position

Net investment in capital assets – the component of net position that represents capital assets less capital debt plus unspent bond proceeds. As of August 31, 2016 this amount was $5,156,249.

Restricted for Federal and State Programs – the component of net position that reports the difference between assets and liabilities of the Federal and State special revenue programs that consists of assets with constraints placed on their use by the Department of Education, Agriculture or Texas Education Agency ("TEA") of $295,434.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

10. Government-Wide Net Position, Continued

Restricted for debt service – the component of net position that reports the difference between assets and liabilities of the Debt Service Fund net of accrued interest at August 31, 2016 that consist of assets with constraints placed on their use by the bond covenants of $503,153.

Restricted for capital projects – the component of net position that reports the difference between assets and liabilities of the Capital projects fund in the amount of $2,584,347.

Unrestricted – the difference between the assets and liabilities that are not restricted for any purposes in the amount of $1,174,248.

11. Fund Equity

In the fund financial statements, governmental funds report classifications of fund balance based on controls placed upon the funds. In accordance with GASB Statement No. 54, fund balance classifications are recorded as follows:

Non-spendable Fund Balance – amounts that are not in spendable form or amounts that are legally and contractually required to be maintained intact.
Restricted Fund Balance – amounts constrained to a specific purpose by external parties through constitutional provisions or by enabling legislation.
Committed Fund Balance – amounts constrained to a specific purpose by the Board of Trustees (the highest level of authority within the District); amount cannot be used for any other purpose unless the Board of Trustees takes the same action to remove or change the constraint.
Assigned Fund Balance- general fund amounts constrained to a specific purpose by the Superintendent.
Unassigned Fund balance – residual classification applicable to the general fund only.

The District's unassigned general fund balance will be maintained to provide the District with sufficient working capital and a margin of safety to address local and regional emergencies without borrowing. The unassigned general fund balance may only be appropriated by resolution of the Board of Trustees.

When it is appropriate for fund balance to be assigned, the Board delegates authority to the Superintendent.

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is from the least restrictive to the most restrictive, unless otherwise approved by the Board of Trustees.

12. Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

13. Management's review of subsequent events

Management has evaluated subsequent events through December 2, 2016, the date the financial statements were available to be issued.

Note 2: COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

The Board of Trustees adopts an "appropriated budget" on a basis consistent with GAAP for the General Fund, Debt Service Fund, and Food Service Fund, which is included in the Special Revenue Funds. At a minimum, the District is required to present the original and the final amended budgets for revenues and expenditures compared to actual revenues and expenditures for these three funds.

The following procedures are followed in establishing the budgetary data reflected in the general purpose financial statements:

- Prior to August 20th, the District prepares a budget for the next fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
- After one or more budget workshops with the Board of Trustees, a meeting is called for the purpose of adopting the proposed budget. At least ten (10) days but no more than thirty (30) days public notice for the meeting is required.
- Prior to August 31st, the Board of Trustees legally adopts the budget for the General Fund, Debt Service Fund and Food Service Fund through passage of a resolution.

After the budget is approved, it can only be amended at the function and fund level by approval of a majority of the Board. Amendments are presented to the Board at its regular meetings for their approval.

As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. Total expenditures may not exceed total appropriations, as amended, by fund at function level. Because the District has a policy of careful budgetary control, budget amendments are necessary throughout the year.

A. Finance-Related Legal and Contractual Provisions

1. In accordance with GASB Statement No. 38, "Certain Financial Statement Note Disclosures," there are no violations of finance-related legal and contractual provisions to report.
2. The District did not have any deficit fund balances or negative fund net assets for the fiscal year ended August 31, 2016.

Note 3: DEPOSITS AND INVESTMENTS

At August 31, 2016, the carrying amount of the District's demand deposits and cash on hand was $380,703. The $476,876 bank balance was covered by federal deposit insurance through the FDIC and was collateralized by securities held by the District or by the District's agent in name of the District.

All cash balances and investments are held separately in each of its funds. Funds held at the depository bank were properly secured at all times, and the following was disclosed:

a. Name of depository bank: BBVA Compass Bank

b. Amount of bond or securities pledged as of the date of the highest combined balance on deposit was $1,750,000.

c. Highest cash balance amounted to $1,583,529 and occurred during the month of February, 2016.

Note 3: DEPOSITS AND INVESTMENTS, CONTINUED

d. Total amount of Federal Deposit Insurance Corporation ("FDIC") coverage at the time of the highest combined balance was $276,794.

Investments

The State Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports, and establishment of appropriate policies. It requires the District to adopt, implement, and publicize an investment policy. The investment policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit.

Statutes authorize the District to invest in (1) obligations of the United States Treasury, certain United States agencies, and obligations of the State of Texas, (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools,(9) guaranteed investment contracts, and (10) common trust funds. Management of the District believes it is in compliance with the requirements of the Act and with local policies. The District's
investments in public funds investment pools and money market mutual funds include those with the Lone Star Investment Pool (LSIP).

LSIP is a public funds investment pool administered by First Public (formerly known as the Texas Association of School Board Financial Service). LSIP is a public funds investment pool created under the authorization of the Interlocal Cooperation Act of the State of Texas, Article 4413 (32c), Vernon's Texas Civil Statutes, as amended. It is designed to provide participating local governments with investment vehicles for (1) local funds that are not required to be spent immediately and are available for investment in securities with maturities and returns generally greater than those for money market instruments and (2) local funds which provide daily liquidity. The objective of the LSIP is to provide participating local governments with the highest possible rate of return for such funds, while maintaining safety of principal.

To achieve its objective, the LSIP invests primarily in obligations issued or secured by the U.S. Government, its agencies and instrumentalities, and in commercial paper. Standish Mellon Asset Management and AMR investments provide investment advisory services. Each fund within the Pool has received the highest rating, AAA, from Standard & Poor's as required by the Public Funds Investment Act

The District's general policy is to report money market investments and short-term participating interest-earning investment contracts at amortized cost and to report nonparticipating interest-earning investment contracts using a cost-based measure. However, if the fair value of an investment is significantly affected by the impairment of the credit standing of the issuer or by other factors, it is reported at fair value. The term "short-term" refers to investments which have a remaining term of one year or less at time of purchase. The term "nonparticipating" means that the investment's value does not vary with market interest rate changes.

Non-negotiable certificates of deposit are examples of nonparticipating interest-earning investment contracts.

The overall objective of the District's investment policy is to ensure that District financial assets are properly safeguarded, provide sufficient liquidity, and produce a reasonable rate of return while enabling the District to react to changes in economic conditions.

Note 3: DEPOSITS AND INVESTMENTS, CONTINUED

Investments, Continued

The District's investments at August 31, 2016 are shown below:

Type	Carrying Amount	Fair Value	Maturity
Investments not subject to categorization			
LoneStar	$ 8,862,376	$ 8,862,376	Weighted average < 120 days
Total Investments	$ 8,862,376	$ 8,862,376	

Analysis of Specific Deposit and Investment Risks

GASB Statement No. 40 requires a determination as to whether the District was exposed to the following specific investment risks at year end and if so, the reporting of certain related disclosures:

Credit Risk: Credit Ratings

District investments conform to the District's banking and investment policies and are in accordance with laws and regulations of the State of Texas and TEA. Statutes of the State of Texas and policies mandated by the District's Board authorize the District to invest in obligations of the U.S. Government or its agencies, repurchase agreements, commercial paper, public funds investment pools, mutual funds and money market accounts. As stated above, Lonestar has received the highest rating, AAA, from Standard & Poor's. At year end, the District was not significantly exposed to credit risk.

Custodial Credit Risk

Deposits are exposed to custodial risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the District's name.

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the District's name.

The District was not exposed to custodial credit risk during the course of the fiscal year.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the District's name. The District was not exposed to custodial credit risk during the course of the fiscal year.

Concentration of Credit Risk

It is the policy of the District to reduce risk associated with investments by diversification of the portfolio. The District was not exposed to concentration of credit risk during the course of the fiscal year

Foreign Currency Risk

At year end, there are no foreign currency investments in the District's portfolio.

Note 3: DEPOSITS AND INVESTMENTS, CONTINUED

Analysis of Specific Deposit and Investment Risks, Continued

Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. The District concentrates its investment portfolio in short and intermediate term securities to limit market risk caused by changes in interest rates. At year end, the District was not exposed to interest rate risk.

Note 4: CAPITAL ASSETS

Capital asset activity for the governmental activities for the year ended August 31, 2016 was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Capital Assets, Not Being Depreciated:				
Land	$ 596,685	$ -	$ -	$ 596,685
Construction in Progress	10,500,328	6,713,149	4,974,210	12,239,267
Total Capital Assets, Not Being Depreciated	11,097,013	6,713,149	4,974,210	12,835,952
Capital Assets, Being Depreciated:				
Buildings & Improvements	21,030,162	5,034,677	-	26,064,839
Equipment	2,117,694	230,461	-	2,348,155
Vehicles	2,418,370	83,062	-	2,501,432
Total Capital Assets, Being Depreciated:	25,566,226	5,348,200	-	30,914,426
Less Accumulated Depreciation:				
Buildings & Improvements	(11,515,156)	(370,830)	-	(11,885,986)
Equipment	(1,762,432)	(71,175)	-	(1,833,607)
Vehicles	(1,978,400)	(97,670)	-	(2,076,070)
Total Accumulated Depreciation	(15,255,988)	(539,675)	-	(15,795,663)
Total Capital Assets, Being Depreciated, Net	10,310,238	4,808,525	-	15,118,763
Governmental Activities Capital Assets, Net	$ 21,407,251	$ 11,521,674	$ 4,974,210	$ 27,954,715

Note 4: CAPITAL ASSETS , Continued

Depreciation expense of the governmental activities was charged to functions/programs as follows:

Instruction	$	278,316
Instructional resources		8,063
Cirriculum		10,333
Instructional leadership		67
School leadership		28,410
Guidance		12,513
Health services		3,562
Student transportation		32,071
Food services		35,027
Cocurricular/Extracurricular Activities		22,988
General administration		23,868
Plant maintenance		69,052
Security		5,779
Data processing		9,626
Total Depreciation Expense	$	539,675

Note 5: INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

Interfund receivables and payables are short-term transactions between funds that are accounted for in the appropriate interfund receivable and payable accounts. Interfund balances at August 31, 2016 consisted of the following individual fund receivables and payables:

Receivable Fund	Payable Fund	Amount
General	Special Revenue	$ 153,427
Special Revenue	General	258,076
Debt Service	General	5,054
Trust and Agency	General	746
Internal Service	General	47,470
		$ 464,773

The receivables in the general fund totaling $153,427, from special revenue funds represent amounts due for reimbursement of expenditures paid by the general fund. The receivable in the Special Revenue Fund from the General Fund in the amount of $258,076 includes amounts that are initially deposited into Lone Star for other funds. The receivable in the Debt Service, Internal Service Fund and the Student Activity Fund from the General Fund represents amounts paid by those funds to be reimbursed by the General Fund.

Note 6: SHORT-TERM DEBT ACTIVITY

The District accounts for short-term debts for maintenance purposes through the General Fund. The proceeds from loans are shown in the financial statements as Other Resources. There was no short-term debt activity during the year ended August 31, 2016.

Note 7: CAPITAL LEASES

The Public Property Finance Act gives the District authority to enter into capital leases for the acquisition of personal property. The District has entered into lease agreements as lessee for financing the acquisition of technology equipment in accordance with provisions of the Texas Education Code Section 45.109. This lease agreement qualifies as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future minimum lease payments as of the inception date. Capital leases at August 31, 2016 are summarized as follows:

Date of Issue / Maturity	Interest Rate Payable	Amounts Original Issue	Current Interest	Outstanding 8/31/15	Issued	Retired	Outstanding 8/31/16
2016-2019	4.17%	$ 217,317	$ -	$ -	$ 127,317	$ -	$ 127,317

Future minimum lease payments as of August 31, 2016 are as follows:

Year ending August 31,	
2017	44,185
2018	44,185
2019	44,186
Total	132,556
Less: Interest	5,239
Present value of Minimum Lease Payments	$ 127,317

Note 8: LONG-TERM DEBT

The District issued general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for only governmental activities. General obligation bonds are direct obligations and pledge the full faith and credit of the District. Current principal and interest requirements are payable solely from future revenues of the Debt Service fund which consists principally of property taxes collected by the District and interest earnings. Certain outstanding bonds may be redeemed at their par value prior to their normal maturity dates in accordance with the terms of the related bond indentures. The District has never defaulted on any principal or interest payment.

General obligation bonds payable at August 31, 2016, are summarized as follows:

Date of Issue	Original Issue	Final Maturity	Annual Installments	% Rate	Outstanding Balance
2013	$ 9,000,000	2043	$145,000-$520,000	2.0%-4.375%	8,525,000
2014	$ 8,920,000	2044	$80,000-$555,000	2.0%-4.000%	8,840,000
2015	$ 6,550,000	2045	$90,000-$470,000	4.0%-4.50%	6,160,000
					$ 23,525,000

Note 8: LONG-TERM DEBT, Continued

Date of Issue	Original Issue	Final Maturity	Annual Installments	% Rate	Outstanding Balance
2009	$ 575,670	2024	$3,060-$30,645	5.69%	$ 357,167

Changes in long-term liabilities

Long-term liability activity for the year ended August 31, 2016, was as follows:

	Beginning Balance	Additions	Retirements/ Payments	Ending Balance	Due Within One Year
Governmental activities:					
Bonds Payable:					
General obligations bonds	$ 24,075,000	$ -	$ 550,000	$ 23,525,000	$ 590,000
Add: Premium on bonds	998,993	-	37,225	961,768	-
Capital Lease	-	127,317	-	127,317	44,185
Contractual Obligations	391,689	-	34,522	357,167	36,487
Total governmental activities	$ 25,465,682	$ 127,317	$ 621,747	$ 24,971,252	$ 670,672

Annual debt service requirements to maturity for the bonds and contractual obligations are as follows:

Year Ending August 31	Principal	Interest	Total
2017	626,487	932,501	1,558,988
2018	648,564	909,424	1,557,988
2019	675,759	883,379	1,559,138
2020	713,080	857,858	1,570,938
2021	755,532	832,656	1,588,188
2022-2026	4,302,746	3,721,656	8,024,402
2027-2031	4,415,000	2,842,120	7,257,120
2032-2036	3,925,000	2,071,463	5,996,463
2037-2041	4,845,000	1,145,981	5,990,981
2042-2045	2,975,000	172,153	3,147,153
Total	$ 23,882,168	$ 14,369,191	$ 38,251,359

Note 9: RETIREMENT BENEFITS

Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution

Note 9: RETIREMENT BENEFITS, Continued

rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position

Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592

Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description note above.

Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 thru 2017. It also added a 1.5% contribution for employers not paying Old Age Survivor and Disability Insurance (OASDI) on certain employees effective for fiscal year 2015 as discussed in Note 1 of the TRS 2014 CAFR. The 83rd Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2014 and 2015. The 84th Legislature GAA established the employer contribution rates for fiscal years 2016 and 2017.

Note 9: RETIREMENT BENEFITS, Continued

Contributions, Continued

	2015	2016
Member	6.7%	7.2%
Non-Employer Contributing Entity (State)	6.8%	6.8%
Employers	6.8%	6.8%

Kirbyville CISD 2016 Employer Contributions	$ 176,231
Kirbyville CISD 2016 Member Contributions	$ 522,274
Kirbyville CISD 2015 NECE On-Behalf Contributions	$ 409,137

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

1. On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
2. During a new member's first 90 days of employment.
3. When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
4. When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to.

1. When employing a retiree of the Teacher Retirement System, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
2. When a school district or charger school does not contribute to the Federal Old-Age, survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

Note 9: RETIREMENT BENEFITS, Continued

Actuarial Assumptions

The total pension liability in the August 31, 2015 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2015
Actuarial Cost Method	Individual Entry Age Normal
Amortization Method	Level Percentage of Payroll, Open
Remaining Amortization Period	30 years
Asset Valuation Method	Market Value
Discount Rate	8.00%
Long-term expected Investment Rate of Return*	8.00%
Salary Increases*	3.50% to 9.50%
Payroll Growth Rate	2.50%
Benefit Changes During the Year	None
Ad hoc post-employment benefit changes	None

**Includes Inflation of 2.5%*

The actuarial methods and assumptions are primarily based on a study of actual experience for the four year period ending August 31, 2014 and adopted on September 24, 2015.

Discount Rate

The discount rate used to measure the total pension liability was 8.0%. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is 8%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2015 are summarized below:

Note 9: RETIREMENT BENEFITS, Continued

Asset Class	Target Allocation	Real Return Geometric Basis	Long-Term Expected Portfolio Real Rate of Return*
Global Equity			
U.S.	18%	4.6%	1.0%

Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (8%) in measuring the 2015 Net Pension Liability.

	1% Decrease in Discount Rate (7.0%)	Discount Rate (8.0%)	1% Increase in Discount Rate (9.0%)
District's proportionate share of the net pension liability:	$ 3,253,408	$ 2,076,452	$ 1,096,120

Note 9: RETIREMENT BENEFITS, Continued

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension

At August 31, 2016, the District reported a liability of $2,076,452 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's Proportionate share of the collective net pension liability	$ 2,076,452
State's proportionate share that is associated with District	$ 4,882,796
Total	$ 6,959,248

The net pension liability was measured as of August 31, 2015 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2014 thru August 31, 2015.

At August 31, 2015 the employer's proportion of the collective net pension liability was 0.0058742 % which was an increase of 0.0030840% from its proportion measured as of August 31, 2014.

Changes Since the Prior Actuarial Valuation – The following are changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period:

Economic Assumptions

1. The inflation assumption was decreased from 3.00% to 2.50 %.
2. The ultimate merit assumption for long-service employees was decreased from 1.25% to 1.00%.
3. In accordance with the observed experience, there were small adjustments in the service-based promotional/longevity component of the salary scale.
4. The payroll growth assumption was lowered from 3.50% to 2.50 %.

Mortality Assumptions

5. The post-retirement mortality tables for non-disabled retirees were updated to reflect recent TRS member experience. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.
6. The post-retirement mortality tables for disabled retirees were updated to reflect recent TRS member experience. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.
7. The pre-retirement mortality tables for active employees were updated to use 90% of the recently published RP-2014 mortality table for active employees. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.

Other Demographic Assumptions

8. Previously, it was assumed 10% of all members who had contributed in the past 5 years to be an active member. This was an implicit rehire assumption because teachers have historically had a high incidence of terminating employment for a time and then returning to the workforce at a later date. This methodology was modified to add a more explicit valuation of the rehire incidence in the termination liabilities, and therefore these 10% are no longer being counted as active members.
9. There were adjustments to the termination patterns for members consistent with experience and future expectations. The termination patterns were adjusted to reflect the rehire assumption. The timing of the termination decrement was also changed from the middle of the year to the beginning to match the actual pattern in the data.

Note 9: RETIREMENT BENEFITS, Continued

Other Demographic Assumptions – Continued

10. Small adjustments were made to the retirement patterns for members consistent with experience and future expectations.
11. Small adjustments to the disability patterns were made for members consistent with experience and future expectations. Two separate patterns were created based on whether the member has 10 years' service or more.
12. For members that become disabled in the future, it is assumed 20% of them will choose a 100% joint and survivor annuity option.

Actuarial Methods and Policies
The method of using celled data in the valuation process was changed to now using individual data records to allow for better reporting of some items, such as actuarial gains and losses by source.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the year ended August 31, 2015, the District recognized pension expense of $695,720 and revenue of $695,720 for support provided by the State.

At August 31,. 2014, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	$ 9,586	79,800
Changes in actuarial assumptions	40,290	74,079
Difference between projected and actual investment earnings	340,539	-
Changes in proportion and difference between the District's contributions and the proportionate share of contributions	704,715	584
Total as of August 31, 2015 measurement date	1,095,130	154,463
Contributions paid to TRS subsequent to the measure	176,231	
Total	$ 1,271,361	$ 154,463

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension - Continued

The net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended August 31:	Pension Expense Amount
2017	$ 174,204
2018	174,204
2109	174,206
2020	231,153
2021	102,711
Thereafter	84,189

Note 10: SCHOOL DISTRICT RETIREE HEALTH PLAN

The District contributes to the Texas Public School Retired Employees Group Insurance Program (TRS–Care), a cost–sharing multiple–employer defined benefit postemployment health care plan administered by the Teacher Retirement System of Texas. TRS–Care provides health care coverage for certain persons (and their dependents) who retired under the Teacher Retirement System of Texas. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Section 1575.052 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. The Teacher Retirement System of Texas issues a publicly available financial report that includes financial statements and required supplementary information for TRS–Care. That report may be obtained by visiting the TRS Website at www.trs.state.tx.us under the TRS Publications heading, by calling the TRS Communications Department at 1–800–223–8778, or by writing to the Communications Department of the Teacher Retirement System of Texas at 1000 Red River Street, Austin, Texas 78701.

Funding Policy

Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203 and 204 establish state, active employee and public school contributions, respectively. Funding for free basic coverage is provided by the program based upon public school district payroll. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. Funding for optional coverage is provided by those participants selecting the optional coverage. Contribution rates and amounts are shown in the table below for fiscal years 2014–2016.

	Member		State		School District	
Year	Rate	Amount	Rate	Amount	Rate	Amount
2016	0.65%	$ 47,150	1.0%	$ 72,538	0.55%	$ 39,896
2015	0.65%	$ 46,167	1.0%	$ 71,026	0.55%	$ 39,064
2014	0.65%	$ 45,937	1.0%	$ 70,669	0.55%	$ 38,868

Medicare Part D

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants.
For the fiscal years ended August 31, 2016, 2015, and 2014, the subsidy payments received by TRS-Care on-behalf of the District were $29,871, $31,034, and $19,950, respectively. The information for the year ended August 31, 2016 is an estimate provided by the Teacher Retirement System. These payments are recorded as equal revenues and expenditures in the governmental funds financial statements of the District.

Note 11: RISK MANAGEMENT

Property, Casualty and Liability Insurance

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of property; errors and omissions; and natural disasters for which the District carries commercial insurance. Settled claims have not exceeded insurance coverage in any of the previous three years. There has not been any significant reduction in insurance coverage from that of the previous year. The District retains the risk of the first $10,000 in property insurance after which insurance is purchased.

Note 11: RISK MANAGEMENT, Continued

Workman's Compensation

Effective September 1, 2000, the District contracted with the East Texas Educational Insurance Association for the administration of the worker's compensation program. Claims are paid through Claims Administrative Services, Inc., the third party administrator.

Workman's Compensation, Continued

The claims liability recorded in the general ledger includes an estimate for claims incurred but not recorded, based on the District's historical claims experience. The District is protected against unanticipated catastrophic loss by stop-loss coverage carried through Safety National Casualty Corporation, a commercial insurer licenses or eligible to do business in Texas in accordance with the Texas Insurance Code. The District's maximum loss for 2015-2016 is $82,594. Stop-loss coverage in effect was for annual individual claims exceeding $500,000.

The following is a summary of the changes in the balances of claims liabilities for worker's compensation for the year ended August 31:

	2016	2015
Liability for claims September 1	$ 54,140	$ 59,042
Current year claims and changes in estimates	(2,181)	6,874
Claim payments	(9,168)	(11,776)
Liability for claims August 31	$ 42,791	$ 54,140

Note 12: COMMITMENTS AND CONTINGENCIES

During the year, the District received financial assistance from federal and state governmental agencies in the form of grants. The disbursements of funds received under these programs generally require compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies and the TEA. Any disallowed claims resulting from such audits could become a liability of the General Fund. However, in the opinion of management, such disallowed claims, if any, will not have a material effect on any of the financial statements of the individual fund types included herein or on the overall financial position of the District at August 31, 2016.

As of August 31, 2016, there was no pending litigation against the District.

Note 13: SHARED SERVICE ARRANGEMENTS

The District participates in a Shared Service Arrangement ("SSA") for a federal program with the following school districts:

Member Districts
Buna Independent School District

The District does not account for revenues or expenditures in this program and does not disclose them in these financial statements. The District neither has a joint ownership interest in fixed assets purchased by the fiscal agent, nor does the District have a net equity interest in the fiscal agent. The fiscal agent is neither accumulating significant financial resources nor fiscal contingencies that would give rise to a future additional benefit or burden to the District. The fiscal agent manager is responsible for all financial activities of the SSA.

December 2, 2016

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENTAL AUDITING STANDARDS

Board of Trustees
Kirbyville Consolidated Independent School District
206 East Main Street
Kirbyville, Texas 75956

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Kirbyville Consolidated Independent School District (the "District"), as of and for the year ended August 31, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 2, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Board of Trustees
Kirbyville Consolidated Independent School District
206 East Main Street
Kirbyville, Texas 75956

Report on Compliance for Each Major Program

We have audited Kirbyville Consolidated Independent School District's (the "District") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended August 31, 2016. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2016.

Report on Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

* Clustered Programs

Basis of Presentation

1. The District accounts for all awards under federal programs in the General and Certain Special Revenue Funds in accordance with the Texas Education Agency's *Financial Accountability System Resource Guide.*

   Special Revenue Funds are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal and state awards generally are accounted for in a special revenue fund. Generally, unused balances are returned to the grantor at the close of specified grant periods.

2. These programs are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e. revenues and other financing resources) and decreases (i.e. expenditures and other financing uses) in net current assets.

   The modified accrual basis of accounting is used for these funds. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the liability is incurred, if measurable, except for certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

   Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and accordingly, when such funds are received, they are recorded as deferred revenues until earned. The accompanying schedule of expenditures of federal awards is presented on the modified accrual basis of accounting.

3. The period of availability for federal grant funds for the purpose of liquidation of outstanding obligations made on or before the ending date of the federal project period extends 30 days beyond the federal project period ending date, in accordance with provisions in Section H: Period of Availability of Federal Funds, Part 3, *OMB Circular A-133 Compliance Supplement.*

4. The District participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustments by the grantor agencies; therefore, to the extent that the District has not complied with rules and regulations governing the grants, refund of any money received may be required and the collectability of any related receivable at August 31, 2016, may be impaired.

SCHEDULE OF REQUIRED RESPONSES TO SELECTED SCHOOL FIRST INDICATORS
FOR THE FISCAL YEAR ENDED AUGUST 31, 2016

Data Control Codes		
SF2	Were there any disclosures in the Annual Financial Report and/or other sources of information concerning default on bonded indebtedness obligations?	No
SF4	Did the district receive a clean audit? - Was there an unqualified opinion in the Annual Financial Report?	Yes
SF5	Did the Annual Financial Report disclose any instances of material weaknesses in internal controls?	No
SF6	Was there any disclosure in the Annual Financial Report of material noncompliance?	No
SF7	Did the District make timely payments to Teachers Retirement System (TRS), Texas Workforce Commission (TWC), Internal Revenue Service (IRS) and other government agencies?	Yes
SF8	Did the District not receive an adjusted repayment schedule for more than one fiscal year for an over allocation of FSP funds as a result of financial hardship?	Yes
SF10	Total Accumulated accretion on capital appreciation bonds included in government-wide financial statements at fiscal year end.	$ -
SF11	District's proportionate share of Net Pension Assets	$ -
SF12	District's proportionate share of Net Pension Liabilities	$ 2,076,452
SF13	District's proportionate share of TRS Pension Expenses	$ 220,173
