

March 20, 2023

Dear Cannon Parents:

We are thankful to be concluding another successful year of safe, efficient and reliable transportation for our families. While this year has largely been successful, higher fuel prices, driver shortages and the escalation in costs to maintain our fleet continue to create operational challenges for us. I am thankful for the great team of drivers that we have at Cannon and I appreciate the patience and flexibility on the part of our families.

As we look ahead, I want to remind our families about the investments we have made and continue to make in our fleet – new buses brought into the fleet each year with three-point safety harnesses on all buses. We take pride and the utmost care in taking care of and maintaining our fleet, which in turn translates to a safe vehicle for our passengers.

As you prepare to enroll in our transportation service for the 2023-24 school year, please keep in mind that we require all families, both those who have utilized our service in the current and/or previous years and those who have not, to enroll in transportation services. **Please note that we will not automatically roll-forward your enrollment from the current year to next year-you must opt-in to transportation services.**

If you have any questions concerning routes or stops, please contact me at 704-920-7203 or by emailing me at dwyke@cannonschool.org.

We look forward to serving your transportation needs again next year.

Sincerely,

Danny Wyke
Director of Transportation
