## *Sounds from the Forest*

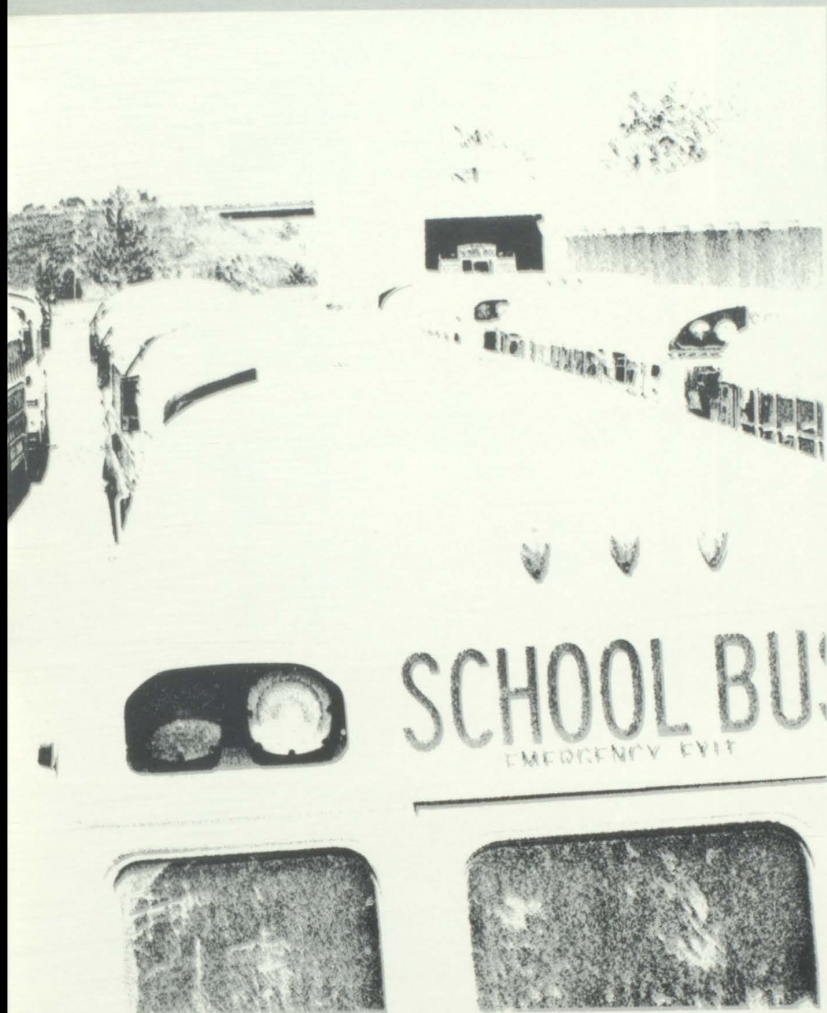

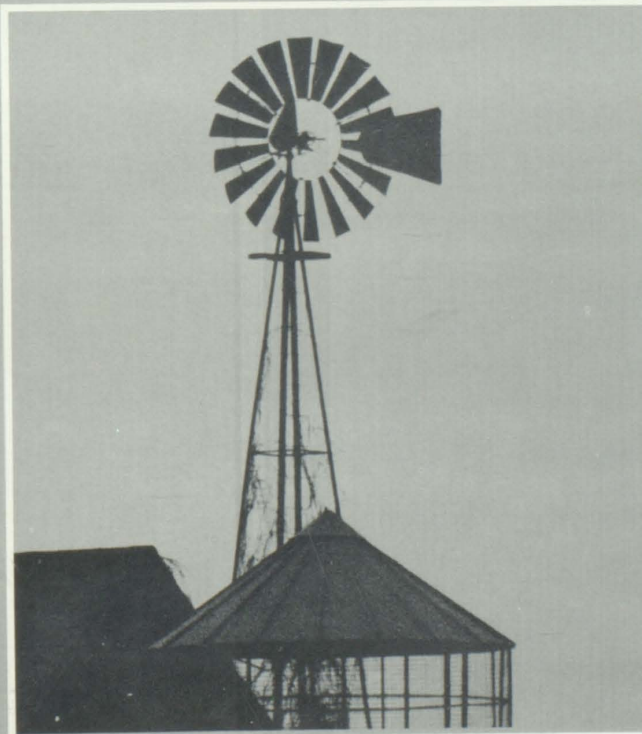

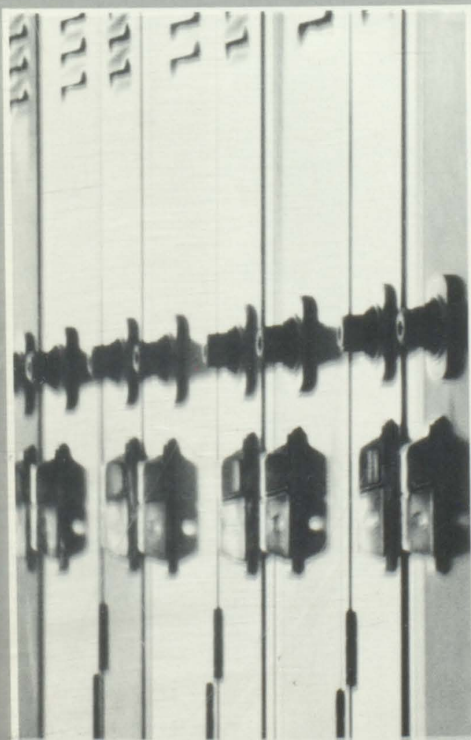

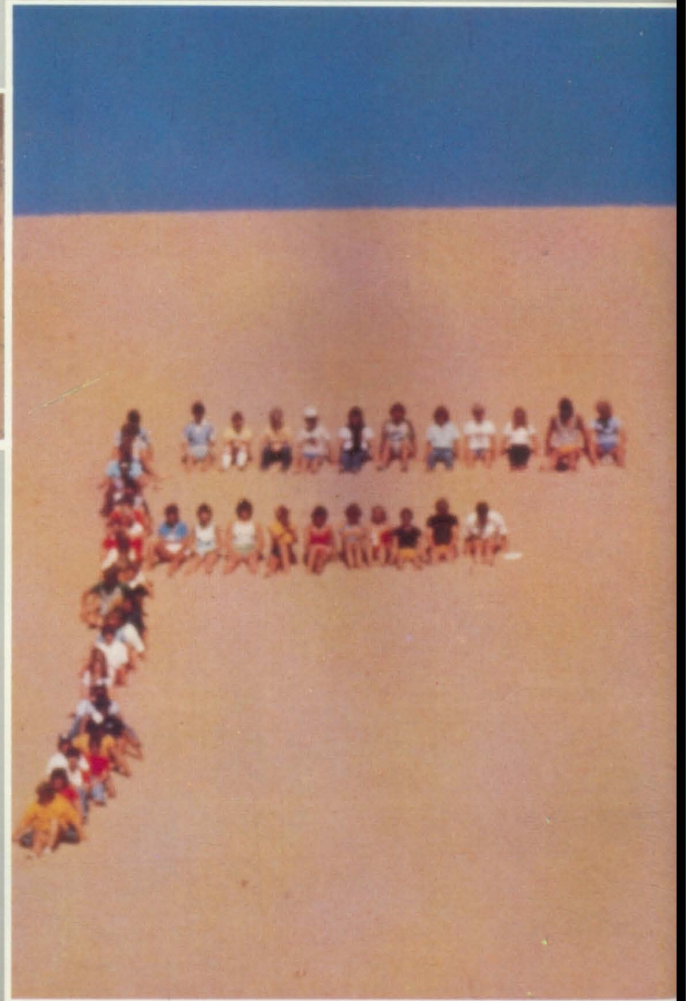

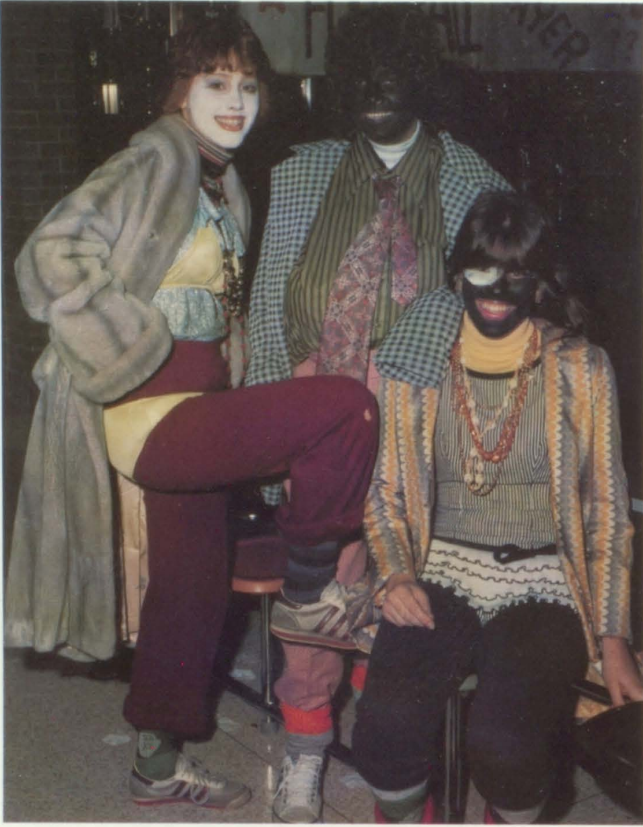

Quiet postcard solitude  
interrupted by tardy bells and  
buses and slamming lockers.  
*Brrrrring! . . . Bang! . . .*  
*Shuffle-d-clump! . . . **SOUND.***  
Taking it all in.  
Taking it all for granted

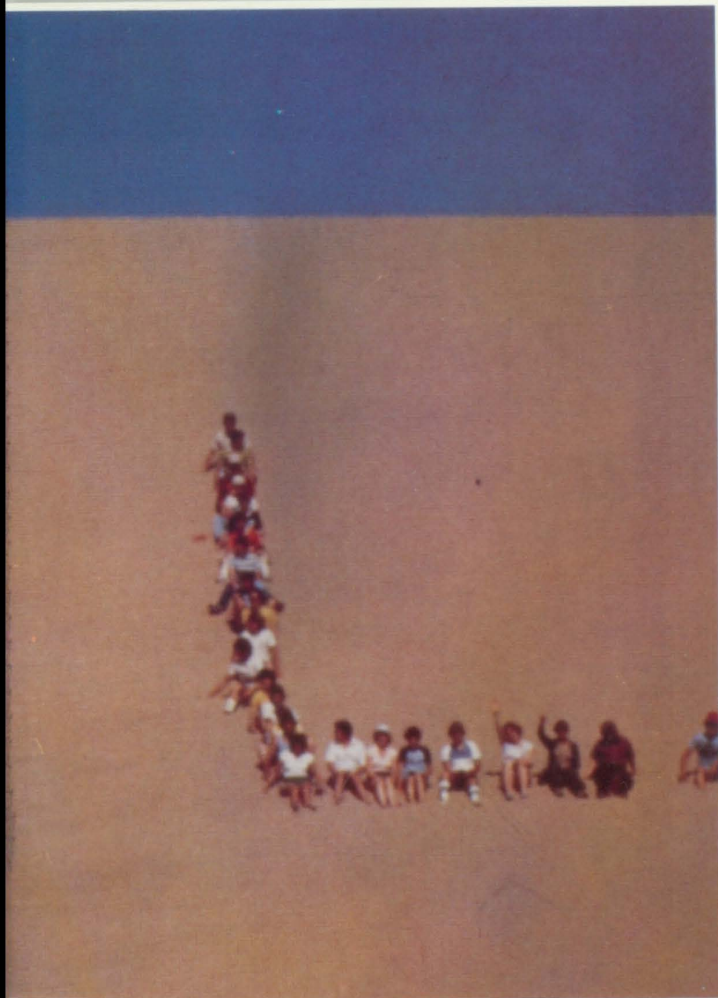

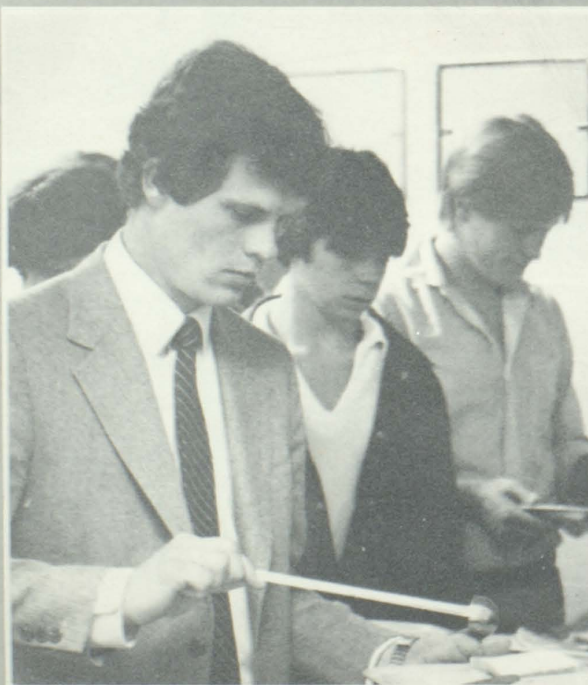

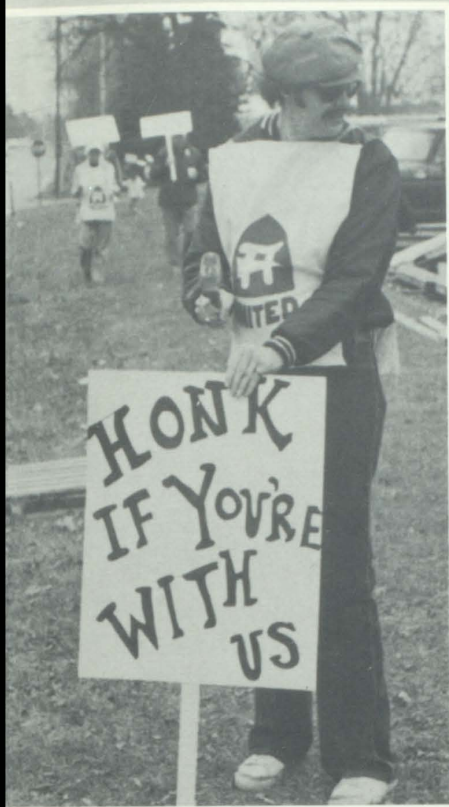

Each year we immortalize moments . . .  
 Unique. Sweet.  
 Agonizing. Frantic.  
 Gigantic. Personal. . .  
 keeping memories in a single dimension.  
*SIGHT.*

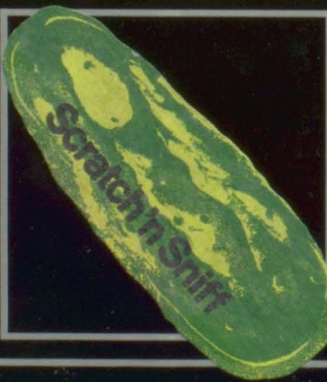

Each life is a product of all five senses. Memories, therefore, are not exclusive to sight. Hearing a song, we remember most vividly a particular person, place or situation. A sniff of sulfur awakens nostrils and recalls third hour chemistry lab. We remember garlicked odors on lasagna day sneaking down to math class or rusty, luke-warm, water-fountain drinks or c-c-c-c-cold c-c-c-classrooms or "doot-doo-waaaas" chanted during morning announcements by giggly cheerleaders.

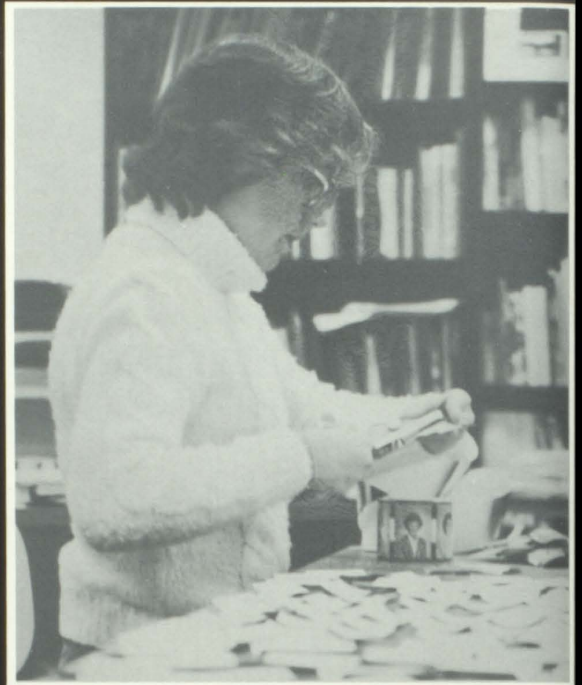

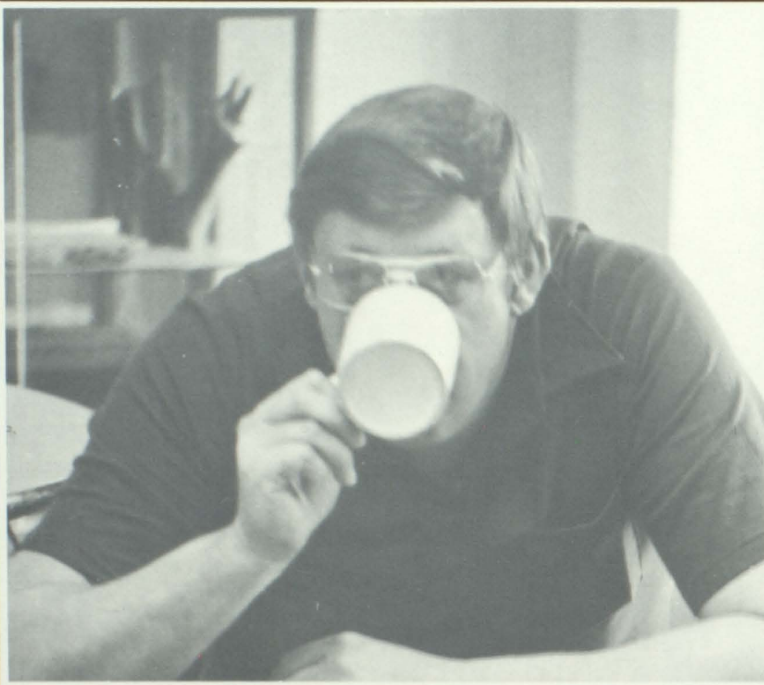

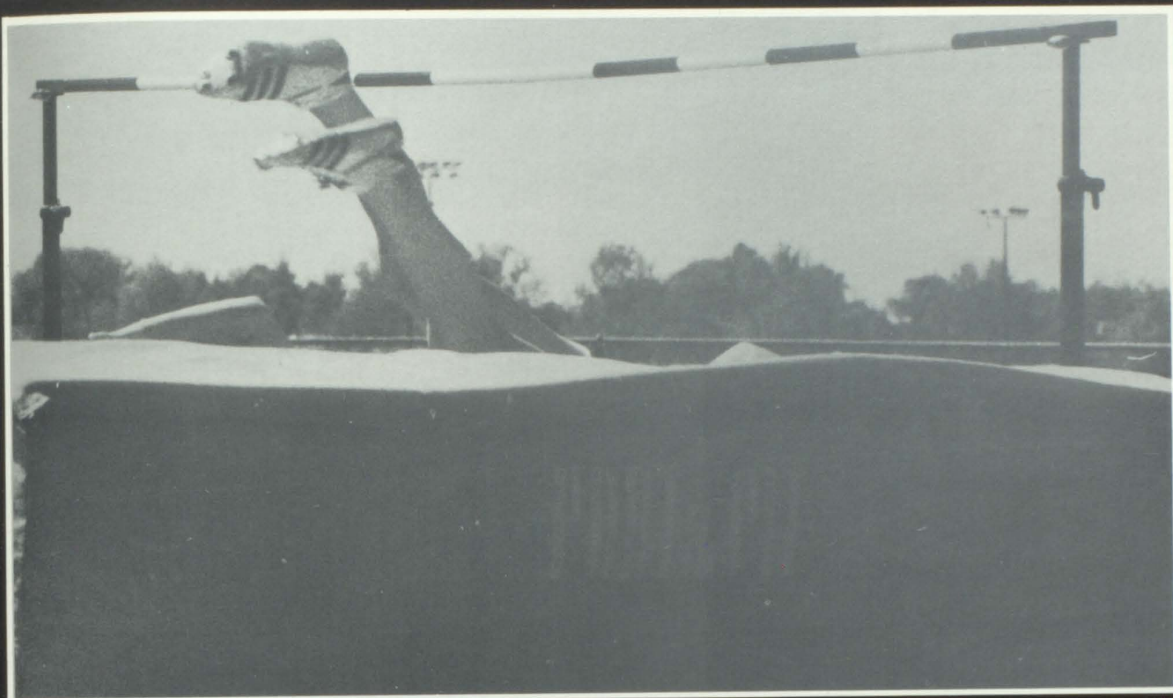

We see, hear, smell, taste and feel our way through school; through life. All five senses fuse into the total dimension of experience.

But experience is flattened into 3x5 glossies and the dimensions of a full year, a full life, are squashed between the covers of a book. This year, the Forester adds a new dimension to recorded Forest Lake High School history. We add to the basic visual rhythm the verbal harmony that can make the most monotonous of tunes a symphony.

# Summer in the Forest

Rooster-tails. Pontoons. Northern Sunnies. Chiggers. What do all these things have in common? They can all be found in or on the lake each summer. After all, what would summer be without all those acres covered by blue. Going to Valley Fair or tubing down the Apple River were favorite activities too. And everybody knows that when the sun went down, the action was at the HUB.

The past summer was filled with boat races in the rain, chiggers at the beach. Fourth of July festivities and a wet, gloomy August. The only sure sign of school was the State Fair, as always.

**RIGHT:** The Forest Lake beach scene was a popular one on warm summer days. **FAR RIGHT:** 295 runners finished the Third Country Tailor Run: 200 three-milers and 95 hearty 12-milers. Bob Fedderly, English teacher, was Director of the race.

Peek-A-Boo! A partial eclipse of the moon, July 16, was seen between 10:25 p.m. and 1:00 a.m. in Forest Lake.

LEFT: July 4th means celebration. Here that means a parade, carnival, tractor pull and fireworks. BELOW: This familiar sight at Lakeside Beach was a welcome sight for hungry sunbathers and swimmers.

LEFT: The North Country is as "down home" as Texas when it comes to horses or rodeo. BELOW: The boat races are always popular; even when it rains.

# Homecoming Rein of Error Thwarts Mustang Recall

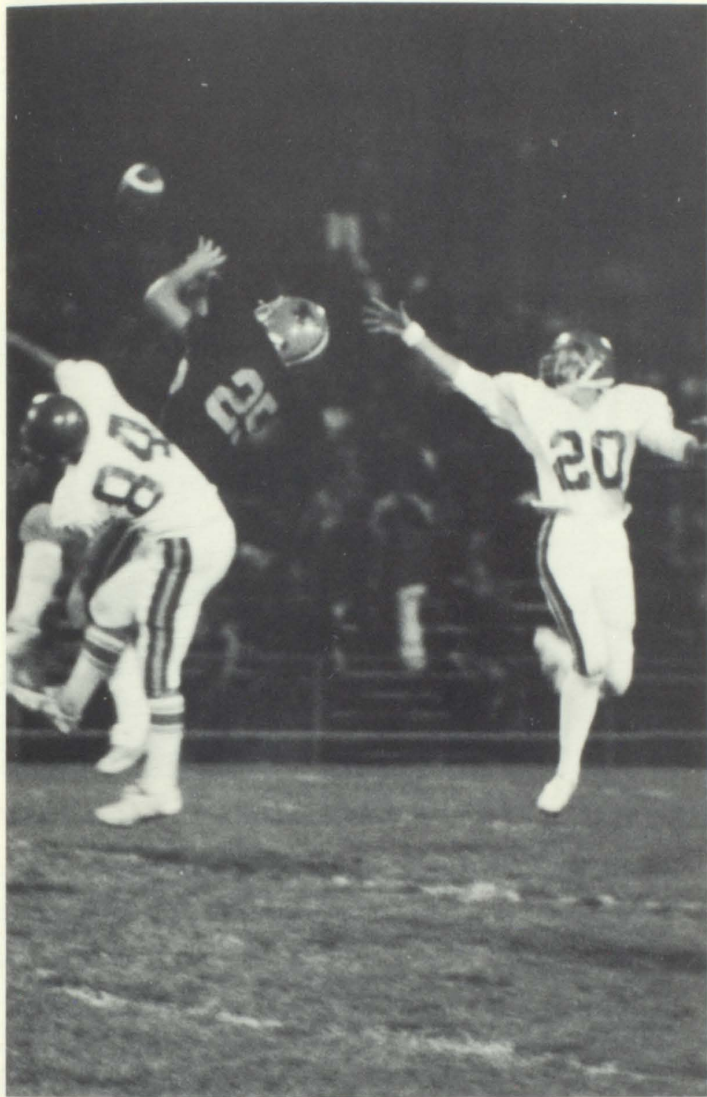

Activity is synonymous with Homecoming in Ranger country. A variety of kooky and clever contests were combined with the gracious ceremony of the coronation, the vocal enthusiasm of the pepfest and game, the pulsing pagentry of the parade and bonfire and the oomp-pa-pas at the Alumni Polka. Student Council planned extra surprises like a balloon raise at the game and coupons for the purchase of hats, shirts and buttons. This year that old school spirit seemed to return after many thought the flame had died. Battle Cry was never louder than during the pep-fest this year. Then there was Lutz and the growl heard 'round the world. Even though the weather was a bit wet, it didn't dampen the spirit of the Mighty Rangers!

**RIGHT:** The game was exciting and dry after a week of rain. Unfortunately, there wasn't a dry eye when the clock ran out. Mounds View Royalty, **Clyde Nordshonovik** and **Gilda Munchavinski**, showed up for the festivities. **BELOW:** Queen **Julie**, King **Larry** lead the torch parade with **Larry Peterson** providing the sacrificial Mustang. **BELOW RIGHT:** 1981 Homecoming candidates were: **Larry Crouse, Larry Peterson, Steve Baland, Randie Schwab, Duke Remitz** and **Ron Trombley** for King and Queen candidates **Sherri Anderson, Julie Ruddy, Mary Jeans, Peggy Paulino, Jayne Feils** and **Sue Larson**.

**FAR LEFT:** The game didn't end with a victory but the Rangers put up a good fight.  
**LEFT:** Almost Anything Goes Day was a success with all kinds of students doing all kinds of crazy things.  
**BELOW:** Bib-N-Button Day contest winner had buttons all over her body.

## Summer Band: On the Road Again . . .

Summer was the "pits" for our Forest Lake Band . . . cherry pits, that is! The band traveled to Traverse City, Michigan for the National Cherry Festival where they were viewed by approximately 250,000 people via a 7-state telecast.

Shortly after the opening of school, September 27, they headed north once more. Tubas, piccolos, coolers, bedrolls and cameras were loaded on the bus headed for Winnipeg. Performing at half-time for the Winnipeg Blue Bombers football game was their mission. Mission accomplished: MOST MAGNIFICENTLY!

Ted Lichschidle, Sue Jellum, and other band members prepare for their half-time performance.

Band members hit the road for the Cherry Festival Parade in beautiful downtown Traverse City. Jeff Thomas served as drum major on this trip.

Jeff Thomas strikes up the band to answer the musical question, "Where is Forest Lake and who are the Rangers?"

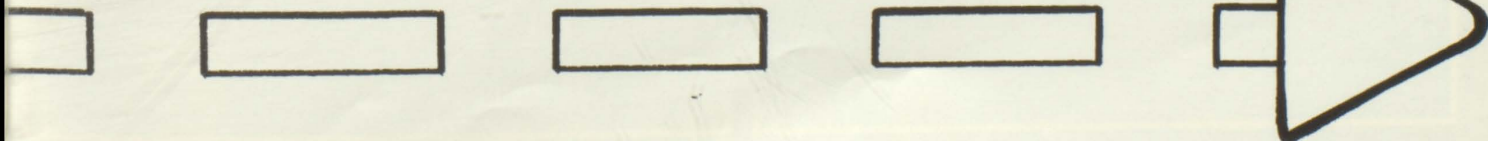

Pounding the sod and trying out a few new tunes was routine for band members.

ABOVE: **Larry Peterson** and **Joel Hansen** indulge in a small snack enroute to Michigan.  
A stop by the great Lake Michigan.

And away we go . . . on the road again and again and again.

## United Mind Workers

Horns honked in support of teachers as they walked picket lines during a strike which began October 27. The Forest Lake strike, one of many statewide, centered on wages and working conditions. We shouted enthusiastically as our "vacation" began. The Indian summer created high spirits. Some of us loafed and goofed off, other worked and made money and some of us sincerely wanted to return. Numerous mediation sessions failed to bring about a compromise between the Board and the Forest Lake Education Association. Fourteen days quickly sped by when a final session solved the problem. We returned to school; some of us gladly, some reluctantly and all of us changed.

LEFT: Many hours on the lines and a need to keep the ol' brain active were responsible for many creative enterprises. BELOW LEFT, Ms. Driscoll (Sr. High) and Ms. Alm (Forest View) clowned around after the Halloween party sponsored by FLEA for area children. BELOW: The end of the strike came on November 16. Bessie was the hit of the Sr. High picket line. With her are Mr. McElraith and Mr. Pogreba, Bessie's owner.

LEFT: **Mr. Lindstrom**, FLEA president, all dressed-up and nowhere to go. BELOW: **Bessie** takes this word out of the Super's mouth. That's NONSENSE . . . no that's BALDERDASH! RIGHT: **Mr. Altavilla** keeps things moving in the right direction.

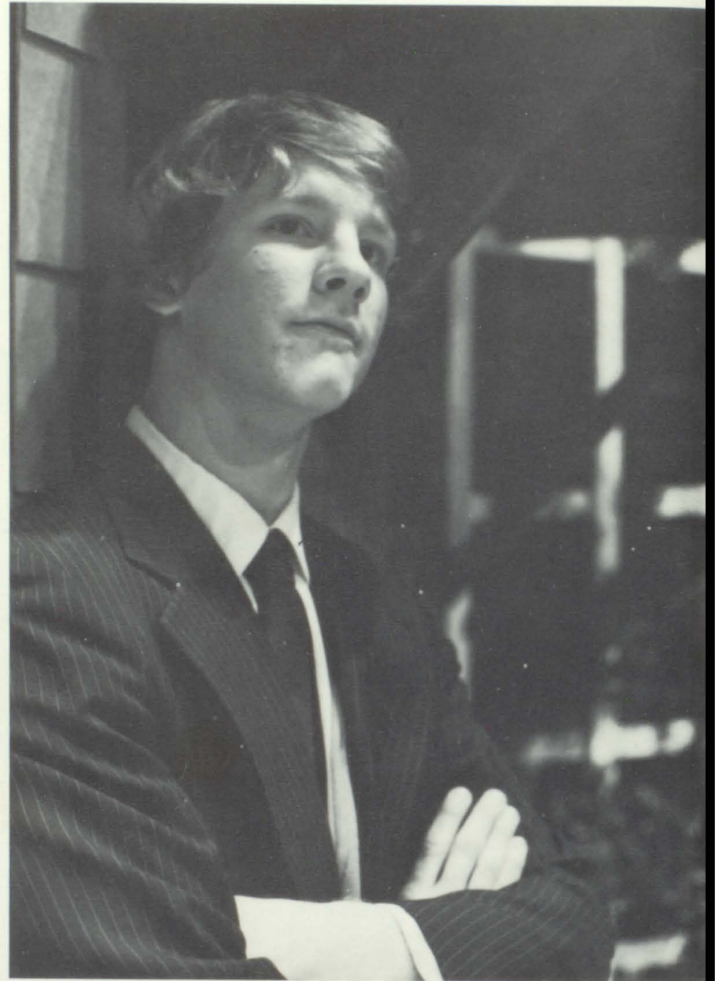

Teachers stop for a photo at Columbus Elementary. Familiar faces are **Ms. Dittberner** and **Mr. Franzen**.

# Damn Yankees: The Devil Made Me Do It

The strike nearly cancelled performances of the fall musical, "Damn Yankees." Although cast members rehearsed under community auspices, regrouping and rescheduling were the order of business when we returned to school. Deadlines were compressed and somehow when the lights dimmed and the curtains parted the FLHS stage was transformed into a musical extravaganza. It was a high energy musical based on the theme of selling one's soul to the devil. Strong performances by theatre veterans and exciting debuts by new-comers made "Damn Yankees" unforgettable. Sometimes we sympathized with the efforts of Mr. Applegate (John Joachim) and the futility of his plans. A sensuous Lola (Julie Ruddy) made putting ones whole body into work an eye opening experience. Henry Hebert directed the production.

Senior John Joachim made a thoroughly sympathetic devil in the guise of Mr. Applegate.

Tim Mansmith and Jolene Sunsten reconciled after his disappearance in an attempt to save the Senators.

Kris Cohoes and Jan Banta berate a surprised Joe LaCasse.

Mr. Hebert molded a broad cross-section of the student body into a capable performing unit. It's a battle of the sexes as the "boys" talk baseball and the "girls" try to get them to do the chores in this production number from "Damn Yankees."

The pit band provided a variety of musical accompaniment for the chorus and actors.

Flying feet and high spirits filled the stage as the Senators and their fans perform.

The "boys" tell it like it is in the game of baseball. "You gotta have heart."

## Let's Hear It For the Muscle Behind the Musical

The house was dark and silent. Suddenly pale light illuminated the drapes and the floor. The whine of a saw screamed ominously. It wasn't the Forest Lake Chainsaw Murders but the backstage set crew preparing for the fall musical "Damn Yankees." The facility of the crew working from plans and with raw materials was aptly demonstrated by smoothly functioning sturdy sets. Hammering created a din so loud that it often drowned out the shouts of the lighting crew setting the

stage with dramatic pools of light. Stippling and spattering with complimentary paint colors made set decoration realistic and three dimensional.

The tireless snip of scissors and the hum of sewing machines transformed yard goods into flowing costumes. Hours of practice in learning music and rehearsals with actors and chorus members made the musical pit band a harmonious addition to the action on

stage.

A publicity crew and ticket sellers made certain that an audience would be on hand to applaud and laugh after they were ushered into the theatre for the musical.

Coordination of the on-stage and off-stage activities produced a satisfying experience in the fall musical "Damn Yankees."

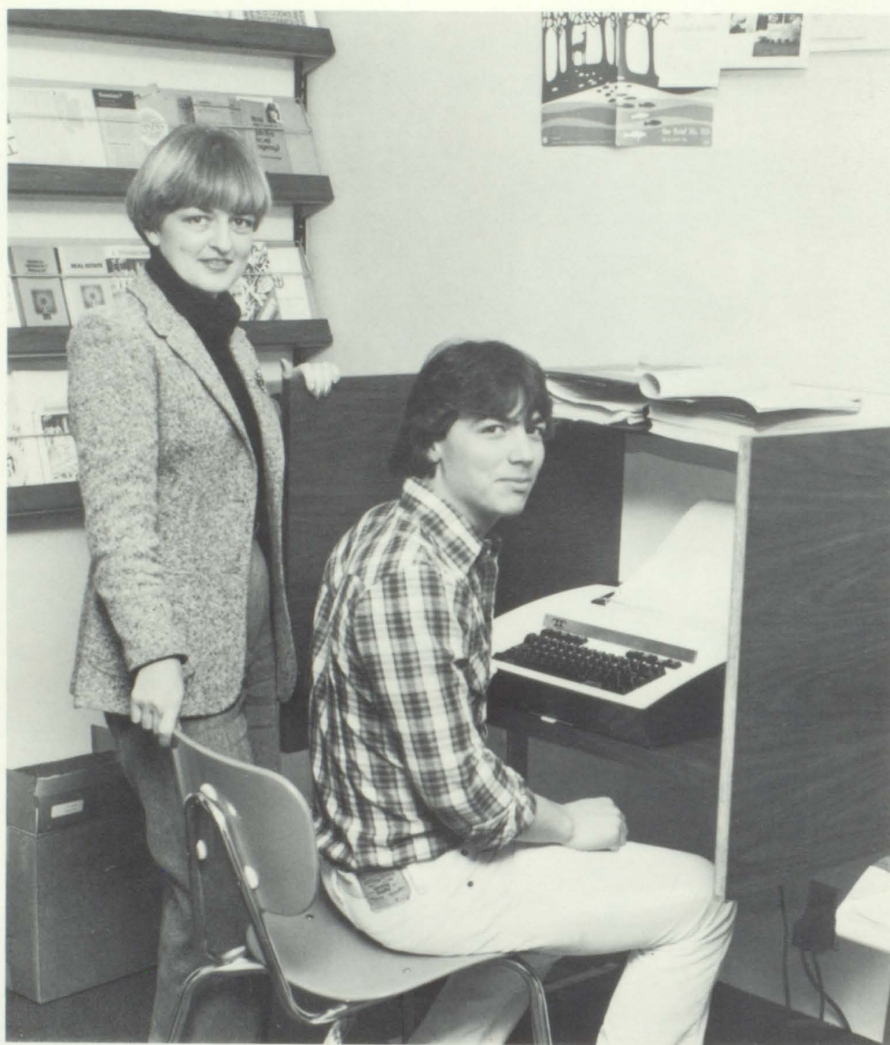

**LEFT:** Tom Distler and Erich Kertzsch are in control of the comings and goings of shadows and spots. **BELOW:** Sue Novak, Tracie Sausen, Robin Perzichilli, Brenda Walsh, Beth Gifford, Roxanne Mueller, Rosalyn McConnell and DeeDee Schlaeger all pitch-in to create another world from fabric.

## There Is A World Beyond Graduation Day

The Career Resource Center was officially opened on September 25, 1980 and is an extension of the Guidance Office. The Center houses a computer to explore occupations and schools in Minnesota.

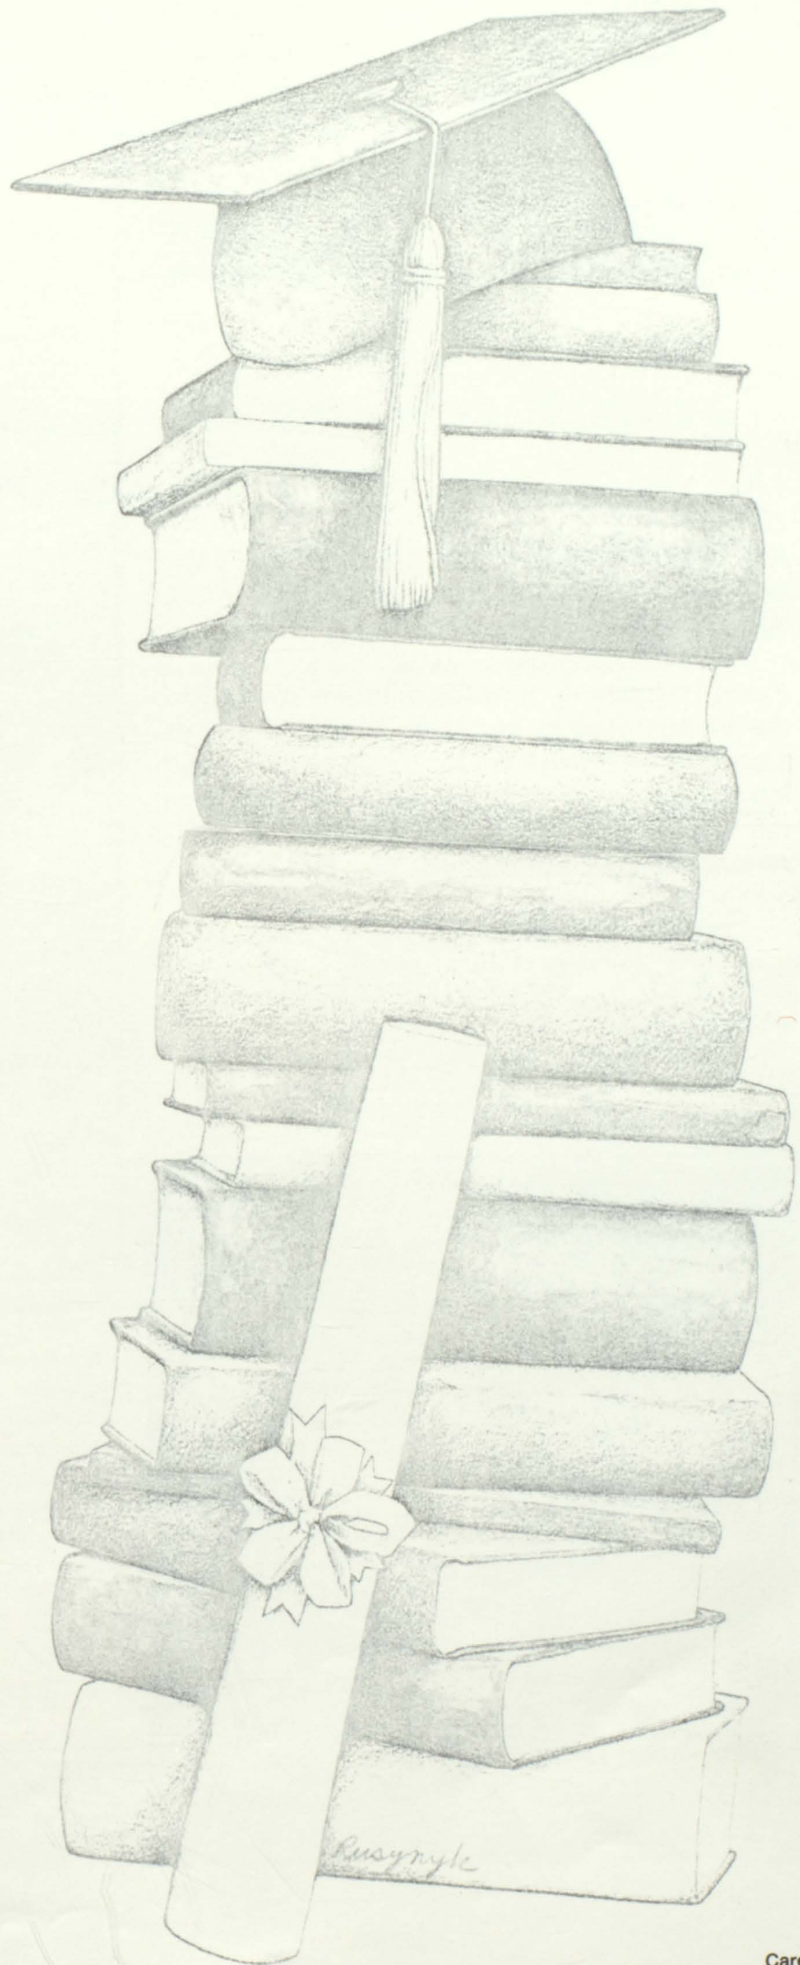

Additional career exploration materials and equipment available are the College View-Deck, Occupational View-Deck and College and Vocational School catalogs as well as visiting representatives from various colleges, Vo-Tech schools and branches of the military. Approximately 70% of the student

body made use of the Career Resource Center in 1981.

This year a College, Vocational-Technical School and Military Fair was held in December. It provided parents and students an opportunity to talk to over 50 different college, vo-tech and military representatives. Two Financial Aid Workshops were conducted by Sister Anne Elise Tschida, Director of Financial Aid, St. Catherine's College and Mr. Herald Johnson, Director of Financial Aid, Augsburg College. Over 450 attended the fair.

Kevin Hermaning, now 22, was the youngest of the 52 hostages in Iran. One of the 13 Marines stationed at the American Embassey, Hermaning told students of the seclusion, the treatment, the intimidation and the courage of those Americans held for ransom.

## Yellow Ribbons; Golden Saxophones Provide Setting for Two FLHS Lycium Presentations

The University of Minnesota and St. Cloud State presented two musical performances to music students. The Jazz Ensemble #1 from St. Cloud was a great change of pace and The "U" group showed up with everything; even a harp. Their performance featured many individuals including this saxophone player.

The Spanish Court of the mid-seventeenth century is the scene for this unusual tale. The spoiled young princess receives, of all things, a deformed, dwarfed boy as a birthday gift.

"The Birthday of the Infanta," dramatized by Stuart Walker and

based on the short story by Oscar Wilde, was directed by Henry Hebert for competition.

Sub-regional competition saw an exquisite performance by the cast, advancing the "Infanta" to the regionals. A second place trophy was

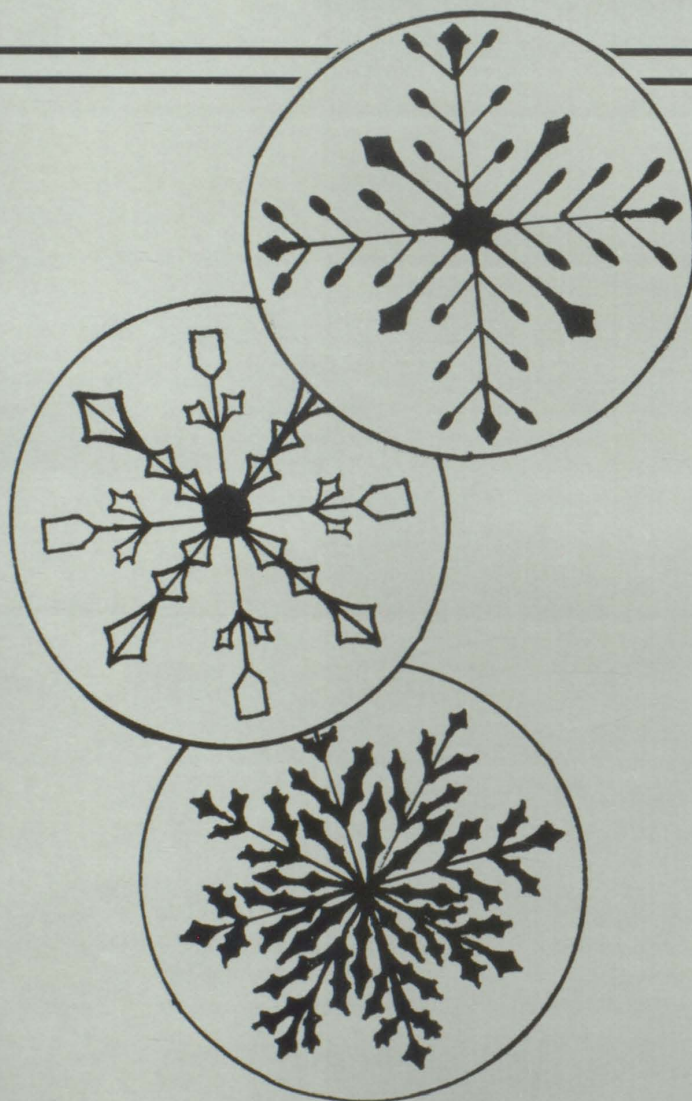

brought back, along with the scenery, costumes and weary cast.

Cast members are: **BACK: Lisa Kuznia, Holly Zapalke, Mr. Hebert, Erica Anderson and Sue Ostertag. FRONT: Bill Wolner and Andy LaCasse.**

## WINTER IN THE FOREST

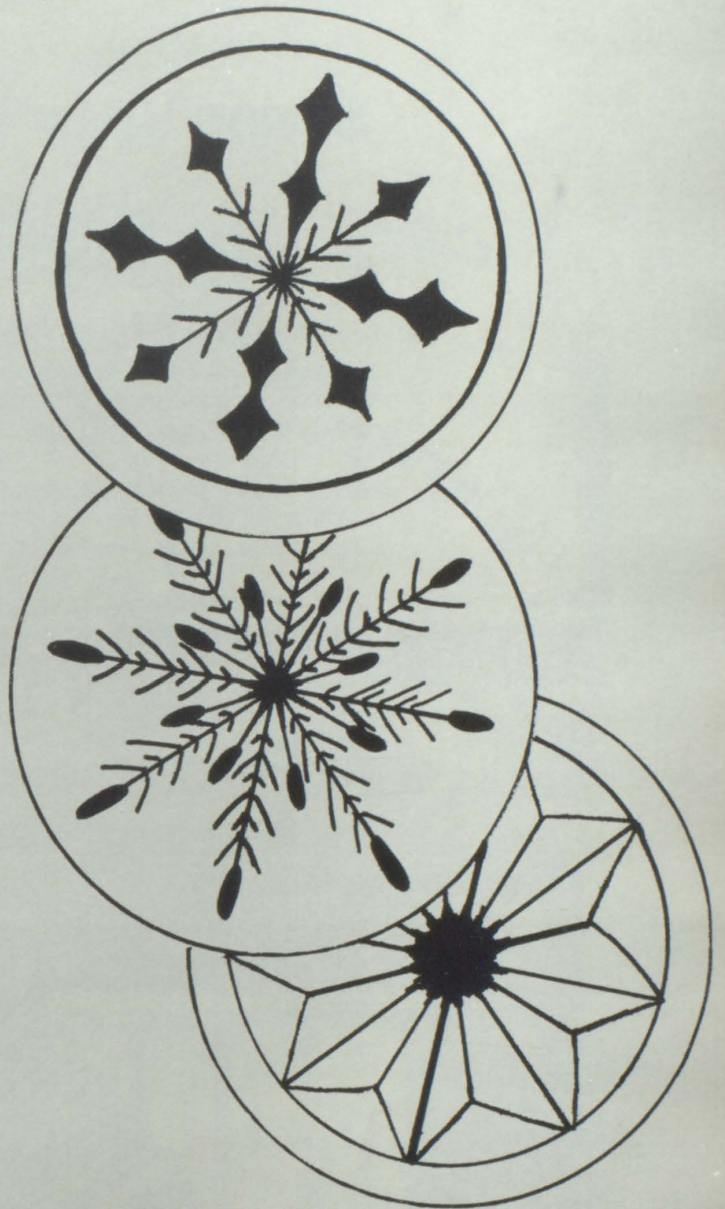

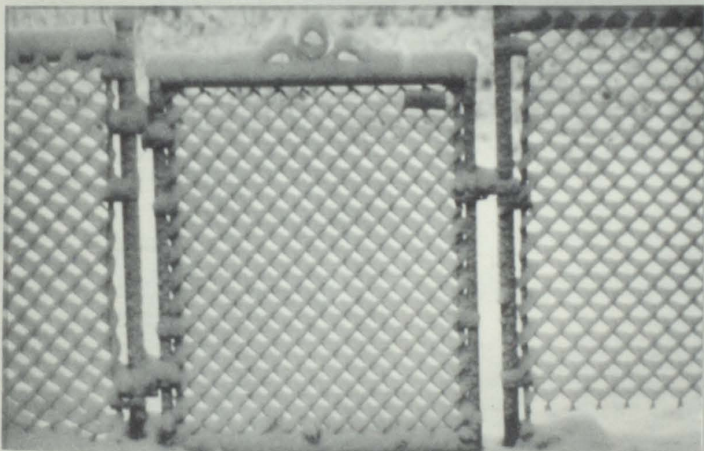

Minnesota, a theatre of seasons. Somehow during the winter of '81-82 the theatre kept performing the same drama — "Cold and Snow."

Snow came early by last year's standards since we experienced considerable snow during the latter half of November. In December, the snow began to accumulate and the temperatures plunged. The same scenario was performed regularly. Hardly a weekend in January went by without the temperatures going to 30 below zero. The weather experts told us we were setting records. We didn't need to be told because our cars wouldn't start, the layered look was in and our parents complained of fuel costs. Weather bureau statistics showed an average temperature of 2.3 degrees during January, the third coldest January on record. January 10 was the coldest day of the month with a temperature of 26 below. Forest Lake was *always* colder and not affected by the metropolitan heat umbrella.

And of course, there was snow. We set a record for snow in January with 46.4 inches. The Forest Lake area became impassable and we were snowed in with 2 consecutive snows of 17.4 inches and 19.9 inches; 37.3 inches between January 20-23! "Cabin fever" was discussed and debated but thankfully February brought us our annual thaw. Wool socks, long-johns, boots and scarves finally were removed as we all basked in above-freezing temps. But Spring was still a *long* ways away.

# \$aving Up in '82 an Impossibility

MONEY! MONEY! MONEY! Just when we get our hands on it, off it goes to pay for those necessities of living in America in 1982.

Trying to save up for a car is bad enough. But once you have the car there's the insurance and gas and oil and . . . and . . . There's no such thing as savings anymore. A saving account today is what you can accumulate in change at the bottom of the jar on your dresser . . . or what is accidentally left in a coat pocket or at the bottom of a purse.

## Activity Options vs. Financial Feasibility

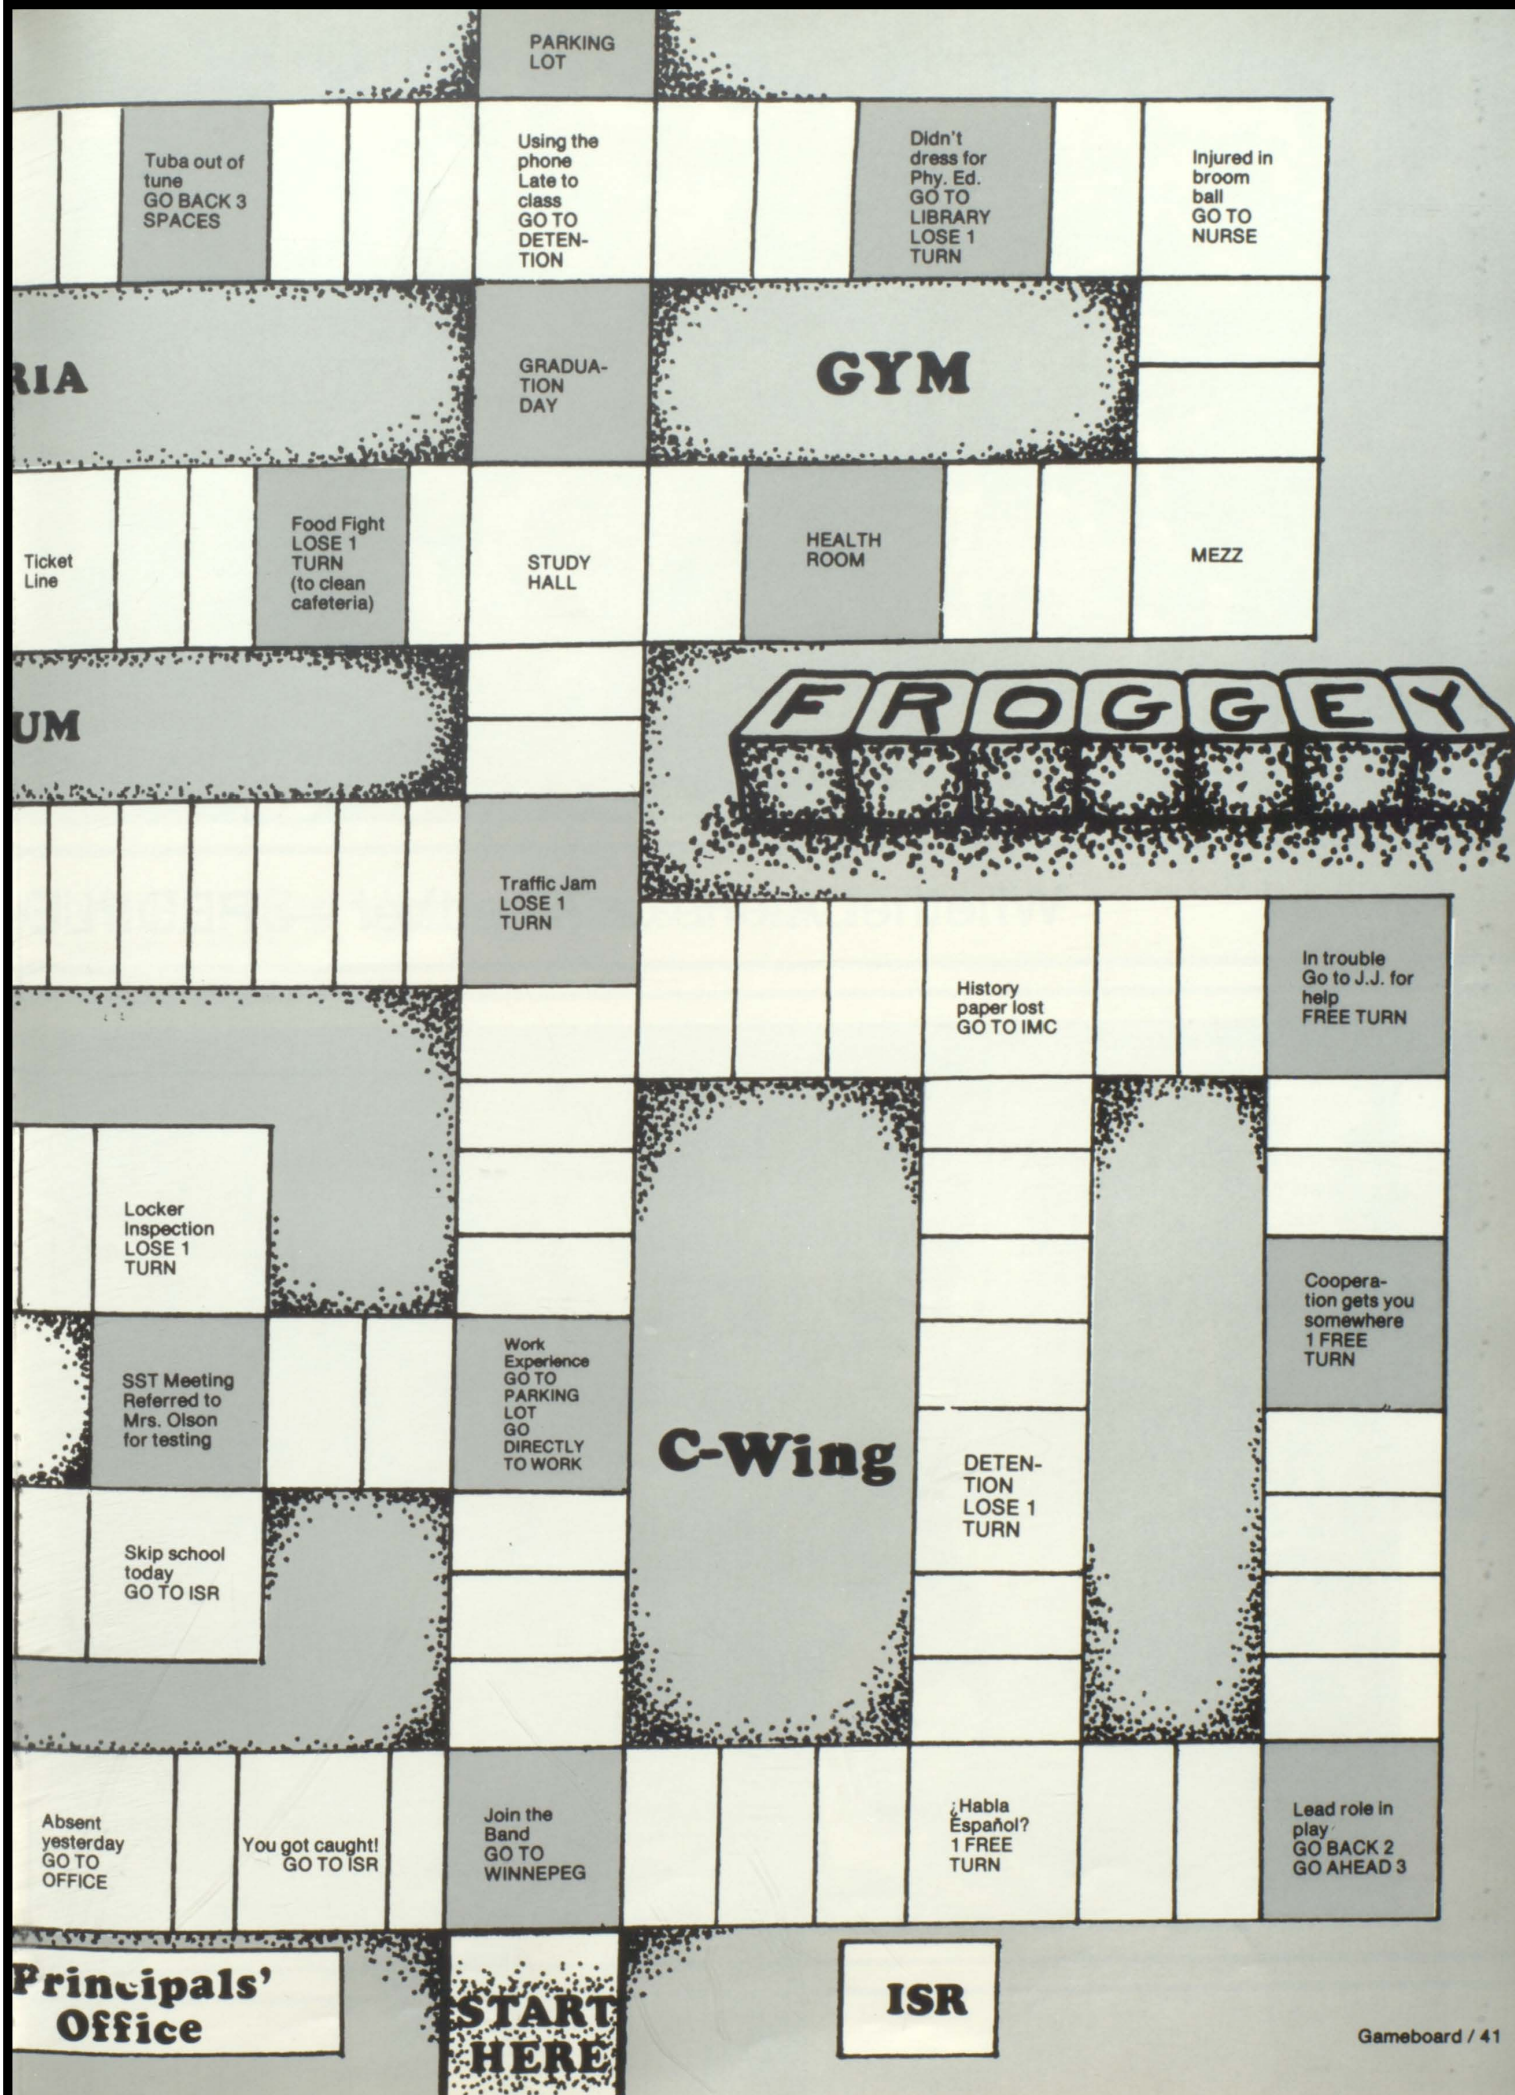

DECISIONS, DECISIONS, DECISIONS! In our quest for entertainment the ultimate decision was not "When," or "With whom" but "How much will it cost?" We weighed the merits of a movie and pizza against the benefits of skiing and cruising. Gas money, ticket money, food money flowed out of wallets and purses. "Hitting-Up" our parents for cash put added strain on us. With the financial crunch, we often found ourselves sitting in front of the tube or listening to the stereo.

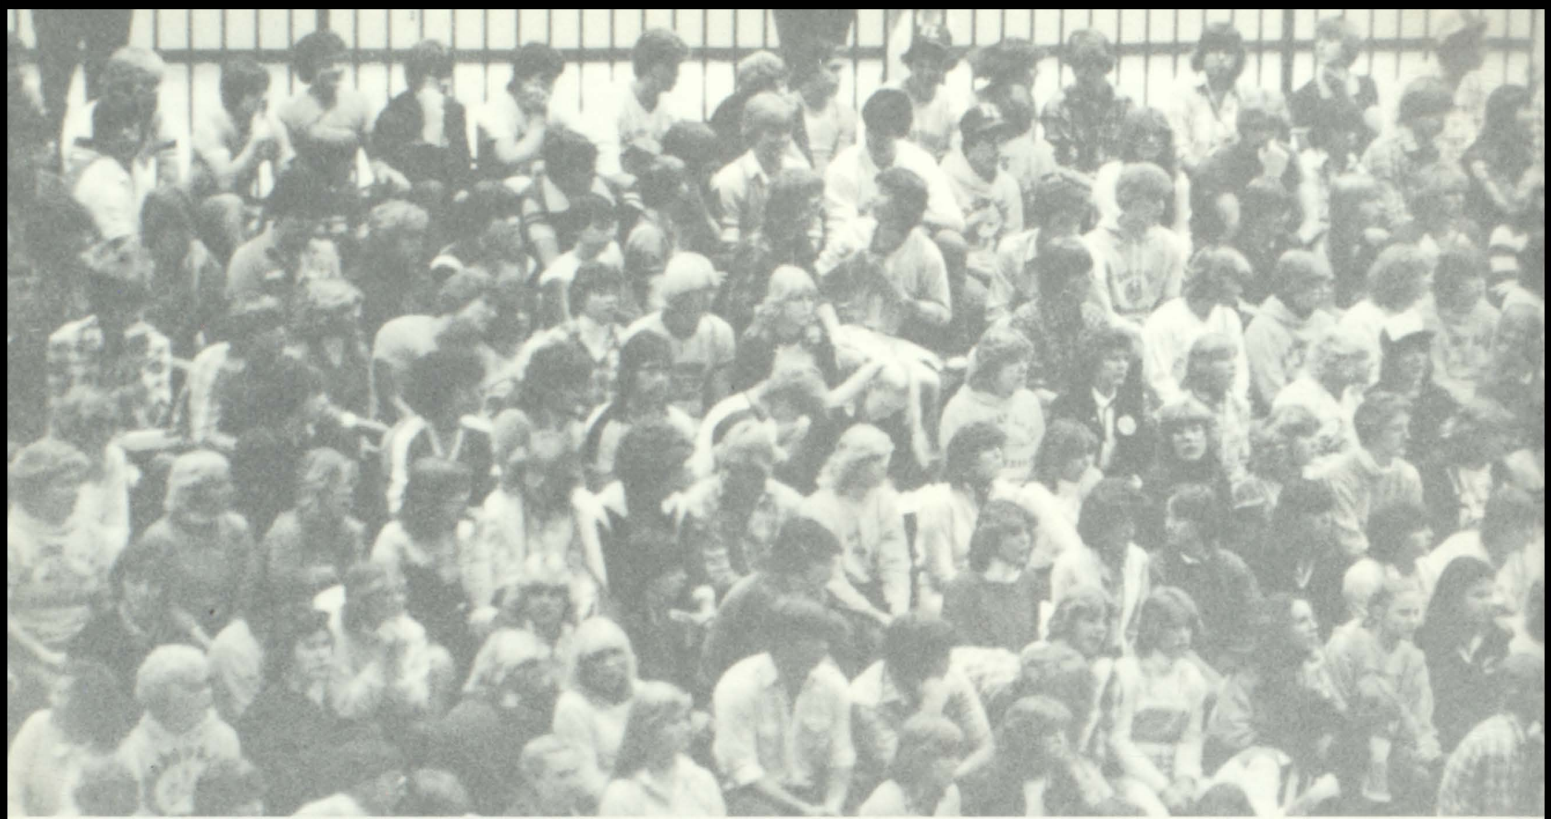

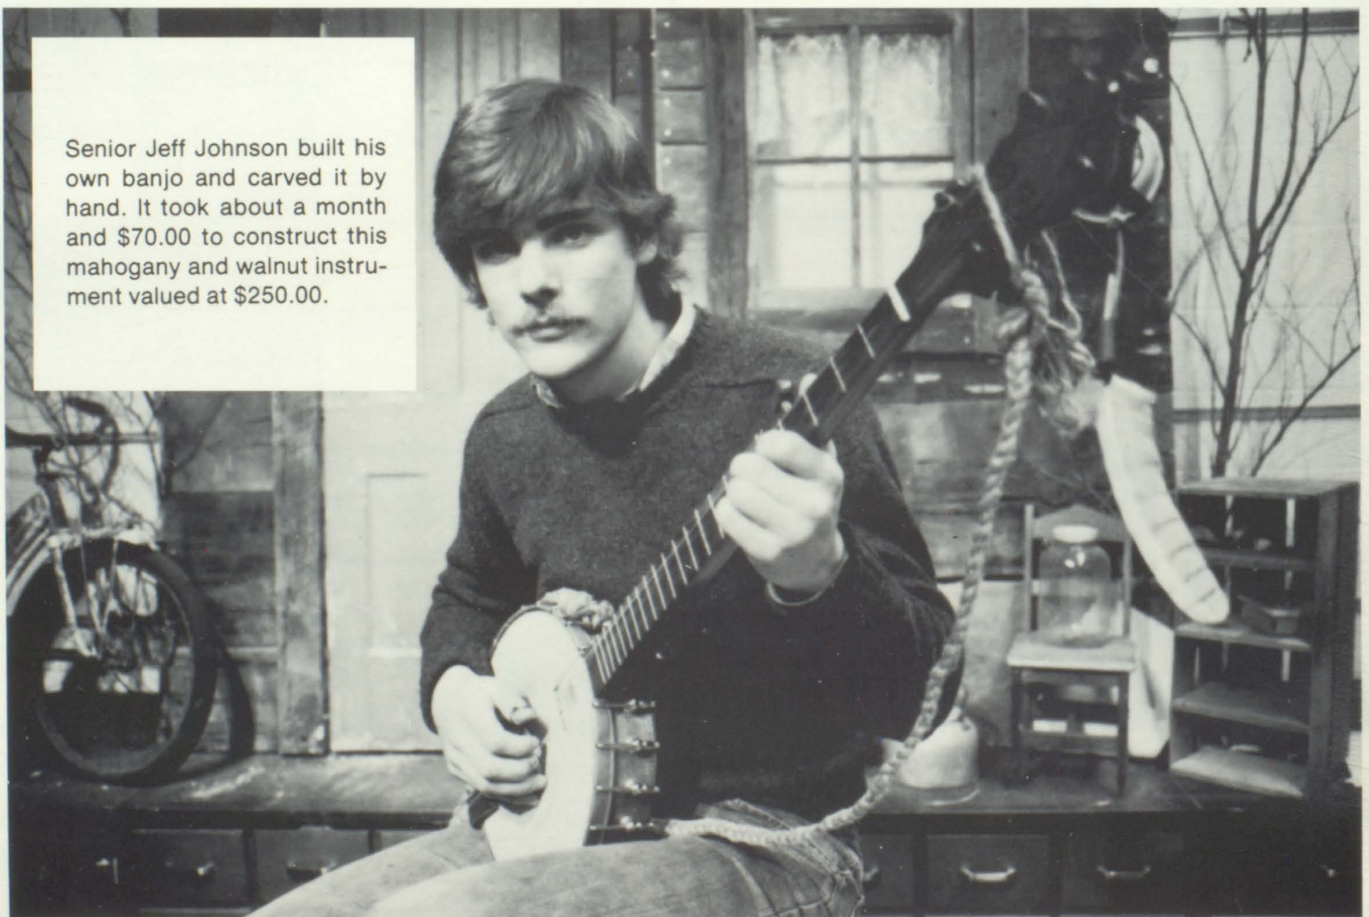

## Whether Alone or Together — PEOPLE

Senior Jeff Johnson built his own banjo and carved it by hand. It took about a month and \$70.00 to construct this mahogany and walnut instrument valued at \$250.00.

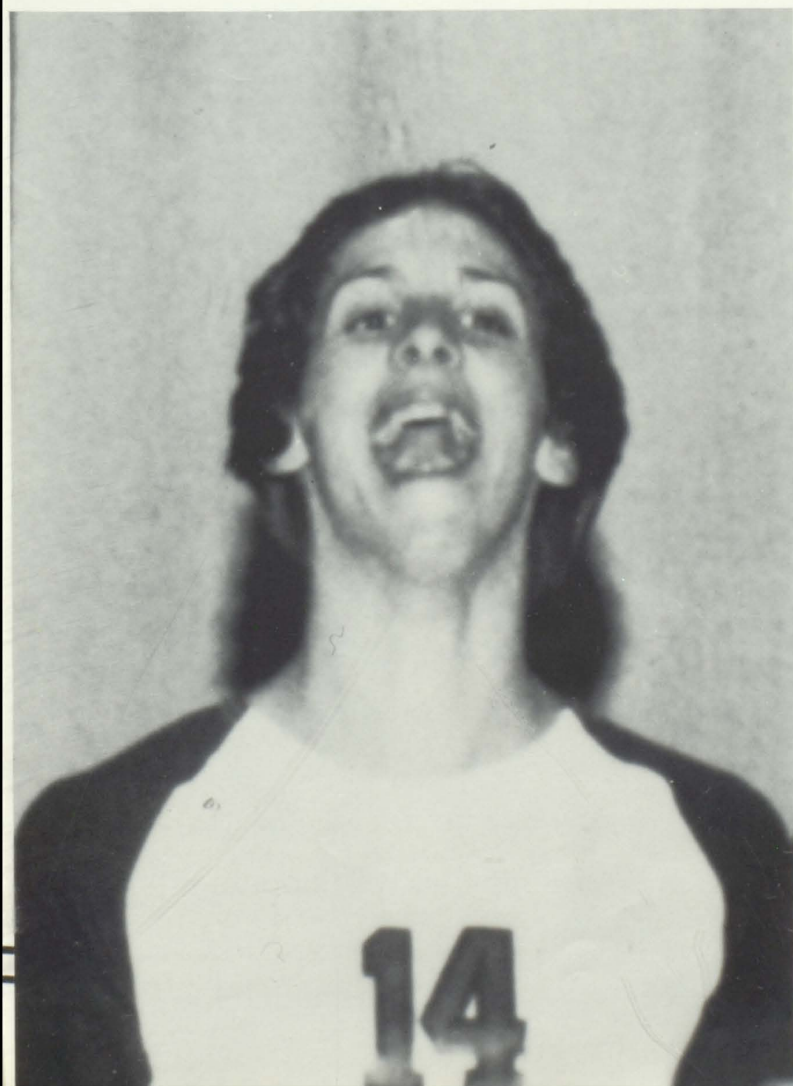

## Kinney Home

Four years and over 50 youths later, the Bob and Linda Kinney home has won a national award for excellence. The Kinney home is for adolescent youth who are chemically dependent. The award was for having the Best Program in the Nation for Chemically Dependent Youth.

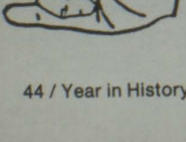

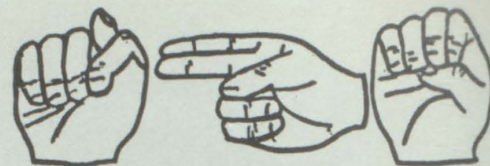

The Kinney home is located in Wyoming so school age residents of the home attend school in Forest Lake. About 95% of those residents have been in the Focus program at the Senior High.

Even though a fire destroyed the home and the plaque in November, Bob and Linda Kinney continue their work. We salute you!

## Give FLHS a Voice That's Heard

A storybook romance and wedding in July captured our imagination and attention as Prince Charles, heir to the British throne, and Lady Diana were married amid the pomp and trappings of London's St. Paul's Cathedral. Television air time for Minnesota was early morning and some of us saw the nuptials performed live via satellite. Music, processions and sacred vows filled the screen and made us think of fairy-tales we had read to us many years ago.

Our illusions of peace and tranquility suffered when peacemaker and Nobel Prize winner Anwar Sadat, president of Egypt, was assassinated by disident members of his military. International tensions increased but a smooth governmental transition paved the way for stability in the Mideast. Assassination attempts earlier in the year of President Reagan and Pope John Paul were vividly remembered at this time.

soared into the heavens, our hopes and prayers went aloft. In its abbreviated mission the shuttle proved spaceworthy and reusable.

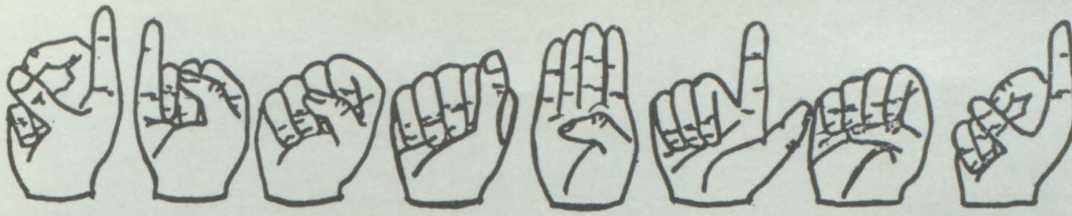

Despite continued opposition to an Equal Rights Amendment, Sandra Day O'Connor was appointed to a seat on the Supreme Court. Never had a woman been raised so high in the judicial system. Feminists supported the nomination despite grumblings from the right.

A new pool was completed at Southwest and split-shifts made for strange hours for junior high students and no activity buses for us. Even after regular hours returned the late buses didn't! Lack of transportation and \$16 activity fees cut afterschool participation considerably.

The year was far from the ordinary and the memories will undoubtedly remain vivid for years to come. Someday, with grandchildren gathered 'round, you will

As the space shuttle, "Columbia,"

reminisce about the strike of '81 or winter of '82 . . . what a rush!

"Reagonomics" had many in the country wondering how it would hit them. Would safety nets be provided for those who were truly in need or would tax cuts and the end of entitlement programs be a windfall for the rich? The battle of the budget and the state of the nation continued to heat up as the year progressed. Closer to home, Minnesota experienced budget and program cuts on the state level. Deficits in state revenues continued to grow, reflecting the state of the national economy. The cuts affected our "Quality of Life" and caused heated discussion. By the time the budget proposals hit local government, com-

munities had begun a scramble for what little funds remained.

In an attempt to secure better economic and working conditions, teachers went on strike throughout the state. The strikes were often long and bitter and left unpleasant reminders; like no vacation days and extended hours second semester.

We said "Good-bye" to the old and "Good Grief" to the new as the Hubert Humphrey Metrodome was inflated in the fall only to collapse shortly thereafter during a heavy snowfall. Repaired and reinflated, it became home to the Twins for their season opener.

What Was New  
in '81-'82?

The Daddy Warbucks look was "in" for women this year: Designer-Bald. Aside from the "punk" phenomenon, headbands, braids and feathers appeared as a more conservative sign of the times. Knickers and leggings were on many girls' shopping lists along with designer jeans.

While Lech Walesa was leading Solidarity in Poland, Wayne Gretzky was breaking season records in hockey. On the tube it was "Hill Street Blues" and "Magnum," but on many sets it was home video via Atari et al.

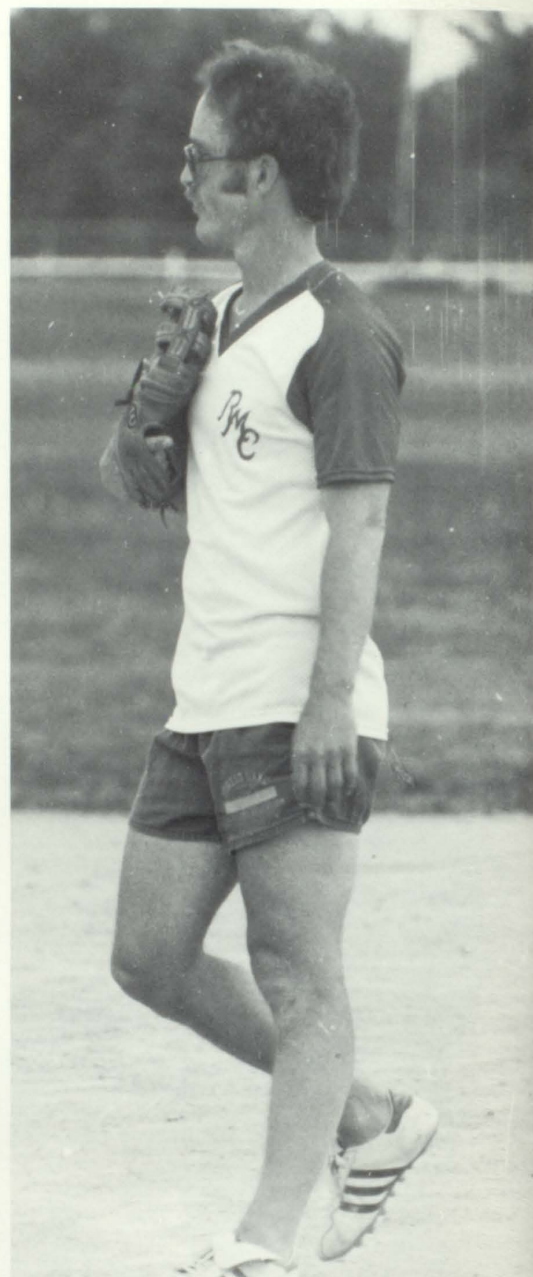

The Stones rocked through the U. S. on their last tour and Richard Simmons was getting to Americans over-weight stomachs through their hearts.

Although El Salvador was a topic of heated debate, the real item of discussion was "THE CUBE." Cube contests, cube books and cube-crazed puzzle-people were everywhere!

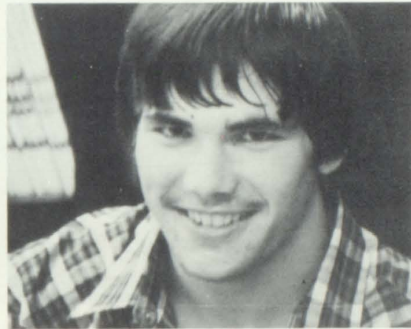

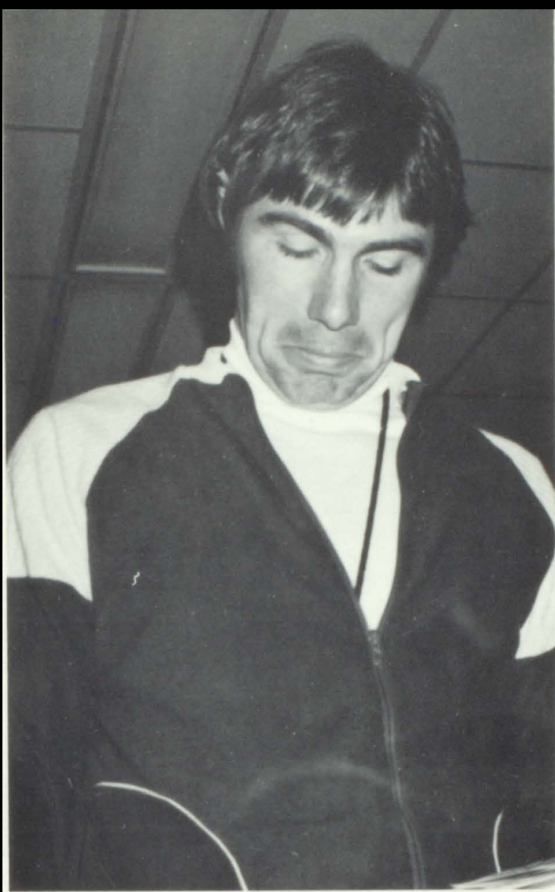

The year saw the outlandish side of fashion, the vivacity of a diet-exercise guru and record-breaking weather but the hard hitting realities of inflation and "Reagonomics" were still there quietly eating into the pocketbooks of Americans.

## Women Serve-Up Net Wins

### Girls' Tennis

People often think of tennis as an "easy" sport, but anyone who has ever played can tell you differently. It's a lot of hard work and practice.

Forest Lake's tennis team proves just that, because they worked hard. And hard work paid off. Even against the toughest odds our team put up a mighty fight.

At the end of the season J. Feils was named most valuable player, A. Motschenbacher was most improved. The hustle award winners were M. Waataja and K. Paulsen. The 100 hour club award went to Cathleen Carey, she received it for 100 hours of practice over the summer. It has been said they play good tennis but not quite consistent enough for a winning season on the books. But with all the hard work and improvement this year it's difficult to think of these girls as anything but winners.

# Movin' on Down the Road

Ranger Cross Country was really on the move this year placing 5th and 8th in Region competition. Regions saw the best times ever recorded for the teams.

Both Cross Country teams had successful seasons. The Girls' team won both the Purplehawk and Ranger Invitational. Early season injuries hurt the Boys' team chances for those titles. Ranger Girls' team placed 2nd in the conference while the guys finished third in the conference.

Tom Palokangas, Peggy and Patty Paulino made all-conference with Joe McBain, Jim Ramacier, Tim Pratt, Mary Grundhofer and Toni Haus receiving honorable mention.

Both teams were dedicated and hard working, according to Coach Jacobs. As a replacement for Coach Fedderly, he was quite pleased with the consistent improvement of the runners. Captains for the season were: Peggy Paulino, Mary Grundhofer, Tom Palokangas and Fred Forthuber.

Ramsey may have ended up as co-champs of the conference, but **WE BEAT THEM!** Having to forfeit the last two games didn't help but even though our standing in the conference was "middle-of-the-road," the team was hot this year. We won our division at the Rosemount Tourney — all three teams! The JV team was undefeated this year, too.

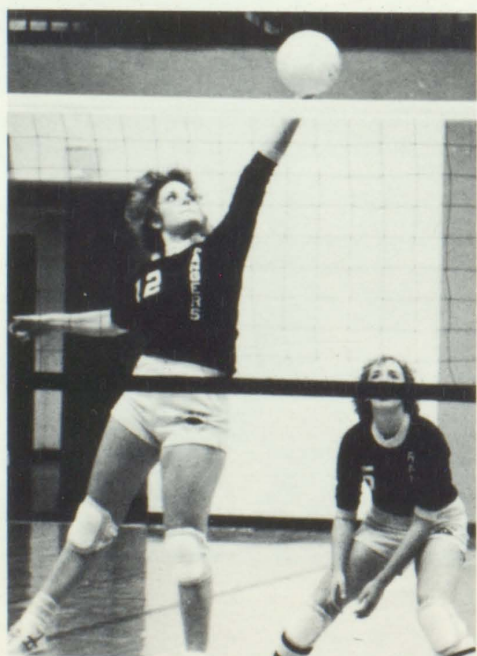

Coach Paulson said her team was well balanced, with all players being played. "They were short but they were scrappy!" She said they never quit out there.

Special recognition goes to Mary Svec — All-Conference, Jodi Kolstad. Sue Petersen and Mary Jeans — Honorable Mention. Most valuable player was Mary Svec. Most improved player was Caree Graves. Best server was Jodi Kolstad and Sue Petersen was the most inspired player.

## Rough and Tumble Year for Gymnasts

Strength, coordination, grace and control are the name of the game when it comes to gymnastics. Making up routines and practicing over and over and polishing and performing. Gymnasts are always striving for perfection and continually pushing for newer, more difficult routines.

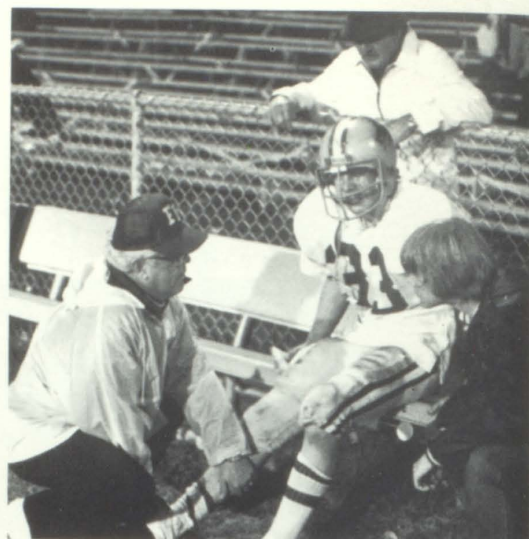

Forest Lake was well represented by a dedicated team during the 1981-82 season. With coaches, fans and teammate support our Ranger Gymnasts should be at the start of something big in seasons to come.

## New Coach; New Plays; New Spirit

New style and new drive pushed the Ranger "Grant-men" through an exciting and successful season. The new look to Ranger grid action finally clicked in the last three games of the season — all wins!

The most points ever scored by Forest Lake against an opponent was in the Spring Lake Park game. If the Anoka game were not forfeited, due to the strike, the Rangers would have played for third in the conference.

Carl Parker set a school record for interceptions in a season. Schultz and Bayless were two of the top receivers in the conference. Quarterback, Tal Gravelle and Carl Parker made the All-Conference team. Tri-Captains for the 1981 season were Gravelle, Rick Beck, and Larry Peterson.

# Ranger Cagers Hoop to It

The 1981-82 varsity was competitive but not too successful. Even though the record (1-17) didn't show it, the varsity was either tied or ahead in the second half of eleven games. It was a frustrating season for the players and coaches, but to the credit of the team they hustled and played hard despite their disappointments.

Jim Jorgenson was the team's Most Valuable Player. Bret Weiss was awarded Best Defensive Player, Mr. Hustle and Best Rebounder. Greg Bower won the Free Throw Award. Dennis Krull was chosen Best First Year Player and Rick Degendorfer the Most Improved. Most Inspired was shared by Bret Weiss and Mark Retica. Carl Parker, Jim Jorgenson and Mark Retica served as tri-captains. Greg Bower and Dennis Krull were chosen to the WCCO Prep Parade Player of the Week.

Juniors Dennis Krull, Mark Skoog, Tom Corwin, Eric Stockton, Chris Johnson, Todd Miller, Dave Julson and Dan Nordin will return next year to spark the Rangers on to a more successful season of basketball action.

## Ranger Wrestlers

# The Best Twelve-Pack Around

Ranger Wrestling has become our most consistently successful sport. This year they fought their way to second place in the toughest Region in the state. In individual wrestling, Forest Lake ran away with the first place title. With team members like Sophomore Jeff Thompson (231 Match points, 97 Team points, 57 Takedowns), it's easy to see why the Rangers were tough on the mats this year. Senior Bob Menne stole the

state record for the fastest pin this season with a slap to the mat in only 11 seconds. With a young squad, it looks like dieting, working out and hard work could pay-off BIG next year.

B-Squad wrestling continues its impressive string of 34 wins under the guidance of Coach Pogreba. '82 was definitely the YEAR OF THE WRESTLER.

*This was the year that was interrupted by the strike; that day the teachers all took a hike. A hike it was, three weeks at that, but no time was lost upon the mat.*

*Then three weeks later our meeting would be when the sophomores got their chance to meet "Big D." We all found out how hard practice gets. Some even thought it's really the pits. Before we knew it, Christmas was here and an extra two pounds to bring in the new year.*

*The Anoka match was soon to be; That afternoon we met Rick and Dave G. Then to Ramsey in our shut-out score, which tied the record of a mere 64.*

*Then all of a sudden Regions were here and off to Anoka we went this year. Then to Coon Rapids in one week we'd go to meet Elk River who would be our foe. We stole one from them, winning by two, then against Anoka we lost by a few.*

*We found out how far hard work goes and "Just because you're ahead doesn't mean you can doze!" So my advice to next year's team is: Have Fun, but work hard, don't have a let down and you'll be NUMBER 1!*

# Increased Ice Time Benefits Teams

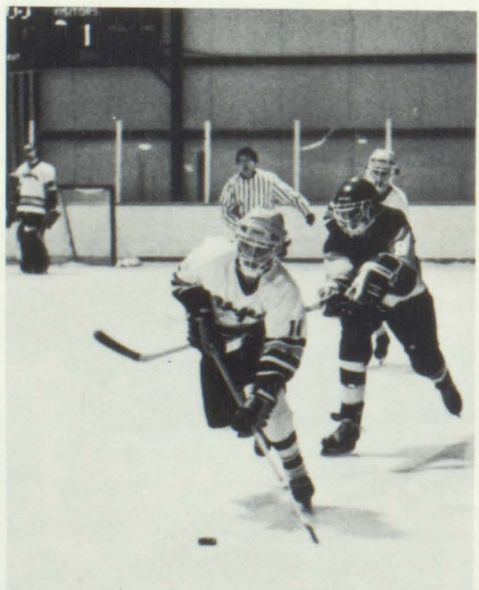

The best of nine seasons' play ... Cutting hours of travel time and putting them on "local ice" for daily ice-time could have been the difference for this year's Icemen. The team increased inside ice time from 45 to 100 hours.

Coach Peltier believes that this team was, as a whole, better skilled and gives credit to the local hockey program. The graduating seniors on the team are products of the program, starting at Pee Wees and continuing in the program through high school competition. He also credited this year's success to the added experience of many of his 3 year regulars.

Duke Remitz had another excellent season, making All-Conference for three straight years. His performance as goal tender has been great.

This year the JV Hockey team had a full squad for the first time. Like the varsity, JV ended 50/50 for the year. Goalie, Dean Maki had 4 shut-outs for the season and Tyler Carlson tied for second in the North Suburban League scoring category.

After only 6 seasons of North Suburban play our mighty Ranger Icemen are making their way to the top!

## Weight Training

With the Apple Valley meet cancelled this year, power lifting competition was not the main goal for the program this year. The intramural weight training program's emphasis was accomplishing individual goals. It also allowed the off-season athlete an opportunity to train in the winter months. Rick Anderson was the intramural director again this year.

# Seven Unlucky Number for **FOCUS**

After seven years of service to Forest Lake Senior High and its students, the FOCUS program has been "pink slipped"!

The FOCUS program is for students who have problems succeeding in the basic academic main-stream of school, but have average ability. It is a voluntary program. The program runs for three or four hours per day and offers Social Studies courses, English and Math in addition to GROUP.

A 92% attendance rule, contracts and consequences are all a part of

FOCUS. But the common denominator of all FOCUS students is an abnormally low self-concept. They see themselves as failures, they are comfortable as failures and, in order to "stay safe," they will do everything in their power to maintain themselves as failures. Thus, the overriding goal of the FOCUS program is to help the student create a positive self-concept and "learn" new behaviors that will promote and reinforce this new self-concept.

"I have gained some lifelong friends, and met some unforgettable people. (in FOCUS) I will always remember what I have learned here. I will be living what

FOCUS has taught me and that is what is most important. I have learned to love myself and achieve things I never thought I could do. I have the guts to go on in life."

# Focus

In November 1974, Mr. Bill Rand (principal) asked for volunteers to investigate the concept of a school within a school. He was very concerned that the needs of some of our students were not being met. The following teachers volunteered:

Nancy LaTourneau  
Doriene Eastman Howe  
Tom Baldwin

In January 1975, these volunteers visited other FOCUS sites in the Roseville area schools. Mr. Rand presented the FOCUS program concept to the Board-Administration Council and the entire staff in February. The interviewing process started with potential FOCUS students. Interviews were conducted by FOCUS staff, counselors and the principal.

In March 1975, Forest Lake Senior

High was accepted as an adoption site for the FOCUS program. In-service and training for the staff was conducted in April and May. In the fall of 1975 the program officially opened. Math, Social Studies and English classes were offered. Family Groups were organized for support and counseling purposes. A student's "Family" made sure obligations and responsibilities were fulfilled by all its members. The Family Group was used to reinforce each student's abilities, positive behaviors, self-confidence and create a positive attitude toward school through trust, care and concern.

In 1977 a Work-Study program was added and a new person was added to the staff: Loren Lynch. In 1979 an entirely new staff moved into the

FOCUS area: Mike Altavilla, Sally Irvine-Hagman and Diane Jensen. By 1981 all new faces were in the program again, with the exception of Jackie Kroska the secretary, who has been with the FOCUS program since March 1976.

The FOCUS program has helped over 580 students and, of these, 85% have graduated from high school. Many changes have taken place in the FOCUS program over these 7 years — many more changes have taken place in the lives of the students who have experienced the FOCUS program.

This year because of budget cuts, the FOCUS program has come to an end. It will certainly be missed by students, faculty and parents.

## Racketeers serve up good season

The Forest Lake Girl's Tennis Team concluded their season in October with a total win-loss record of 4 and 9.

Senior captain Jayne Feils had another very successful year at first singles. For the second year in a row, Feils earned all-conference honors, and for the first time, was seeded eighth at the regional tournament, where she was defeated in the quarterfinals 0-6, 1-6 by Lynn Milles of River who eventually finished third in the state tour. Feils ended her season with a conference record of 5, and a school record of 7.

Waataja also had a successful season this year being named all-conference honorable mentions in addition to their winning record. Waataja lost 2-6, 3-6 in the second round of the regional tournament.

## Publications Snowed Under

Breeze and Forester staffs this year were a bit under the weather . . . what staffs there were. Forester got off to a bad start by having to distribute last year's book 3 months late. Staff was assembled and re-assembled and with three staff members (many others helped from time to time) and one advisor, the book finally was completed. Mark Ray and Brenda Lohse designed the cover which was the product of some creative thinking by Heidi B. Mark did other art work along with Jeff Kolstad and others. Missy Reese sold thousands in ads while Connie Westberg was out taking pictures and Denise Nielsen was keeping track of the paper work. Ms. Driscoll put in many long hours throughout the year under the guidance of Steve Wright, our Taylor Publishing Company representative. The book cost \$17.00 and included a plastic cover, Ranger pen and record.

The Breeze had many last minute deadline headaches and Mr. Somrock shared a few of those headaches. All in all, the paper showed great improvement through the year. Editorials, "Dear Al," investigative articles and well-written sports accounts were presented to students on a monthly basis. Advertisements were even added.

Even though problems may have snowed them under, it was only a temporary situation. Both Ranger publications proved that hard work and cooperation are the key to success.

## In Tune With the Times

## S.C. Collaborate, Cooperate, Participate

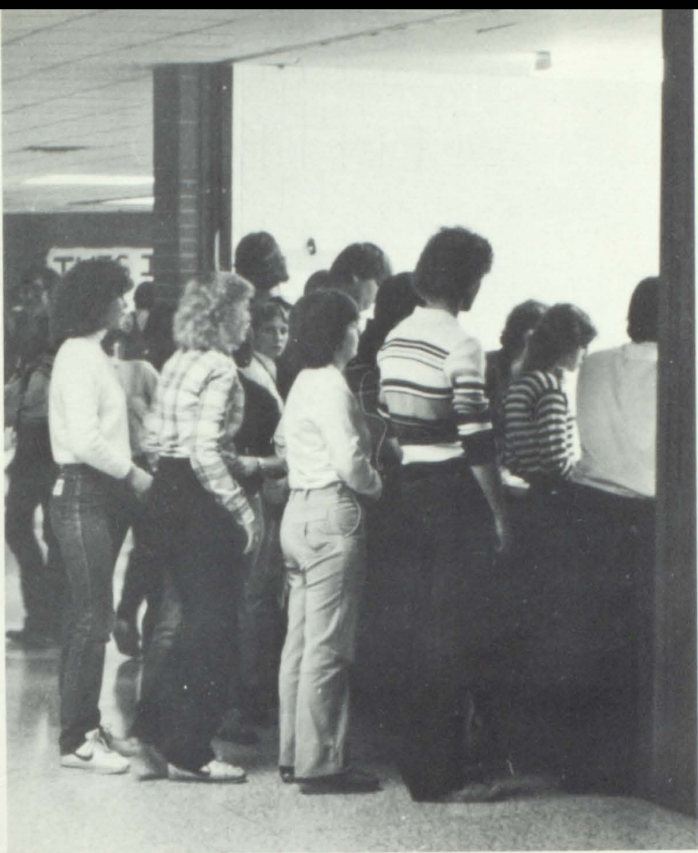

Student Council has been visible and flexible in its service to the school. Blood Drives, ice cream eating contests, snow sculptures and snickers reflect the variety of endeavors.

Homecoming was their biggest masterpiece of the year for students. Dress-up days, contests, ceremonies and parades highlighted the week. The most visible service was, of

course, the snack bar. After school the cafeteria was the meeting place for friends, homework consortiums and just plain "pigging-out"! Concessions for home sporting events turned the tide in terms of finances. The Council was able to get in the black by early fall due to some hustle by popcorn peddlers and adjusted prices. '82 was a whopper for SC.

# A Year of Debate and Decisions

After eight years as District 831 Superintendent of Schools, Dr. Bartel announced his retirement this fall. This year a referendum was necessary for increased taxation, teachers went on strike, Governor Quie unnerved Minnesota schools and purse strings tightened.

# Information<sup>2</sup> + Motivation<sup>n</sup> ÷ 12 years = Education<sup>MAX</sup>

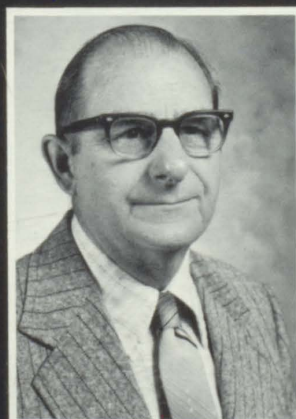

Richard Anderson  
Business Education

Education's come a long way since those first one-room schools and McGuffey Readers. Not only has basic curriculum blossomed into a delicious smorgasbord, but simple cipherin' has been expanded to trigonometry, computer programming and math analysis.

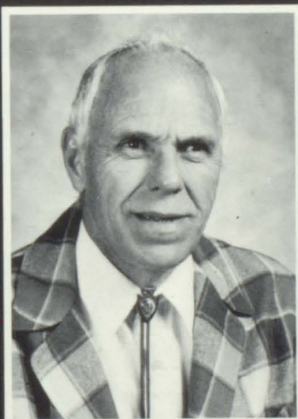

Along with changing times and changing curriculum comes the new "Super Teacher." No more school marm with hair pulled back tight in a

very neat bun. The new breed of teacher is generally younger, better educated and trained more extensively to deal with students today.

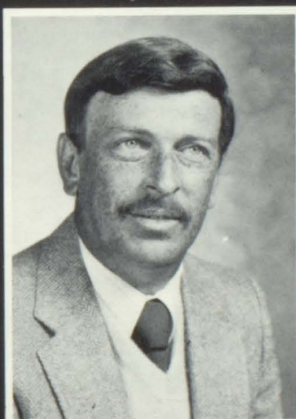

This year we even saw the teachers stand up and be counted. Teachers aren't just standing in the stacks anymore. Throughout Minnesota, teachers hit the bricks to tell communities that the job of the teacher has continued to expand without equitable pay increases.

Diversified Occupations

From Altavilla to Wolf, Algebra to Woods, the faculty is diversified and dedicated. Each teacher, unique and distinct, plays a part in that most important task of education. Each has a special way of caring and helping and guiding.

Even though "thank you's" and comments of appreciation are rare, students' lives will forever carry their gratitude. And years from now, something that a teacher said or the kindness and understanding of a counselor will come to mind. And when the thoughts drift back to 1982 and Forest Lake High School, those thoughts will catch on people and events and teachers who really cared!

# Staff Members Measure Up

The following information was taken from the results of the 1981 Parent and Student Surveys.

# Where Have All the Teachers Gone?

The Class of '82 could look back at the faces that have come and gone in the past three years; especially those of teachers! Over 25 teachers who were here in the fall of 1979 are no longer teaching at Forest Lake Senior High. In fact, a very large percentage are not teaching AT ALL!

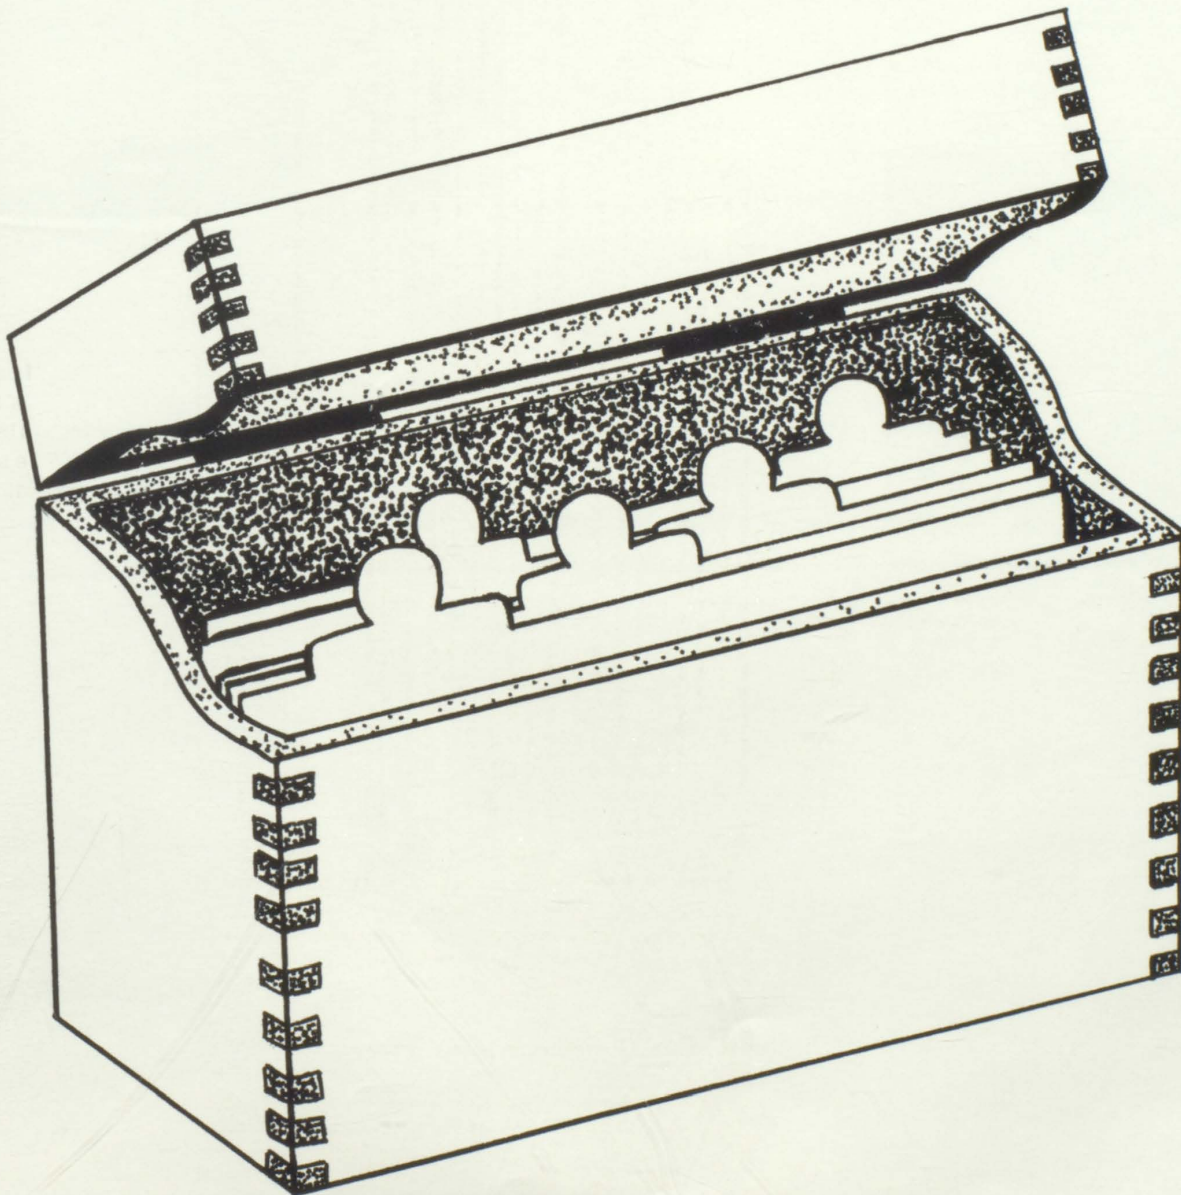

There are those who retired like Mr. Scofield (subs in the district) and Mr.

Harper (just returned from New Zealand). There are teachers who stayed in education, like Mr. Backes, but changed jobs. Mr. Backes is an Assistant Principal in Alexandria, MN. Or, there's Mr. Peacock who teaches at the junior high. And, of course, Mr. and Mrs. Redmond, who both teach in Grand Marais.

But there are many who moved into the

business world: Mr. Lynch runs his own motel, Dianne Jensen sells antiques, Mr. Thoburn sells real estate, Ms. Markus works for an insurance company.

Regardless of where they are and what they are doing now, they will always be remembered as teachers at Forest Lake Senior High.

## Many to Listen When a Voice Cries Out

The Guidance office is a popular place at the beginning of a semester when classes need to be changed. But many students use guidance services all year round. The office is used by college and military recruiters, by counselors and faculty for parent conferences, for career counseling and by nervous seniors for a quick credit check.

The Guidance Department is responsible for scheduling and registration of students, for group and individual testing, for special services referral, individual and group counseling sessions, career planning (including the Career Fair) and college preparation/financial aids. With such a variety of services and people there is truly something for everyone in the Guidance Office.

## What Price Health Care?

The school nurse may become a thing of the past in District 831. The School Board has recommended that her position be cut. What impact might that have on students and staff? Will a nurse's pass be a thing of the past? Who will be responsible for the chronically ill student or maintain parent contact in matters of health?

Certainly, there are those who seek the

comfort of a nurse's office cot to catch-up on lost sleep or as a haven during test time, but the majority of visits to the nurse are legitimate. Over 3800 ill students visited the nurse last year and some 1401 injured students were cared for by Ms. Frigstad, school nurse, or Ms. Valenty, health aid.

Frequent visitors are monitored and parents or school officials are

contacted. Such monitoring has proven instrumental in detecting conditions referred to family physicians.

Will Ms. Valenty still be seen on her daily trek to the kitchen for ice packs? Will Dr. Cooper turn to tongue depressors and move his office down the hall? Show up next year and find out!

## Sweeper Man

# Faster than a Speeding Lint Ball

Caught up in friends, grades or sports, many students begin to take clean halls, hot meals and library facilities for granted. These nameless faces are seen daily and their jobs are performed diligently and thanklessly.

Without them we'd be a dirty school with peanut-butter sandwiches.

No Sweeper-Man on his never-ending fight for clean carpets.

No more Ms. Beeksma and her savage floor polisher. We just couldn't do without them!

## The Great Job Swap (International Style)

From Manchester to Minnesota, "pip-pips" to "oof-daas" and the white cliffs of Dover to the white drifts from blowers clearing snow from driveways in January — what a swap!

The senior high school is very fortunate to have been involved in the unique experience of participating in the Fulbright Teacher Exchange Program this year through the U.S. Department of Education and the Office of International Education. The teachers participating in the exchange were Mr. Bob Fedderly, English teacher at Forest Lake, and Mr. John Griffin of the United Kingdom.

Mr. Fedderly and his family lived in Mr. Griffin's home in Stalybridge, which is twelve miles east of Manchester in the foothills of the Pennine Mountains. Mr. Griffin and his family were residing in Wyoming in Mr. Fedderly's home.

Mr. Griffin taught English courses and coached soccer and basketball. When comparing British and American education, Mr. Griffin was somewhat stunned at the public's expectations of public schools here. He commented that the public expects the school and teachers to be responsible for much more than just education!

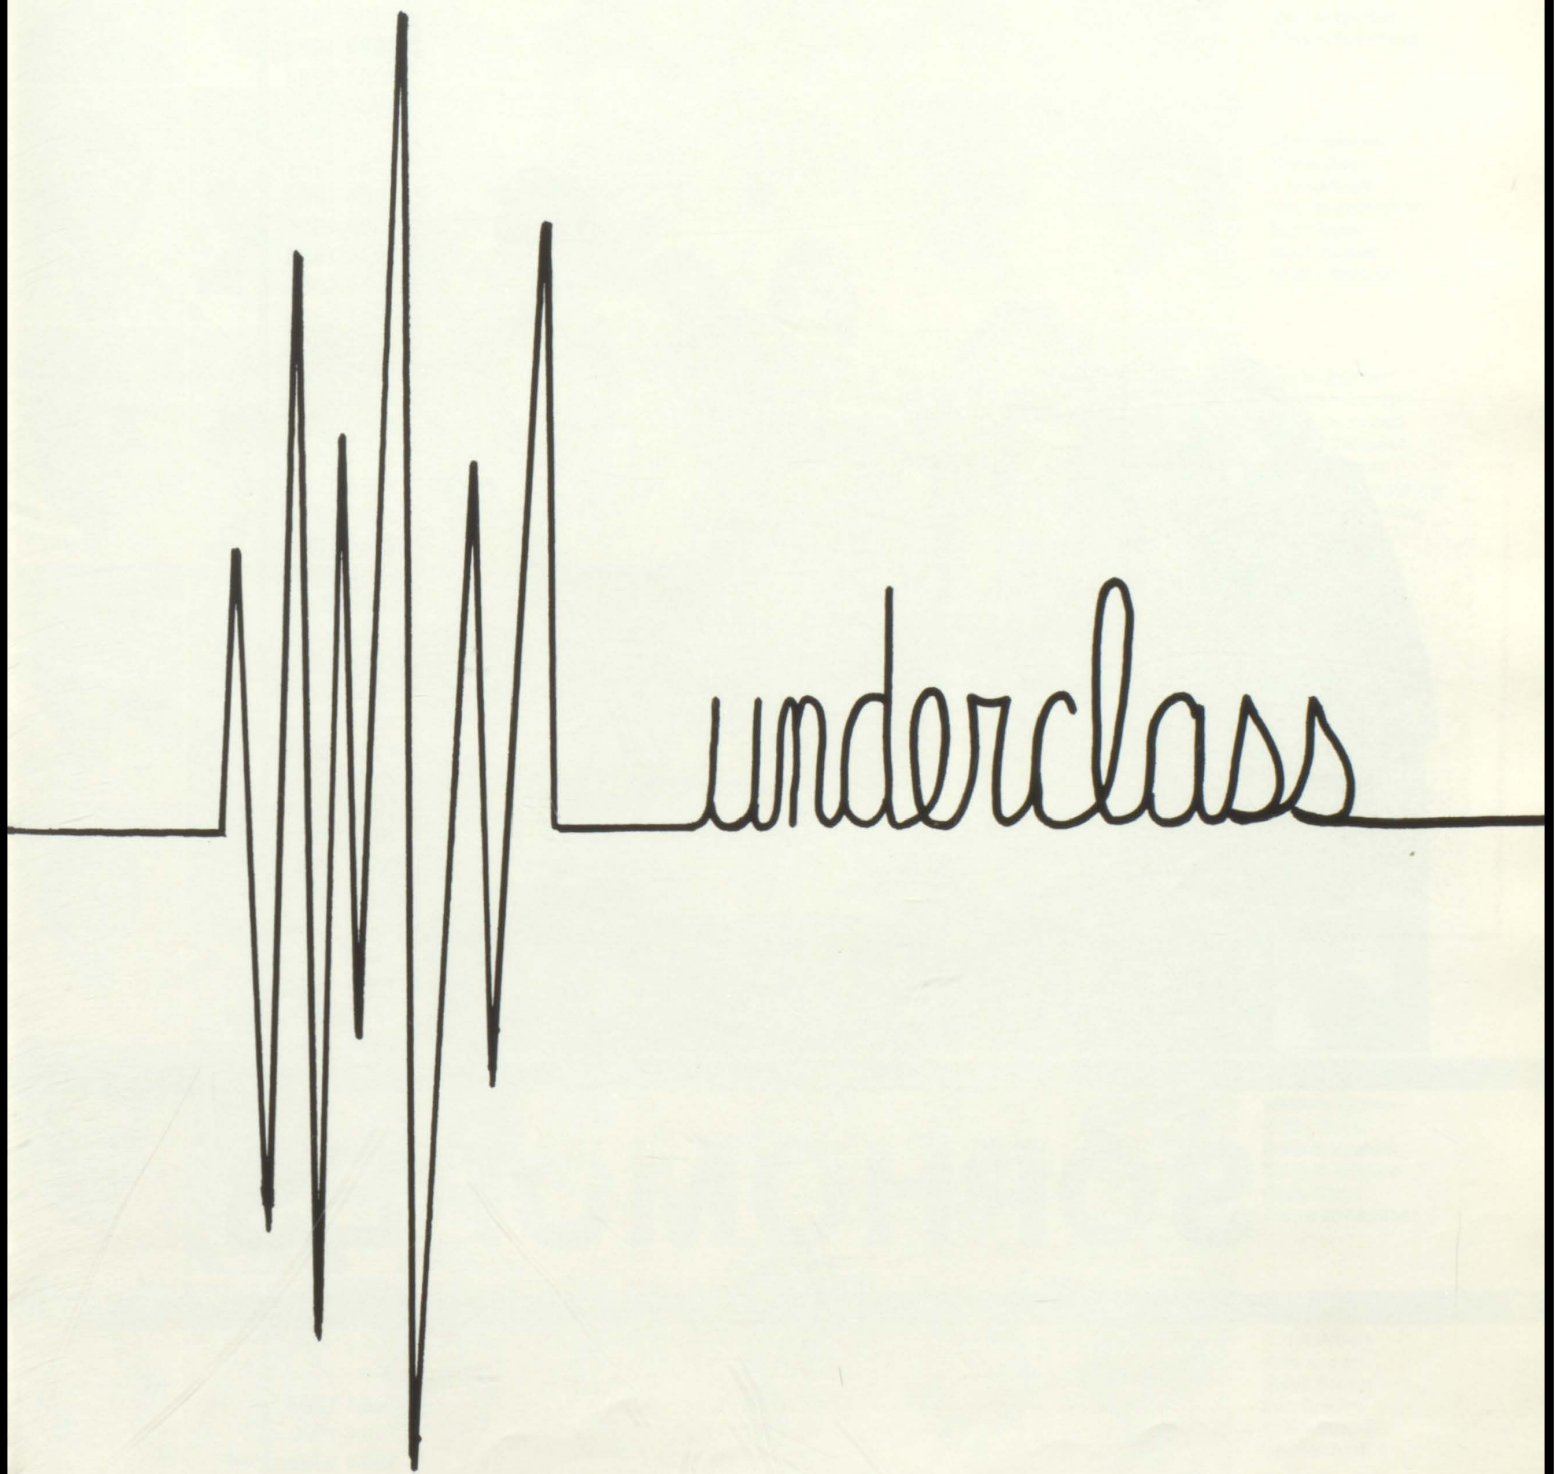

**FAR LEFT:** The Griffin family: John, Liz, Simon and Jill. **LEFT:** Mr. Fedderly sporting a spiffy white cricket uniform. **BELOW:** Mr. Griffin modeling some breezy breezers in Coach Fedderly's absence. **BOTTOM:** The Fedderly family: Bob, Jane, Josh and Jess.

Variety was the main course during fourth hour. Although lunches went up to 85¢, it's still the best buy in town. You have your choice of the sandwich line, sack lunch or entree du jour. # New Pool Welcome Addition for Scuba Classes

The bottom of a swimming pool may not seem to be a good place to spend much time but many students, through the years have done just that. Mr. Hallin taught his first scuba class for Forest Lake students in the spring of 1975 at the White Bear Lake YMCA. Since that time, he has taught at least one class each year. They have used pools at Columbia Heights, Spring Lake Park and South St. Paul. Students and faculty have completed these scuba classes. The first classes to be taught at the new Forest Lake pool will be this spring.

Mr. Hallin first became interested in scuba diving through his experiences with a friend and fellow lifeguard. In 1963, they discovered the 235' long Civil War steamship, War Eagle, in the Black River. That discovery led him to work with the Minnesota Historical Society looking for fur trading artifacts.

In 1973 he went to Greece for 3 months and dove for the University of Pennsylvania. While there, the Temple to Apollo, about 2300 years old, was uncovered. For the past 3 years he has taken groups diving in Central America and Mexico.

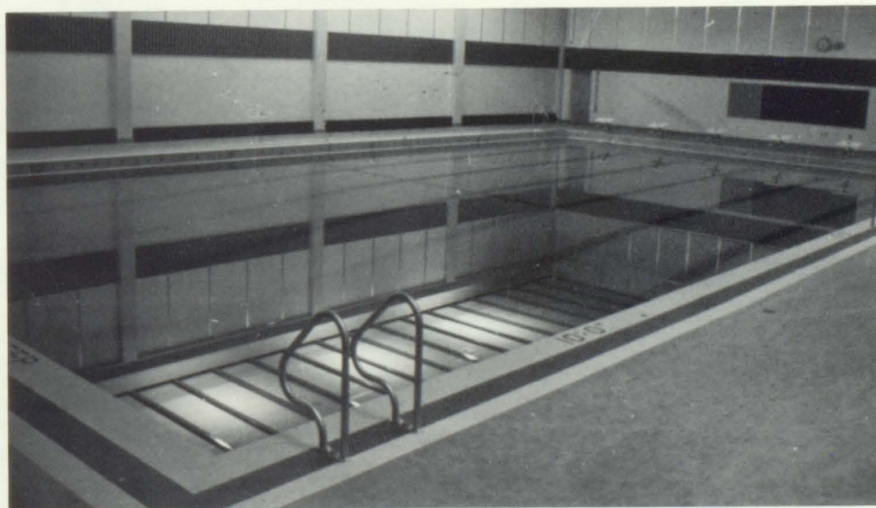

ABOVE: Friendship is sharing a flipper with a buddy. FAR RIGHT: We couldn't decide what it was that **Brent Schlaeger** was trying to do here . . . obviously, not drown. RIGHT: **Dave Swenson, Joel Hansen, Scott Mayhew, Shawn Seim** and **Brent Schlaeger** check their tanks before class begins.

*LEFT:* Just trying to take a picture under water with no bubbles. Mr. Hallin had these divers hold their breath for five snapshots. This picture didn't even come out perfectly. *BELOW LEFT:* **Helen Hawkinson** tries to save **Tim Gort**. We still haven't figured out why. *BELOW:* The new swimming pool at Southwest opened this fall with a bit of a delay due to the strike.

*LEFT:* A few of the scuba alumni are (from left to right) Scott Mayhew, Shawn Seim, Joel Hansen, Jerry Hummel, Brent Schlaeger, Marv Emerson and Dave Swenson.

Some may say that knickers were IN and some may say that leggings were IN but we can all agree about what was ON last winter . . . long johns! Here **Ms. Stangeland** models the newest in fashion from the halls of Forest Lake High School. Temperatures reaching new lows and wind chills hitting three digits gave new meaning to the word cold.

The Christmas holiday season brings more than cookies, evergreen and Santa and his sleigh. Holiday time means traveling to see friends and relatives. Some travelers don't make it. Santa has nothing in his bag for these people. BUT THE RED CROSS DOES!!

Crowding around the ticket table to cash-in tokens or buy tickets is an everyday sight. 85¢ for students and \$1.30 for faculty buys the "Ranger Plate of the Day."

## Variety the Spice of Life in the Cafeteria

Tokens arrived in 1977 and lunch hour was "closed" in 1979. Along with these changes for fourth hour came the choices we sometimes take for granted now.

A bit of cafeteria trivia was collected from the Food Service Manager. Beyond the 11,900 hours of work needed to prepare and serve lunches at the senior high we thought we'd like to share a partial yearly grocery list with you.

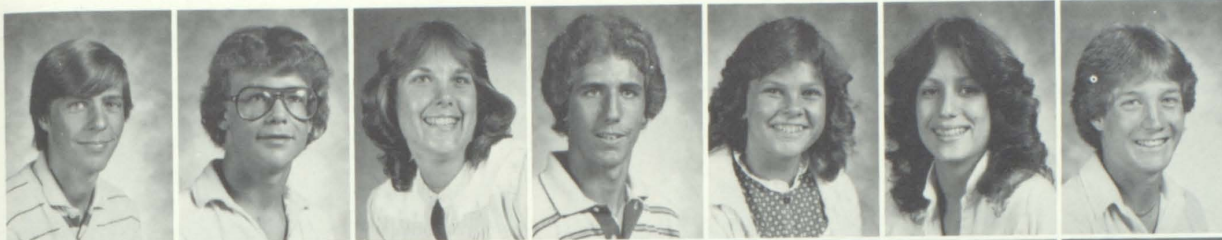

169,925 ½ pints of milk  
37,627 lbs. of hamburger  
52,500 ice cream items  
18,000 lbs. of tossed salad  
17,145 lbs. of French fries  
1905 cases of vegetables

Last year 152,446 student lunches were served. That included 35,000 bag lunches. Students may spend time complaining about school food, but it doesn't look like they went hungry.

In these photos we see John Kolbow dropping a token and ice cream lovers crowding in for drumsticks. Denise Perreault is just settling down for a corn dog dinner and applesauce-eaters fill their plates with salad and fruit.

## People Helping People

The Youth Service Bureau is a special type of human services agency. It offers free professional counseling and assistance to youths and their families.

In 1977, a local police chief, probation officer and assistant principal decided that Forest Lake needed some social services centrally located to supply our large multi-county school district. On August 1, 1977, they were notified that their proposal for the Youth Service Bureau had been selected for funding. A staff was hired and the target group established: youths ranging from 8-17.

The YSB receives referrals from police, courts, schools, and parents. Services are flexible. They can be provided through individual and family

counseling, skills enhancement and other co-sponsored services. These services can be received at their offices in the Professional Building, at school or at home. A partial list would include: diversion therapy, early intervention, outreach, restitution, community work, individual counseling, family counseling, group counseling, skills development, senior citizen chore service and a clown club.

Anyone who lives within the Forest Lake school district can use the bureau. This year over 350 young people have used their services.

**BELOW:** YSB staff members are (standing) Doug Williams, Tom Oswald and Bill Hutton. (seated) Paul Sterlacci and Diane Nickerson.

## A Knock-Out

Tim Jung does a number on his unsuspecting opponent. Tim has boxed for several years. This year one of his Golden Gloves matches was at the Forest Lake VFW Hall. He came out victorious!

Tim's father got him interested in boxing. His father had boxed in the Navy. When Tim came home from school one day after a fight, his dad figured it was time he learned to defend himself.

## Preparing for Repairing

The Trades and Industry class (T&I) has proved a successful one over the years. Seniors who have taken either Small Engines or Sports Vehicles are eligible. **Mr. Blasko** began the program in 1973 and has continued to teach the class for the past 9 years.

T&I is housed in the central supply building (the old bus garage behind Central Jr. High). Students are bussed over to the facility each day for two-hour classes. There are 68 students enrolled this year.

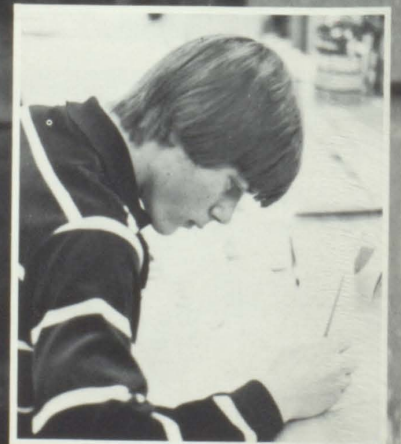

Mr. Blasko said that only about 8 girls have ever taken the course. From the looks of these photos, however, they aren't afraid to get into the swing of things!

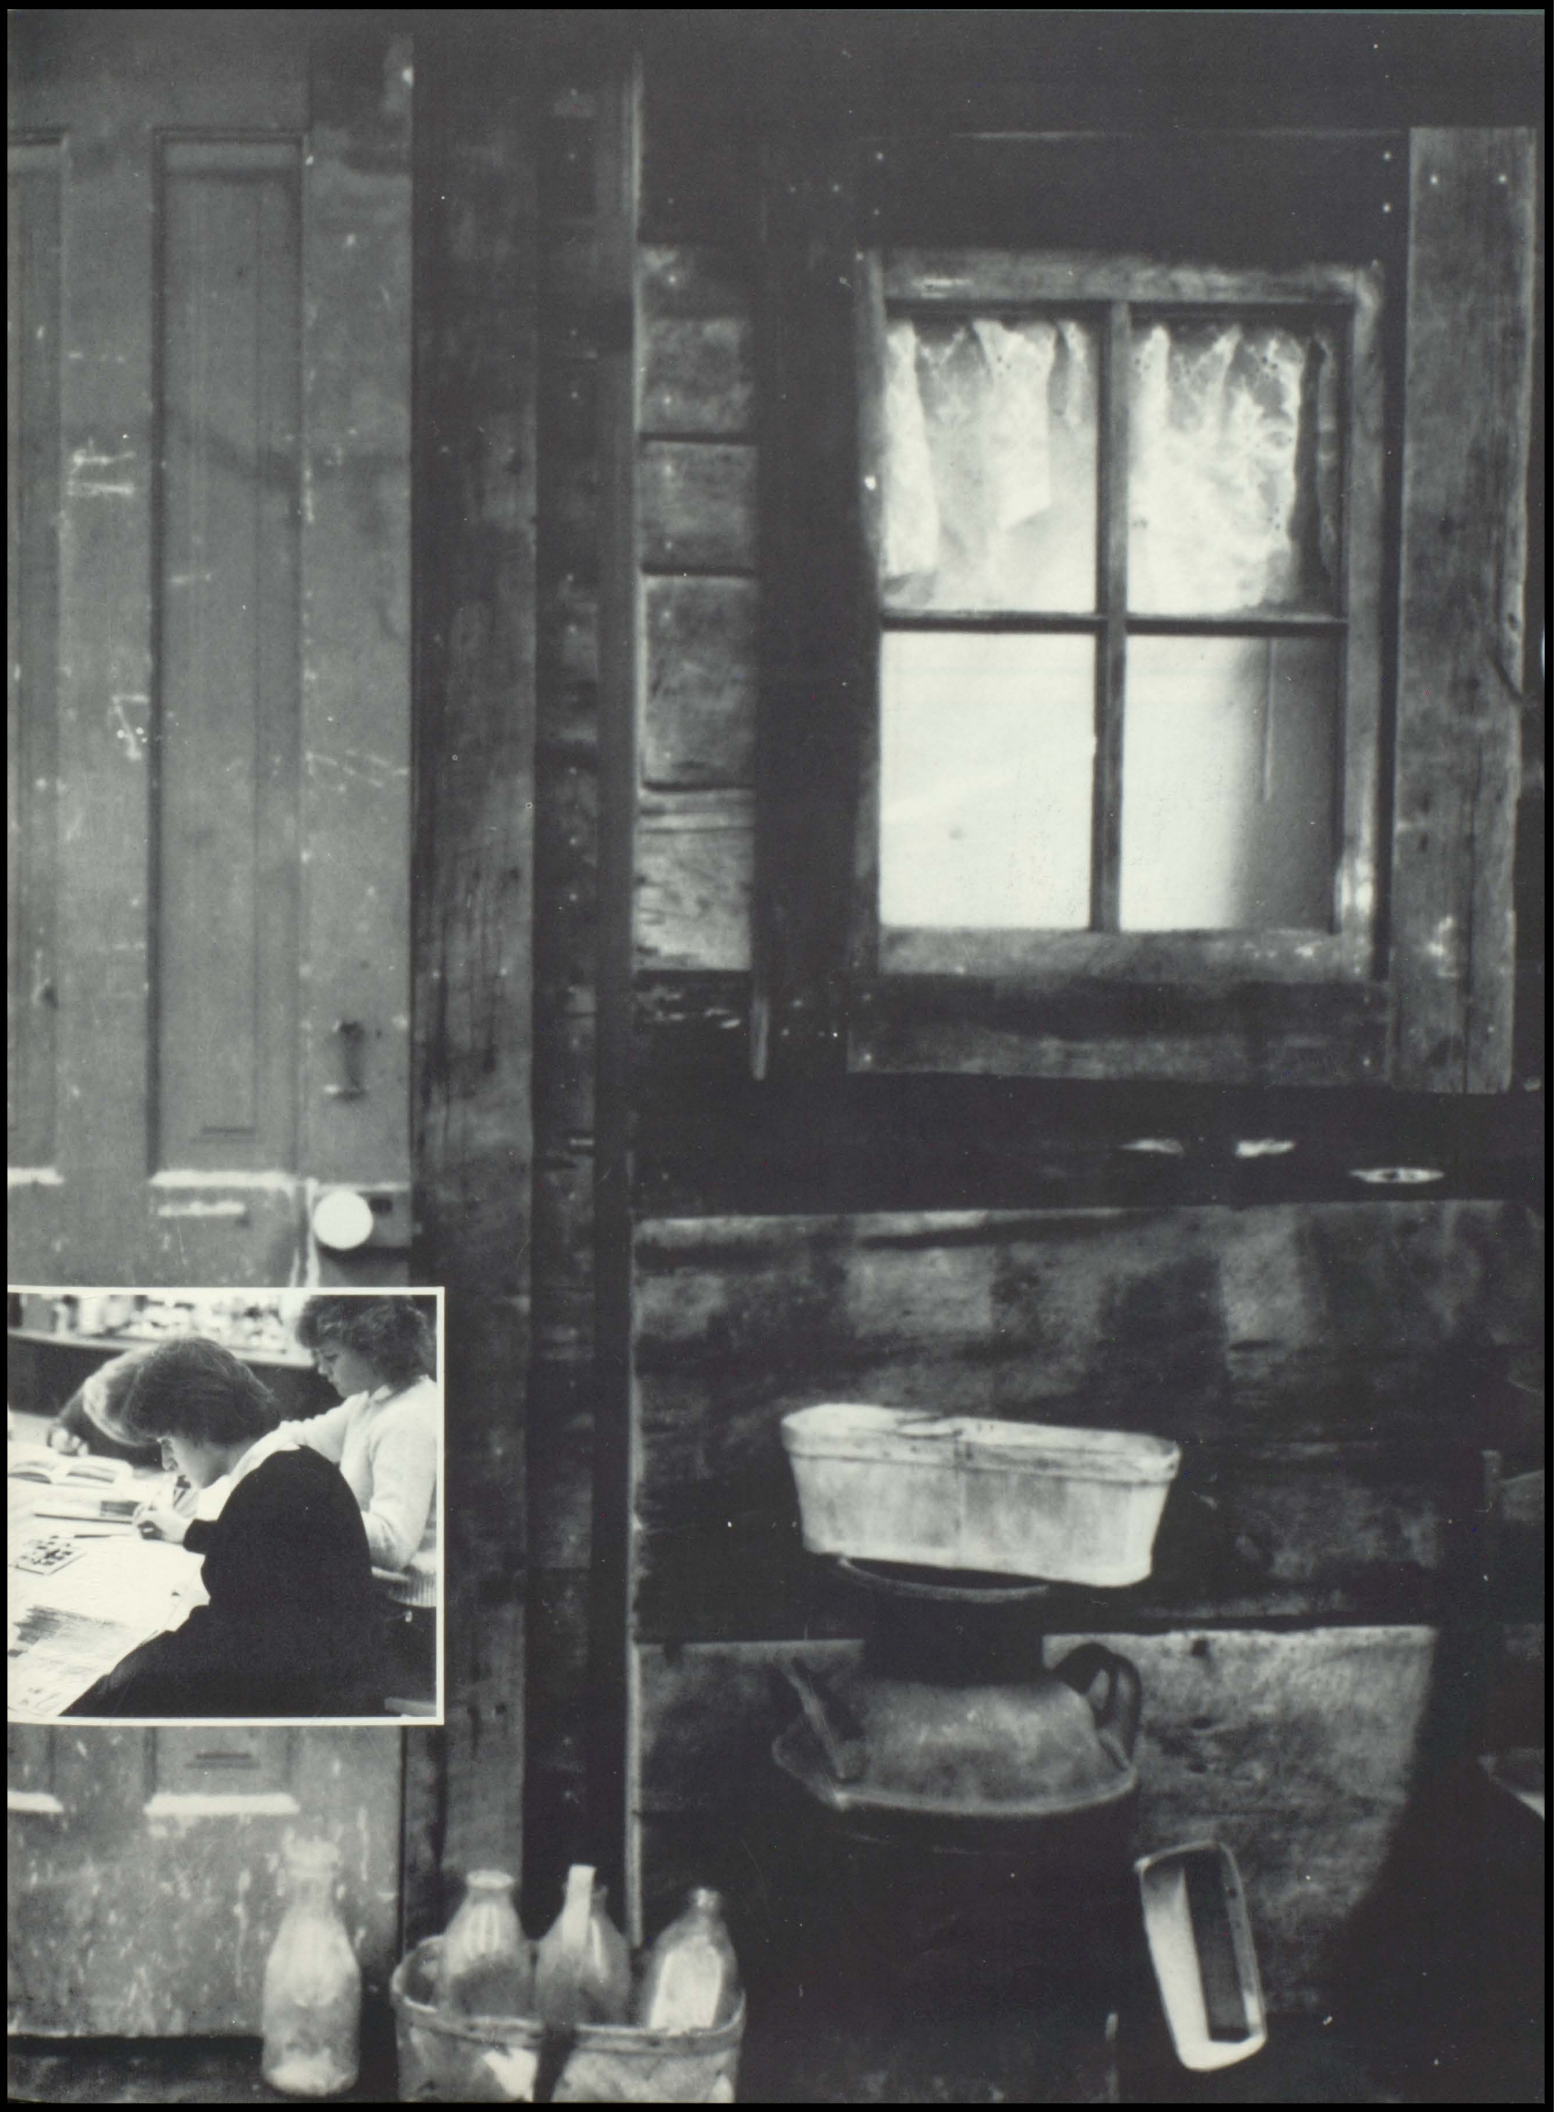

Although the Sciences Provide the Means Through Which Man Achieves, the Arts Are What Make Survival Worthwhile.

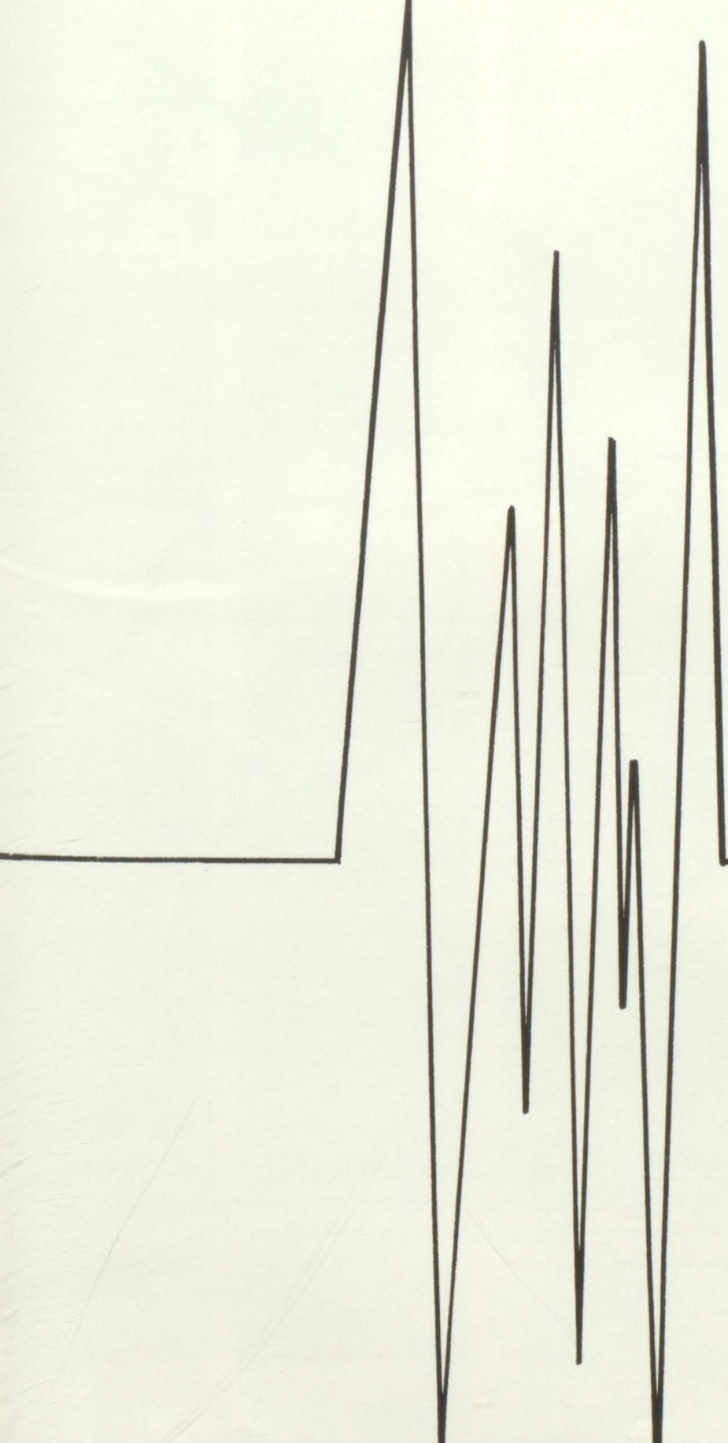

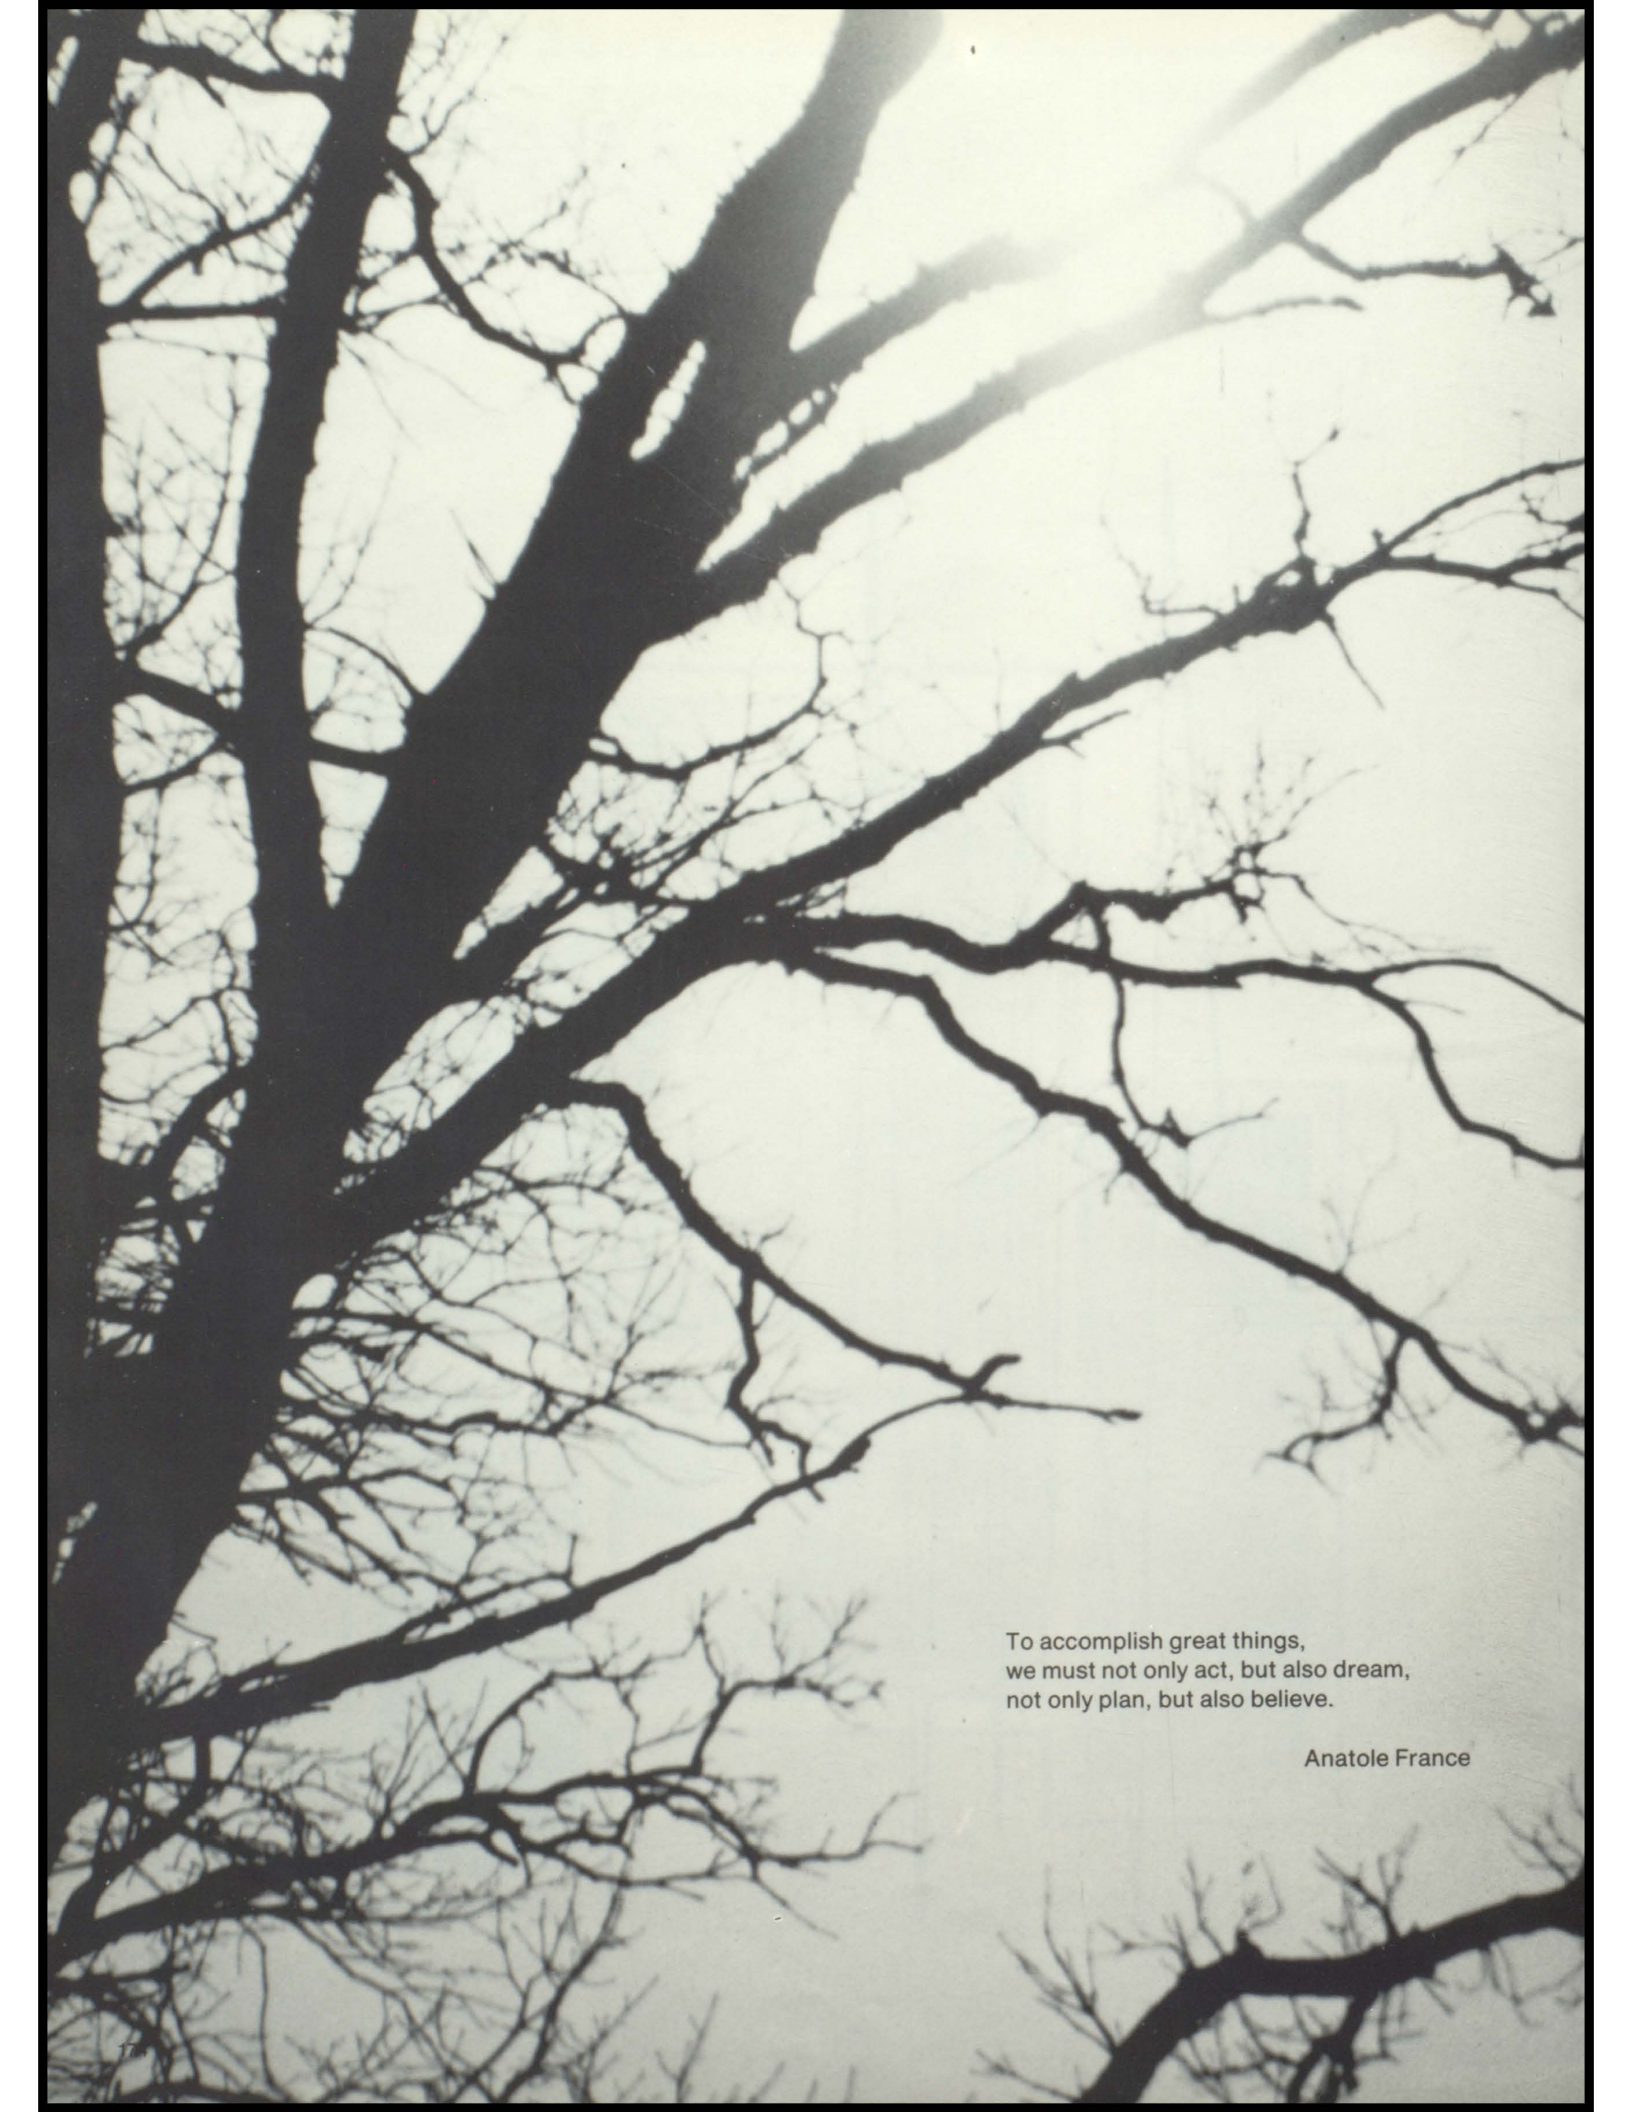

seniors

A black and white photograph of bare tree branches against a light sky. The branches are dark and silhouetted, creating a complex, web-like pattern. The sky is a uniform, light color, providing a high-contrast background for the dark branches. The branches originate from the left side of the frame and spread out towards the right and top, with many smaller, thinner branches branching off from the main ones.

To accomplish great things,  
we must not only act, but also dream,  
not only plan, but also believe.
