INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Kirbyville Consolidated Independent School District
206 East Main St
Kirbyville, TX 75956

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Kirbyville Consolidated Independent School District (the "District") as of and for the year ended August 31, 2012, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Kirbyville Consolidated Independent School District as of August 31, 2012, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Governmental Auditing Standards*, we have also issued our report dated December 6, 2012, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statement. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have

applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Kirbyville Consolidated Independent School District's financial statements as a whole. The accompanying schedule of expenditures of federal awards required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations* and the supporting schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements. This information, except for that portion marked "unaudited" on which we express no opinion, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

J.R. Edwards & Associates, LLC

In this section of the Annual Financial Report, we, the managers of the Kirbyville Independent School District (the District), discuss and analyze the District's financial performance for the fiscal year ended August 31, 2012. We encourage readers to consider the information presented here in conjunction with the independent auditors' report on page 2, and the District's Basic Financial Statements that begin on page 11.

FINANCIAL HIGHLIGHTS

- The District's total combined net assets were $9,400,672 at August 31, 2012.
- During the year, the District's expenses were $167,304 less than the $12,328,660 generated in taxes and other revenues for governmental activities.
- The total cost of the District's programs decreased slightly from the period ended August 31, 2011. The District continues to introduce new programs and enhance existing programs designed to assist students in at-risk, economically disadvantaged, and special education sub groups in order to comply with the Texas Academic Knowledge and Skills assessments as well as the mandates of the federal No Child Left Behind Act.
- The general fund reported a fund balance this year of $2,916,425. Of this amount, $1,816,425 is for unrestricted use by the District.
- During the 2011-2012 school year the District received the highest rating (Superior Achievement) from the State's Financial Integrity Rating System of Texas for the school year 2010-2011.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements include three components: (1) management's discussion and analysis (this section), (2) the basic financial statements, and (3) required supplementary information.

Government-Wide Financial Statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. They include the Statement of Net Assets and the Statement of Activities that provide information about the activities of the District as a whole and present a longer-term view of the District's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

The *Statement of Net Assets* presents information on all of the District's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. To assess the overall health of the District, one needs to consider additional nonfinancial factors such as changes in the District's tax base.

The *Statement of Activities* presents information showing how the government's net assets changed during the current fiscal year. All changes in net assets are reported for all of the current year's revenues and expenses regardless of when cash is received or paid. Thus, revenue and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the District's government-wide financial statements distinguish the functions of the District as being principally supported by taxes and intergovernmental revenues (governmental activities) as opposed to business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges.

OVERVIEW OF THE FINANCIAL STATEMENTS - Continued

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objects. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related requirements. The fund financial statements provide detailed information about the District's most significant funds, *not* the District as a whole.

- Some funds are required by State law and by bond covenants.
- The Board of Trustees establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The District has the following kinds of funds:

- ***Governmental Funds.*** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

  Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

  The District maintains several individual governmental funds organized according to their type. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances for the District's most significant funds. The District's major governmental fund is the General Fund. Data for the remaining governmental funds are combined into a single, aggregated presentation.

  The District adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget. The Texas Education Agency also requires the District to present a budgetary comparison statement for one of its special revenue funds (food service) and the debt service fund.

- ***Proprietary Funds.*** Proprietary funds reported by the District are generally used to account for services for which the District charges its employees or internal units. The District maintains an Internal Service fund to accumulate and allocate costs internally among the District's various functions. The District used internal service funds to account for its self-insurance program for workers' compensation. The activities and balances of these funds have been included with governmental activities in the government-wide financial statements.

- ***Fiduciary Funds.*** Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Assets on page 20.

OVERVIEW OF THE FINANCIAL STATEMENTS - Continued

Notes to the Financial Statements. The notes provide additional information that is essential to a complete understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 21-34 of this report.

Required Supplementary Information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* that further explains and supports the information in the financial statements. Required supplementary information can be found on page 35 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Our analysis focuses on the Net Assets (Table I) and Changes in Net Assets (Table II) of the District's governmental activities.

The District's combined net assets were $9,400,672 at August 31, 2012. (See Table I)

Table I
Kirbyville Consolidated Independent School District

Unrestricted	3,473,037	3,120,138
Total Net Assets	$ 9,400,672	$ 9,296,152

Approximately $5.1 million of the District's net assets represent investments in capital assets net of related debt. The $3.4 million of unrestricted net assets represents resources available to fund the programs of the District next year.

Changes in net assets. The Districts total revenues were $12.3 million. A portion, 18 percent, of the District's revenue comes from local property taxes, 77 percent comes from grants and contributions not restricted, while only 2 percent relates to charges for services and the remaining 3 percent relates to investment earnings and other miscellaneous revenue.

Total Cost of all programs and services was $12.1 million. Net assets of the District's governmental activities for the current year increased by $167,304 (see Table II on page 7 of this report).

Key elements of the governmental activities of the District are reflected in the following table.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The District continues to operate from a very conservative viewpoint due to a variety of issues. With much uncertainty about the future of public school finance, the District feels it is prudent to continue to approach fiscal matters conservatively.

The District completed many projects to meet student needs. The District remains in a period of conservation planning even though local values indicate a slight increase.

GENERAL FUND BUDGETARY HIGHLIGHTS

There were few budget amendments for the 2011-2012 school year required to meet various needs throughout the District approved by the Board of Trustees.

CAPITAL ASSET AND LONG-TERM DEBT ACTIVITY

Capital Assets. At August 31, 2012 the District had $11.5 million (net of depreciation) invested in a broad range of capital assets, including land, buildings, furniture and equipment used for instruction, transportation, athletics, administration, and maintenance. This amount represents a net decrease of $246,059 (including additions and deductions) over last year.

ECONOMIC FACTORS AND NEW YEAR'S BUDGETS AND RATES

- Appraised value used for 2012-2013 budget preparation increased slightly. However, due to the instability of the Texas school finance system, the District continues to systematically review staffing patterns, special projects, and revenue and expenditure projections at this time.

- General operating fund spending per student increased in the 2012 budget and is expected to increase again in 2013 primarily due to mandatory pay increases for professional staff.

- The District projected 2012-2013 refined ADA numbers to be approximately 1354. Currently the refined ADA number is 1361.50 which is slightly higher than projected. The attendance rate is up at 96.7 percent.

These indicators were taken into account when adopting the general fund budget for 2012-2013. Budget amounts available in the general fund budget are slightly lower due to state funding shortfalls.

Expenditures continue to rise due to mandated salary increases, insurance, utilities and facilities. The 79th Legislature mandated a property tax reduction from the maximum of $1.33 rate in 2006-2007 for maintenance and operations to a maximum of $1.00 in 2007-2008 with an additional 4 cents made available at the local school board's discretion for enrichment. Currently the District has been able to fill all teaching positions. Any new initiatives undertaken by the District this year are related to At-Risk, Economically Disadvantaged, Special Education or Drop Out retention or Non Completion. These initiatives are focused on improving student performance and decreasing the number of students who are unsuccessful in school. The District is also focusing professional development activities on the improvement of math and science as these are the academic areas demonstrating the greatest need.

If all revenue and expenditure estimates are realized in 2013, the District's fund balance is projected to increase by $6,081.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances as well as demonstrate accountability for funds the District receives. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the District's Superintendent, 206 East Main Street Kirbyville, Texas 75956.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Kirbyville Consolidated Independent School District (District) is a public educational agency operating under the applicable laws and regulations of the State of Texas. The District prepares its basic financial statements in conformity with Generally Accepted Accounting Principles (GAAP) promulgated by the Governmental Accounting Standards Board (GASB) and other authoritative sources identified in *Statement of Auditing Standards No. 69* of the American Institute of Certified Public Accountants. Additionally, the District complies with the requirements of the appropriate version of the Texas Education Agency (TEA) *Financial Accountability System Resource Guide* (FASRG) and the requirements of contracts and grants of agencies from which it receives funds.

A. Reporting Entity

The Board of School Trustees ("Board"), a seven-member group, has governance responsibilities over all activities related to public elementary and secondary education within the jurisdiction of the District. The Board is elected by the public and has the exclusive power and duty to govern and oversee the management of the public schools of the District. All powers and duties not specifically delegated by statute to the Texas Education Agency ("TEA") or to the State Board of Education are reserved for the Board, and the TEA may not substitute its judgment for the lawful exercise of those powers and duties by the Board. The District receives funding from local, state and federal government sources and must comply with the requirements of those funding entities. However, the District is not included in any other governmental "reporting entity" as defined by the GASB in its Statement No. 14, "The Financial Reporting Entity" and there are no component units included within the reporting entity.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Assets and the Statement of Changes in Net Assets) report information on all of the nonfiduciary activities of the primary government. The statement of net assets and the statement of activities include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function. *Program revenues* include charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function. They also include grants and contributions that are restricted to meeting operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported as *general revenues.*

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. Operating expenses for the internal service fund include the cost of services and administrative expenses. All revenues and expenses not meeting the definitions described above are reported as nonoperating revenues and expenses.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting.* Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation, Continued

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting.* Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual, i.e., both measurable and available to finance expenditures of the fiscal period. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, claims and judgments, are recorded only when the payment is due.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State of Texas are recognized under the susceptible-to-accrual concept and so have been recognized as revenues of the current fiscal period. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered earned to the extent of the expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as deferred revenues until the related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount.

The District reports the following major governmental funds:

General Fund: This is the District's primary operating fund. It accounts for all financial resources of the District except those required to be accounted for in another fund.

Debt Service Fund: This fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

In addition, the District reports the following fund types:

Agency Funds: These funds are used to account for resources held in a custodial capacity by the District and consists of funds that are the property of students or others. Agency funds typically involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

Internal Service Fund: This fund is used to report on activity in the worker's compensation fund.

D. Assets, Liabilities, and Net Assets or Equity

1. Cash, Cash Equivalents and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, money market bank sweep accounts, and short-term investments with original maturities of three months or less from the date of acquisition. Investments for the District are reported at fair value.

For cash management purposes, the District's funds must be deposited and invested under the terms of a depository contract, contents of which are set out in the Depository Contract Law. The depository bank deposits for safekeeping and trust with the District's agent bank approved pledged securities in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

2. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the non-current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds".

Property taxes are levied by October 1, on the assessed value listed as of the prior January 1, for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Code. Taxes are due upon receipt of the tax bill and are delinquent if not paid before February 1 of the following year following the year in which imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the fiscal year.

Allowances for uncollectible tax receivables within the General Fund and Debt Service are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

3. Inventories and Prepaid Items

The District records purchases of supplies as expenditures, utilizing the purchase method of accounting for inventory in accordance with the Resource Guide.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

4. Capital Assets

Capital assets which include land, buildings, furniture, and equipment, are reported in the applicable governmental activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of $5,000 or more and an estimated useful life in excess of two years.

Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. When assets are retired or otherwise disposed of, the related costs or other recorded amounts are removed.

Buildings, furniture and equipment and vehicles of the District are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Infrastructure	40
Buildings	40
Building Improvements	40
Vehicles	10
Office Equipment	10
Computer Equipment	10

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

5. Compensated Absences

No compensated absences are allowed under the District's personnel policies.

6. Arbitrage Payable

The Federal Tax Reform Act of 1986 requires issuers of tax-exempt debt to make payments to the United States Treasury for investment income received at yields that exceed the issuer's tax exempt borrowing rates. The Treasury requires payment for each issue every five years. The estimated liability is updated annually for all tax-exempt issuances or changes in yields until such time payment of the calculated liability is due. The District had no arbitrage liability as of August 31, 2012.

7. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities.

8. Data Control Codes

The data control codes refer to the account code structure prescribed by TEA in the FASRG. The TEA requires school districts to display these codes in the financial statements filed with the Agency in order to ensure accuracy in building a state-wide data base for policy development and funding plans.

9. Fund Equity

In the fund financial statements, governmental funds report classifications of fund balance based on controls placed upon the funds. In accordance with GASB Statement No. 54, fund balance classifications are recorded as follows:

Non-spendable Fund Balance – amounts that are not in spendable form or amounts that are legally and contractually required to be maintained intact.
Restricted Fund Balance – amounts constrained to a specific purpose by external parties through constitutional provisions or by enabling legislation.
Committed Fund Balance – amounts constrained to a specific purpose by the Board of Trustees (the highest level of authority within the District); amount cannot be used for any other purpose unless the Board of Trustees takes the same action to remove or change the constraint.
Assigned Fund Balance- general fund amounts constrained to a specific purpose by the Superintendent.
Unassigned Fund balance – residual classification applicable to the general fund only.

The District's unassigned general fund balance will be maintained to provide the District with sufficient working capital and a margin of safety to address local and regional emergencies without borrowing. The unassigned general fund balance may only be appropriated by resolution of the Board of Trustees.

When it is appropriate for fund balance to be assigned, the Board delegates authority to the Superintendent.

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is from the least restrictive to the most restrictive, unless otherwise approved by the Board of Trustees.

Note 2: COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

The Board of Trustees adopts an "appropriated budget" on a basis consistent with GAAP for the General Fund, Debt Service Fund, and Food Service Fund, which is included in the Special Revenue Funds. At a minimum, the District is required to present the original and the final amended budgets for revenues and expenditures compared to actual revenues and expenditures for these three funds.

The following procedures are followed in establishing the budgetary data reflected in the general purpose financial statements:

- Prior to August 20th, the District prepares a budget for the next fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
- After one or more budget workshops with the Board of Trustees, a meeting is called for the purpose of adopting the proposed budget. At least ten (10) days but no more than thirty (30) days public notice for the meeting is required.
- Prior to August 31st, the Board of Trustees legally adopts the budget for the General Fund, Debt Service Fund and Food Service Fund through passage of a resolution.

After the budget is approved, it can only be amended at the function and fund level by approval of a majority of the Board. Amendments are presented to the Board at its regular meetings for their approval.

As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. Total expenditures may not exceed total appropriations, as amended, by fund at function level. Because the District has a policy of careful budgetary control, budget amendments are necessary throughout the year.

B. Finance-Related Legal and Contractual Provisions

1. In accordance with GASB Statement No. 38, "Certain Financial Statement Note Disclosures," violations of finance-related legal and contractual provisions, if any, are reported below, along with actions taken to address such violations:

Violation	Action Taken
None reported	Not applicable

1. Deficit Fund Balance or Fund Net Assets of Individual Funds

   The District did not have any deficit fund balances or negative fund net assets for the fiscal year ended August 31, 2012.

Note 3: DEPOSITS AND INVESTMENTS

At August 31, 2012, the carrying amount of the District's demand deposits and cash on hand was $436,538. The $511,363 bank balance was covered by federal deposit insurance through the FDIC and was collateralized by securities held by the District or by the District's agent in name of the District.

The District was not exposed to custodial credit risk at any point during the fiscal year ended August 31, 2012.

Note 3: DEPOSITS AND INVESTMENTS, CONTINUED

All cash balances and investments are held separately in each of its funds. Funds held at the depository bank were properly secured at all times, and the following was disclosed:

a. Name of depository bank: BBVA Compass Bank

b. Amount of bond or securities pledged as of the date of the highest combined balance on deposit was $2,153,169.

c. Highest cash balance amounted to $2,261,279 and occurred during the month of September, 2011.

d. Total amount of Federal Deposit Insurance Corporation ("FDIC") coverage at the time of the highest combined balance was $2,119,582.

Investments

The State Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports, and establishment of appropriate policies. It requires the District to adopt, implement, and publicize an investment policy. The investment policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit.

Statutes authorize the District to invest in (1) obligations of the United States Treasury, certain United States agencies, and obligations of the State of Texas, (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools,(9) guaranteed investment contracts, and (10) common trust funds. Management of the District believes it is in compliance with the requirements of the Act and with local policies. The District's
investments in public funds investment pools and money market mutual funds include those with the Lone Star Investment Pool (LSIP).

LSIP is a public funds investment pool administered by First Public (formerly known as the Texas Association of School Board Financial Service). LSIP is a public funds investment pool created under the authorization of the Interlocal Cooperation Act of the State of Texas, Article 4413 (32c), Vernon's Texas Civil Statutes, as amended. It is designed to provide participating local governments with investment vehicles for (1) local funds that are not required to be spent immediately and are available for investment in securities with maturities and returns generally greater than those for money market instruments and (2) local funds which provide daily liquidity. The objective of the LSIP is to provide participating local governments with the highest possible rate of return for such funds, while maintaining safety of principal.

To achieve its objective, the LSIP invests primarily in obligations issued or secured by the U.S. Government, its agencies and instrumentalities, and in commercial paper. Standish Mellon Asset Management and AMR Investments provide investment advisory services. Each fund within the Pool has received the highest rating, AAA, from Standard & Poor's as required by the Public Funds Investment Act

The District's general policy is to report money market investments and short-term participating interest-earning investment contracts at amortized cost and to report nonparticipating interest-earning investment contracts using a cost-based measure. However, if the fair value of an investment is significantly affected by the impairment of the credit standing of the issuer or by other factors, it is reported at fair value. The term "short-term" refers to investments which have a remaining term of one year or less at time of purchase. The term "nonparticipating" means that the investment's value does not vary with market interest rate changes.

Note 3: DEPOSITS AND INVESTMENTS, CONTINUED

Investments, Continued

Non-negotiable certificates of deposit are examples of nonparticipating interest-earning investment contracts.

The overall objective of the District's investment policy is to ensure that District financial assets are properly safeguarded, provide sufficient liquidity, and produce a reasonable rate of return while enabling the District to react to changes in economic conditions.

The District's investments at August 31, 2012 are shown below:

Type	Carrying Amount	Fair Value	Maturity
Investments not subject to categorization			
LoneStar	$ 4,353,220	$ 4,353,220	Weighted average < 120 days
Total Investments	$ 4,353,220	$ 4,353,220	

Analysis of Specific Deposit and Investment Risks

GASB Statement No. 40 requires a determination as to whether the District was exposed to the following specific investment risks at year end and if so, the reporting of certain related disclosures:

Credit Risk: Credit Ratings

District investments conform to the District's banking and investment policies and are in accordance with laws and regulations of the State of Texas and TEA. Statutes of the State of Texas and policies mandated by the District's Board authorize the District to invest in obligations of the U.S. Government or its agencies, repurchase agreements, commercial paper, public funds investment pools, mutual funds and money market accounts. As stated above, Lonestar has received the highest rating, AAA, from Standard & Poor's. At year end, the District was not significantly exposed to credit risk.

Custodial Credit Risk

Deposits are exposed to custodial risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the District's name.

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the District's name. The District was not exposed to custodial credit risk during the course of the fiscal year.

Concentration of Credit Risk

It is the policy of the District to reduce risk associated with investments by diversification of the portfolio. The District was not exposed to concentration of credit risk during the course of the fiscal year

Note 3: DEPOSITS AND INVESTMENTS, CONTINUED

Investments, Continued

Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the District was not exposed to foreign currency risk.

Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. The District concentrates its investment portfolio in short and intermediate term securities to limit market risk caused by changes in interest rates. At year end, the District was not exposed to interest rate risk.

Note 4: CAPITAL ASSETS

Note 5: INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

Interfund receivables and payables are short-term transactions between funds that are accounted for in the appropriate interfund receivable and payable accounts. Interfund balances at August 31, 2012 consisted of the following individual fund receivables and payables:

Receivable Fund	Payable Fund		Amount
General	Special Revenue	$	81,008
Special Revenue	General		191,162
General	Debt Service		1,016
Internal Service	General Fund		36,121

		$	309,613

The receivables in the general fund totaling $81,008, and $1,016 from special revenue funds, and the debt service fund represent amounts due for reimbursement of expenditures paid by the general fund. The receivable in the Special Revenue Fund from the General Fund in the amount of $191,162 includes amounts that are initially deposited into Lone Star for other funds. The receivable in the Internal Service Fund and the Student Activity Fund from the General Fund represents amounts paid by those funds to be reimbursed by the General Fund.

Note 6: SHORT-TERM DEBT ACTIVITY

The District accounts for short-term debts for maintenance purposes through the General Fund. The proceeds from loans are shown in the financial statements as Other Resources. There was no short-term debt activity during the year ended August 31, 2012.

Note 7: LONG-TERM DEBT

The District issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for only governmental activities. General obligation bonds are direct obligations and pledge the full faith and credit of the District. Current principal and interest requirements are payable solely from future revenues of the Debt Service fund which consists principally of property taxes collected by the District and interest earnings. Certain outstanding bonds may be redeemed at their par value prior to their normal maturity dates in accordance with the terms of the related bond indentures. The District has never defaulted on any principal or interest payment.

General obligation bonds payable at August 31, 2012, are summarized as follows:

Note 8: RETIREMENT BENEFITS

Plan Description

The District contributes to the Teacher Retirement System of Texas (TRS), a cost-sharing multiple employer defined benefit pension plan. TRS administers retirement and disability annuities, and death and survivor benefits to employees and beneficiaries of employees of the public school systems of Texas. TRS operates primarily under the provision of the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C. TRS also administers proportional retirement benefits and service credit transfer under Texas Government Code, Title 8, Chapters 803 and 805, respectively. The Texas legislature has the authority to establish or amend benefit provisions and may, under certain circumstances, grant special authority to the TRS Board of Trustees.

TRS issues a publicly available financial report that includes financial statements and required supplementary information for the defined benefit pension plan. That report may be obtained by writing to the TRS Communications Department, 1000 Red River Street, Austin, Texas 78701, by calling the TRS Communications Department at 1-800-223-8778, or by downloading the report from the TRS Internet website, www.trs.state.tx.us, under the TRS Publications heading.

Funding Policy

Contribution requirements are not actuarially determined but are established and amended pursuant to the following state funding policy: (1) The state constitution requires the legislature to establish a member contribution rate of not less than 6.0% of the member's annual compensation and a state contribution rate of not less than 6.0% and not more than 10.0% of the aggregate annual compensation of all members of the system during the fiscal year.(2) A state statute prohibits benefit improvements if, as a result of the particular action, the time required to amortize TRS's unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Contribution rates and contributions for fiscal years 2012-2010 are shown in the following table. These rates are set by the General Appropriations Act. In certain instances, the reporting district is required to make all or a portion of the stat's and/or member's contribution and on the portion of the employees' salaries that exceeded the statutory minimum.

Note 9: SCHOOL DISTRICT RETIREE HEALTH PLAN

Plan Description

The District contributes to the Texas Public School Retired Employees Group Insurance Program (TRS–Care), a cost–sharing multiple–employer defined benefit postemployment health care plan administered by the Teacher Retirement System of Texas. TRS–Care provides health care coverage for certain persons (and their dependents) who retired under the Teacher Retirement System of Texas. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Section 1575.052 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. The Teacher Retirement System of Texas issues a publicly available financial report that includes financial statements and required supplementary information for TRS–Care. That report may be obtained by visiting the TRS Website at www.trs.state.tx.us under the TRS Publications heading, by calling the TRS Communications Department at 1–800–223–8778, or by writing to the Communications Department of the Teacher Retirement System of Texas at 1000 Red River Street, Austin, Texas 78701.

Funding Policy

Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203 and 204 establish state, active employee and public school contributions, respectively. Funding for free basic coverage is provided by the program based upon public school district payroll. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. Funding for optional coverage is provided by those participants selecting the optional coverage. Contribution rates and amounts are shown in the table below for fiscal years 2012–2010.

Year	Member Rate	Member Amount	State Rate	State Amount	School District Rate	School District Amount
2012	0.65%	$ 45,538	1.0%	$ 70,058	0.55%	$ 38,532
2011	0.65%	$ 44,677	1.0%	$ 68,735	0.55%	$ 37,803
2010	0.65%	$ 45,199	1.0%	$ 69,539	0.55%	$ 38,247

Medicare Part D

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. For the fiscal years ended August 31, 2012, 2011, and 2010, the subsidy payments received by TRS-Care on-behalf of the District were $17,993, $17,519, and $19,564, respectively. The information for the year ended August 31, 2012 is an estimate provided by the Teacher Retirement System. These payments are recorded as equal revenues and expenditures in the governmental funds financial statements of the District.

Note 10: RISK MANAGEMENT

Property, Casualty and Liability Insurance

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of property; errors and omissions; and natural disasters for which the District carries commercial insurance. Settled claims have not exceeded insurance coverage in any of the previous three years. There has not been any significant reduction in insurance coverage from that of the previous year. The District retains the risk of the first $10,000 in property insurance after which insurance is purchased.

Workman's Compensation

Effective September 1, 2000, the District contracted with the East Texas Educational Insurance Association for the administration of the worker's compensation program. Claims are paid through Claims Administrative Services, Inc., the third party administrator.

The claims liability recorded in the general ledger includes an estimate for claims incurred but not recorded, based on the District's historical claims experience. The District is protected against unanticipated catastrophic loss by stop-loss coverage carried through Safety National Casualty Corporation, a commercial insurer licenses or eligible to do business in Texas in accordance with the Texas Insurance Code. The District's maximum loss for 2011-2012 is $81,717. Stop-loss coverage in effect was for annual individual claims exceeding $500,000.

The following is a summary of the changes in the balances of claims liabilities for worker's compensation for the year ended August 31:

	2012	2011
Liability for claims September 1	$ 73,232	$ 119,718
Current year claims and changes in estimates	7,868	(37,222)
Claim payments	(9,625)	(9,264)
Liability for claims August 31	$ 71,475	$ 73,232

Note 11: COMMITMENTS AND CONTINGENCIES

During the year, the District received financial assistance from federal and state governmental agencies in the form of grants. The disbursements of funds received under these programs generally require compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies and the TEA. Any disallowed claims resulting from such audits could become a liability of the General Fund. However, in the opinion of management, such disallowed claims, if any, will not have a material effect on any of the financial statements of the individual fund types included herein or on the overall financial position of the District at August 31, 2012.

As of August 31, 2012, there was no pending litigation against the District.

Note 12: SHARED SERVICE ARRANGEMENTS

The District participates in a Shared Service Arrangement ("SSA") for a federal program with the following school districts:

Member Districts
Buna Independent School District

The District does not account for revenues or expenditures in this program and does not disclose them in these financial statements. The District neither has a joint ownership interest in fixed assets purchased by the fiscal agent, nor does the District have a net equity interest in the fiscal agent. The fiscal agent is neither accumulating significant financial resources nor fiscal contingencies that would give rise to a future additional benefit or burden to the District. The fiscal agent manager is responsible for all financial activities of the SSA.

Note 13: PRIOR PERIOD ADJUSTMENT

A prior period adjustment in the amount of $62,784 was made to correct prior year amount due to shared service arrangement.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENTAL AUDITING STANDARDS

Board of Trustees
Kirbyville Consolidated Independent School District
206 East Main St
Kirbyville, TX 75956

We have audited the financial statements of the governmental activities, and the aggregate remaining fund information of Kirbyville Consolidated Independent School District as of and for the year ended August 31, 2012, which collectively comprise Kirbyville Consolidated Independent School District's (the "District") basic financial statements, and have issued our report thereon dated December 6, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Governmental Auditing Standards,* issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of Kirbyville Consolidated Independent School District is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *material weakness* is a significant deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not necessarily designed to identify all deficiencies in the internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws,

Compliance and Other Matters, Continued

regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the District's Trustees and management, the Texas Education Agency, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Board of Trustees
Kirbyville Consolidated Independent School District
206 East Main St
Kirbyville, TX 75956

Compliance

We have audited the compliance of Kirbyville Consolidated Independent School District (the "District") with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended August 31, 2012. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.* Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, Kirbyville Consolidated Independent School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2012.

Internal Control Over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A *deficiency in internal control over compliance* exist when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance; such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses as defined above.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, and the aggregate remaining fund information of Kirbyville Consolidated Independent School District as of and for the year ended August 31, 2012, and have issued our report thereon dated December 6, 2012, which contained unqualified opinions on those financial statements. Our audit was performed for the purpose of forming opinions on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects in relation to the financial statements as a whole.

This report is intended solely for the information and use of the District's Trustees and management, the Texas Education Agency, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Basis of Presentation

The District accounts for all awards under federal programs in the General and Certain Special Revenue Funds in accordance with the Texas Education Agency's *Financial Accountability System Resource Guide.* These programs are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e. revenues and other financing resources) and decreases (i.e. expenditures and other financing uses) in net current assets.

The modified accrual basis of accounting is used for these funds. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the liability is incurred, if measurable, except for certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and accordingly, when such funds are received, they are recorded as deferred revenues until earned. Generally, unused balances are returned to the grantor at the close of specified project periods.
