

Read Across America Week Promotes a Love of Reading in Region 14 PreK - 5

March 9, 2023 – Many friends stopped by the district elementary schools last week to celebrate Read Across America Week by sharing a book with students.

Special guest readers who brought their favorite books to share with students included local librarians, Region 14 administrators and teachers, Board of Education members, town Selectman, and the members of the local town organizations. Students were also visited by Nonnewaug High School student-athlete readers as well as Agriscience students who brought along some of their furry friends to visit second grade classrooms.

The Read Across America is a celebration of reading to coincide with the birthday of the beloved author, Dr. Seuss on March 2. It's a week-long celebration of diverse characters and innovative stories read by special guests to help spark the love of reading for children. Events in Region 14 elementary schools include the guest readers as well as classroom activities centered around Dr. Seuss, Spirit Days, and special cozy corners and Drop Everything and Read sessions.
