

EMERGENCY CLOSING OF SCHOOLS AND ACTIVITIES CANCELLATION

1. During the time when the schools are normally in session, and when unusual conditions exist - epidemic, illness, weather conditions hazardous to transportation or other conditions representing a danger to the students - the Superintendent of Schools or designated representative shall be empowered to suspend operations until the danger no longer represents a threat to student welfare.
2. When, because of inclement weather, (1) school is not in session, (2) school closes early, or (3) activity buses are canceled, all scheduled after-school activities will generally be canceled. On these days, games, programs and other activities will be held only with the approval of the Superintendent of Schools.
3. Notwithstanding the terms of this policy, the Child Care programs and the Ice Arena may operate on such a closing day if approved by the Superintendent.
