# FORESTER

A photograph of a sunset over a body of water. The sun is a bright, glowing orb in the center of the horizon, casting a long, shimmering reflection down the middle of the water. The sky is a gradient of orange and yellow. In the distance, a dark silhouette of a water tower is visible on the right side. The foreground shows some dark, out-of-focus vegetation.

# Opening Day of 1990-91 School Year ...

As the 8:00 bell rolled around on Sept. 4, many students pushed their way through the halls heading for their 1st hour classes. Most of the students knew their way around and got to their classes right away. But for the sophomores who got lost, they ended up in one of the offices to be directed to their rooms. Actually it wasn't only the sophomores who got lost on the first day, it happened to some juniors and seniors too.

The office itself was pretty hectic with all the new changes that started with the new year. One of the changes in the attendance office is that the old attendance slips that your name goes on for being

absent is now replaced by an Osiris computer system, so it's easier to keep track of the students who are absent and leave during the day.

The first day in the guidance office was probably the busiest. There were lots of students wanting to change their schedules right away, but they ended up waiting because the first couple of days were scheduled for the newly enrolled students. The guidance office also received a couple of new computers. They all have the students' schedules on them, so it's easier to locate the students for when they make an appointment.

# Starting School After Long Summer Hard for Some Students . . .

The end of August brings misery for some students. This means school is soon approaching. Some look forward to school because they get to be with their friends, while others dread school because this means no more sleeping in until mid-June.

The biggest problem for the sophomores, however, is starting at a new school where they are the youngest — and no longer the oldest in their school. The goal of a sophomore on the first day of school is to find his/her classroom without getting lost.

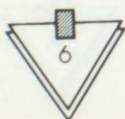

Last year the students complained that five minutes was not enough time for passing. This year they raised it to six minutes. So now students should have no trouble getting to class on time.

# Flashes of Fashions

When walking down the halls of Forest Lake High School, you see a wide variety of styles. It seems no two students dress alike. The exception being the group of sophomores who spend most of their time trying to fit in. Once most of the students in Forest Lake reach the high school, they are ready to show their individuality.

There are students who show up each day wearing a tee-shirt and jeans. Others choose the dressy approach and one day a week wear a skirt or dress pants. And yes, there are the ones who always look as if they just stepped out of a fashion magazine.

The look of the nineties is whatever you want it to be, and the students at Forest Lake High School definitely show this by the way they dress. photos by: Janine Lindblad.

# HARD WORK PAYS OFF

Sopranos, support those upper tones! Altos, tone! tone! tone! Drop the jaw! Basses, unison! Tenors, you're flat! Hit the right note!

For students who are in chamber chorale these demands are heard every day. Most students who are not in choir do not realize how hard

it is to sing with proper choral tone. It is not like when you were in elementary and junior high school when you signed up for choir to get an easy grade. Choir is much more than it appears. Their hard work pays off when they entertain people statewide with their musical talent.

# HIGHLIGHTS

## WAR?

Due to the date in which this article is to be published, this current event piece will stand with the date of December 13, 1990. As of this date there is a threat of war between the United States and Iraq. This threat unfolded when Iraq annexed a little country rich with oil, Kuwait. The United States, along with other countries, then stepped in by keeping a close watch on Iraq and offering them a choice to withdraw from Kuwait or suffer the consequences. What Consequences? At this point we do not know. As of now, we have almost 500,000 troops in the Middle East waiting and wondering what the next day may bring.

## CENSORSHIP CONTROVERSY

Censorship within the recording industry has become a major issue of the 90's. The dispute continues over warning labels that read, "PARENTAL ADVISORY — EXPLICIT LYRICS," which has been placed on many albums. Many concerned parents are worried that their children are listening to music groups like 2 Live Crew, and N.W.A., which many feel contains vulgar, sexually explicit lyrics to which kids under 18 should not listen.

On the other hand, many teens and artists feel that censorship is an infringement on their First Amendment right, Freedom of Speech. Artists contend that parents should enforce their own censorships, which in turn would make labels meaningless. They also feel that putting these labels on albums may even increase the attractiveness of the album, because it is restricted from teenagers.

## LEGEND DIES . . .

Legendary, composer and conductor, Leonard Bernstein, died of lung failure on October 14, 1990. In his life he composed three symphonies, a violin concerto, five Broadway shows, including, **West Side Story**, and conducted some of the great orchestras of the world. The legend of Leonard Bernstein and his works, have endured the test of time; he will not be forgotten.

## *Amendment I*

*Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances.*

## JUST A FEW NOTES . . .

- FLHS's cross country team has had a very successful season, the boy's team won the Twin Cities Suburban Conference, and just missed qualification for state.
- FLHS's football team went to the playoffs but chances were defeated when they lost to Anoka.
- General Manager for the Vikings, Mike Lynn resigned to become President of the New World Football League.
- Comedian, Roseanne Barr hits a sour note, when she sings the National Anthem.
- The Republican Party of Minnesota dove to an all-time low when allegations were made about their candidate for Governor, John Grunseth.
- In August '90, the President of Russia, Mikhail Gorbachev visited Minnesota on his way home from Washington. While he was here he made several stops, including the State Capitol, Saint Paul.

**MILLI VANILLI**

## JUST LONG HAIR AND PRETTY FACES!!

Pop-duo group Milli Vanilli were accused of lip syncing on their popular album, "**Girl You Know It's True.**" They pulled off a quite serious snow-job on the general public and apparently even their record label. They sold 7 million copies of the funky dance album and even received a Grammy for Best New Artist. When the truth came out, both Rob Pilatus and Fabrice Morvan, the two members in the group, admitted in a press conference that they were not the singers on the album; the Grammy representatives demanded they return the Grammy. This was the first time in the 34 year history of the Grammys that any award had been taken away. Both Rob and Fab later told the press that they had planned on returning the Grammy anyway. Right! What went through their minds when they were up there to receive the award?

## GRAFITTI BRIDGE — NO MORE!!!

There will be no more "paint the bridge" parties, no more endless burns on the underclassmen, and no more threats toward the opposing homecoming team. Generations to come will miss a traditional source of school pride for FLHS. The highway 97 bridge is no longer standing. In early 1990 the bridge was sold to the Department of Transportation for safety reasons.

In 1927 the bridge was built by Northern

Pacific Railroad as an overpass for the heavily used rail lines. It has withstood the test of time for 63 years. The bridge cost \$10,830 to build and its estimated removal cost is \$35,000.

Though the actual bridge is no longer standing, nothing will replace the memories of the senior class of '91. photos by: Images By Joseph

# MARCHING BAND AND MORE

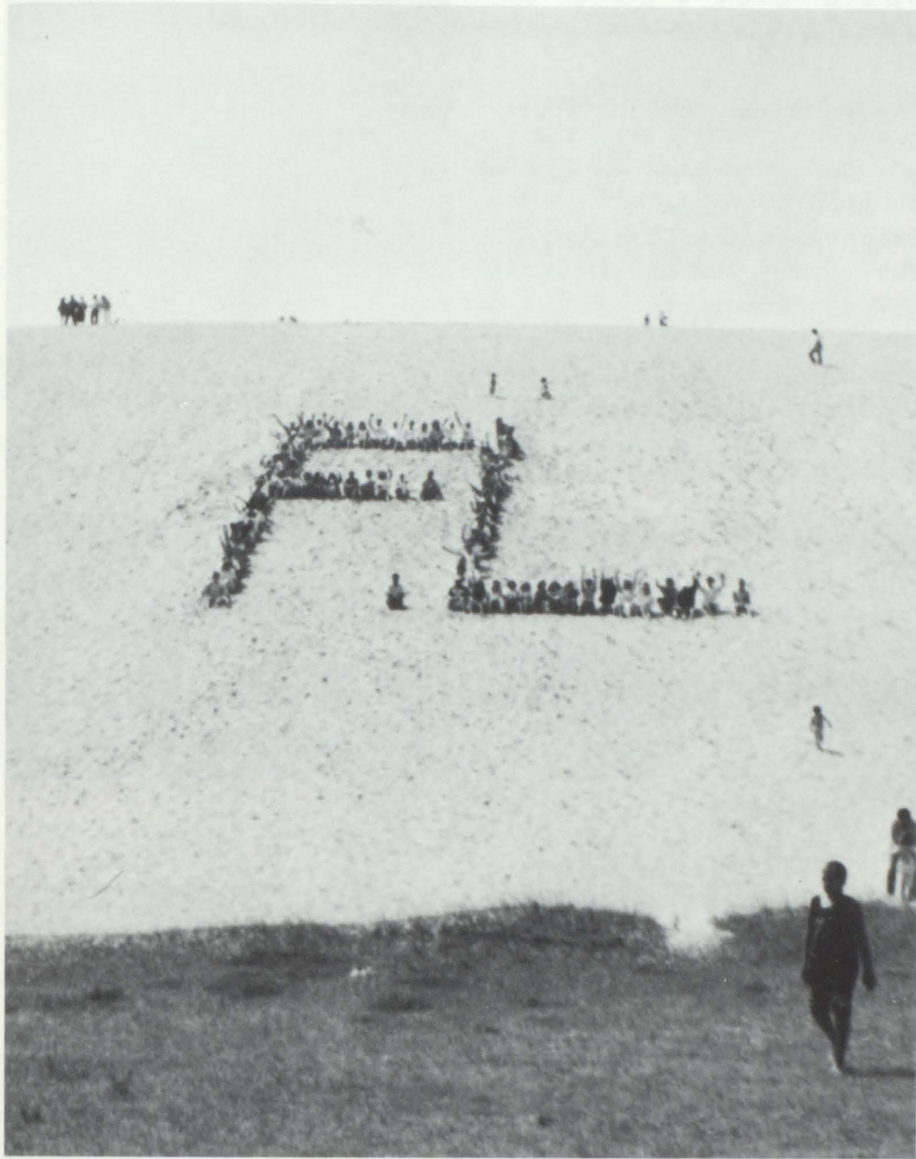

You may think the students in band get tired of marching, but really it's not that bad. Look at these pictures and see for yourself. Everyone is smiling and eager to start playing. Notice people are in step, and what about Mr. Hahn? I wonder what he's thinking?

## MAJESTIC MICHIGAN

The Forest Lake Senior High School Marching Band has traveled many places throughout the past years. This summer, they visited the Cherry Festival in Michigan. They visited many places between practices, and still enjoyed their leisure time and rocked the town during the festival.

# MELODRAMA MANIA HITS FLHS!

**B**ooo ... Hiss! These were just a few of the sounds heard from the audiences of the fall production of "Because Their Hearts Were Pure." They got in on the act by participating with cheers for the Hero, Ooo's and Aah's for the Heroine, and Boo's and Hiss' for the Villain. Considering this was the first melodrama ever performed here at FLHS, there were many surprises. Being corny and unrealistic was the name of the game.

Between acts the Olio cast came out and gave their performance by singing songs and dancing along to the music of famous 1920's themes. They kept the audience on their toes, and entertained as well. The audiences will never forget the brilliance on stage, nor will the actors forget the roar of excitement from the audience. Memories have been made as the first melodrama to hit FL's stage was a big success.

# Our Representatives

Student Council has great success in our school. It makes sports more enjoyable for us by organizing concessions and dances to look forward to after games. Student Council also makes it possible for sophomores, juniors, and especially seniors, to look into different colleges they are thinking about attending after graduation. One thing that is important to all of us is variety. The

Student Council offers that variety by organizing among other things the Snow Week variety show, the semi-formal dance and the Senior all-night party. So when you look at these pictures, don't just look at them, take a look at who is in them and at the expressions on their faces. The Student Council really does represent all of us.

# THE BALD SOPRANO

This year for the One Act play, the long awaited Bald Soprano was magnificently performed by a wonderfully talented 6 member cast: consisting of five seniors and one junior. Directed by Ms. Gilles this year's play seemed to be well on their way to perfection. Everything was there, a bonding cast, a professional crew, and a fulfilling yet energized director, who was more of a friend than a teacher. (A close friend to all of us!) Recently, Ms. Gilles had said that this was going to be it, this was going to be our year to go to State. She had a hard working, attentive cast that worked well together. This was our year we would win regions and advance to the State tournament. This was everyone's goal, including Ms. Gilles'. We were the first group she was really pleased with when it came to making the show "CLICK." Although we felt confident about the show, we just didn't have what the judges were looking for. Consequently, we fell short and took Runner Up to the State tournament. There were a lot of hard feelings that night, but we felt good about our performance. Although, one good point came from this One Act play competition this year, one thing that we all wanted to do; and it happened . . . WE BEAT BLAINE!!

*This year's Debate Team had a great season. The varsity team performed consistently, making it to break rounds at the Macalester and Forest Lake tournaments. The novice debaters also did very well. Six debaters broke to quarter finals at the Novice Classics, with Erin Johnson and Carrie Lucking taking first, Erin Mathern and Katie Lowe, consolation winners and Andrew Kloster and Beth Beseke, quarter finalists. Lincoln-Douglas debaters had a magnificent year with Erik Moratzka taking 6th at state and Inga Lennes placing 8th. All in all the debate team had many outstanding achievements.*

# FL HOSTS ANNUAL SPEECH TOURNAMENT

The annual Ralph C. Streeter Speech Tournament was held at Forest Lake High School on Feb. 16, 1991. The tournament, named after a former English teacher and Forensics coach at FLHS, draws schools from the tri-state area and 27 participated this year. Over 600 speakers and 150 judges and coaches filled the cafeteria at 8:00 a.m. preparing for the first round. After 3 rounds, the cafeteria filled once again in eager anticipation of the final round postings.

There are 12 types of speech events: Serious Drama, Serious Prose, Humorous, Poetry, Original Oratory, Extemporaneous Speaking, Extemporaneous Reading, Informative, Storytelling, Creative, Discussion, and Great Speeches. Extemp. Speaking, Extemp. Reading, and Storytelling are what is called "draw events" where contestants draw a slip of paper that tells either the subject or story to be spoken about.

Around 1:00 p.m. the posters came out and were taped to the colored panels in the cafeteria. They

told the 6-8 people whose preliminary ranks were high enough to advance to the final round. At 1:30 p.m. final rounds started and if you were not participating in one, you were watching one.

At 3:00 p.m. the awards ceremony started. Awards were given to speakers in final rounds. First places were taken by Inga Lennes in Prose, Heidi Zapzalka in Humorous, and Lee Mattson in Great Speeches along with many others placing 2-7th.

Then the most prestigious award was given — the "Ralph C. Streeter" award. It is presented to a coach from any school, voted in by other coaches in the area, who has shown exceptional abilities in coaching. This year the award was given to a coach from Eagan.

The tournament ran extremely smooth and Forest Lake High School was represented as a distinguished Forensics patron and gracious host.

### PLAYERS TALK • • •

**TOM GAJESKI** (Varsity Manager) — "I think the team looks promising. With the returning starters and the new players, and if the team sticks together, making the BIG State Tournament is a realistic goal."

**BRIAN OJA** (JV) — "I think both teams are pretty good this year. There's strong pitching on Varsity, and JV is looking good defensively. With the right attitude, we'll take state."

**TOM SCHLAVIN** (V) — "I think we have the talent, but it depends on how hard we work and how bad we really want to win."

**ANDY MCCURDY** (V) — "We have been very successful all the way up, and one of our goals has always been to win the state tournament. We feel we have the potential, but it depends on how much we put into it this year."

**TONY GRUBBS** (V) — "We have the talent and if we can get the commitment this team can fly to the moon."

**LANCE BREILAND** (V) — "I think this year's team is pretty great! Oh — and by the way, we're going to state."

# GIRLS TRACK

At the time that this section is going to press, the track season has just begun. Therefore we are unable to publish the results of the meets, and the names and teams that are mentioned in the following article are only predictions.

This year's girls track team is looking great! They haven't had a meet yet, but they are showing marvelous potential. Coach Kathy Briguet anticipates that the 4x8, 400 and the 800 events will be the teams strong points this year. The only possible weak point is the high jump team — but this is only due to inexperience. And, who knows, maybe they will surprise us!

What are their chances at state? Coach Briguet feels that this is a difficult question to answer since our conference contains such strong opponents. But she feels that the 4x8 team and runners: Anita Paulino, Karla Hult, Renee Lutz, Karrie Wallin and Sara Joesting as having a good chance at going to state.

At the time that this section is going to press, the track season has just begun. Therefore we are unable to publish the results of the meets, and the names and teams that are mentioned in the following article are only predictions.

The boys track team is getting off to a fast start this year. Especially the distance runners. Many of this year's boys cross country team are now in track (Ivan Schleder, Adam Dehmow, Ryan Nelsen, Erik Andersen, Charles Huerth and Steve Meyer) and with their fantastic record, we can't fail but be optimistic. The only weak points that Coach Tom Hipkins sees are the field events and the sprinters. Even these will improve once the season gets further underway. The challenge is ahead for them as they get set to compete against the tough teams of: White Bear Lake, Anoka, Stillwater and Blaine. But, Coach Hipkins feels that hard work and determination will pay off and they have the potential to beat these teams and maybe go to state.

# DOWNHILL SKIING TAKES IT TO THE TOP!

I sat in disbelief. This was the last time I would be riding the chairlift with this feeling. This was the last time skiing down this hill as a "high school racer." No longer would I be nervous. Nervous, the feeling that would suddenly come over me in the starting gate. My stomach aching, my mind racing, all that lie before me; two gates, and then nothing. All I could see, those two gates. The steepness of the hill hid everything else. I hear people cheering me on from the chairlift. I hear my friends behind me. I feel the pressure within me. I say a short prayer, a selfish prayer. Please make this a fast, safe run, fast, very fast. I want to win. That feeling will no longer be with me. It has been the same routine, every winter for years now. Everything is changing. Everything must change. When winter turns to spring, I will move on. I will never forget my team. I'll never forget that I made it through the finish line. My time is good, but were the girls before me faster? How do I compare? If I didn't make it through the finish line that run, I'd ride back up the chairlift alone, thinking and hoping. Hoping to do better next time. To make it a faster run.

# BASKETBALL

People often ask me why I play basketball. Well, to me it is more than just something to do after school for two hours. I do not only play because I love the game, I think it goes much deeper than that. I have learned the importance of setting goals and that they don't just happen, you have to make them happen. Through my knee injury I realized how thankful we should be for what we have because we never know when it will be taken away. Also through the injury, I found out how determination and faith in God can get us through the toughest of times. Most importantly are the memories and friends I deeply cherish, that will never be replaces. I can remember my first game in 4th grade, and my dad was the coach. We won 56-4 and some of my teammates then are still my teammates. I will never forget or stop appreciating what my coaches, friends, and most of all, what my parents have done to make my high school career such a great one. Without their encouragement and support, I could not have made it. Thank you all, and God Bless you.

# RANGER FOOTBALL GAINS TWELVE HONORS

The Ranger football team finished their season with eight wins and three losses. Junior John Toth had a total of 1160 yards rushing, fourth best in the conference. Senior Mike Chalberg, a transfer from New Zealand, missed only one extra point kick and got ten field goals out of fifteen attempts. The team had an excellent season. They earned seven all-conference honors, and five honorable mentions. All-conference honors went to Doug Estes and Tom Gleixner — senior linebackers; Scott Anderson — senior noseguard; Aaron Olson — senior center; Mike Chalberg — kicker; junior back — John Toth; Cory Onell — senior quarterback/safety. Honorable mentions went to Tom Schlavin — senior back;

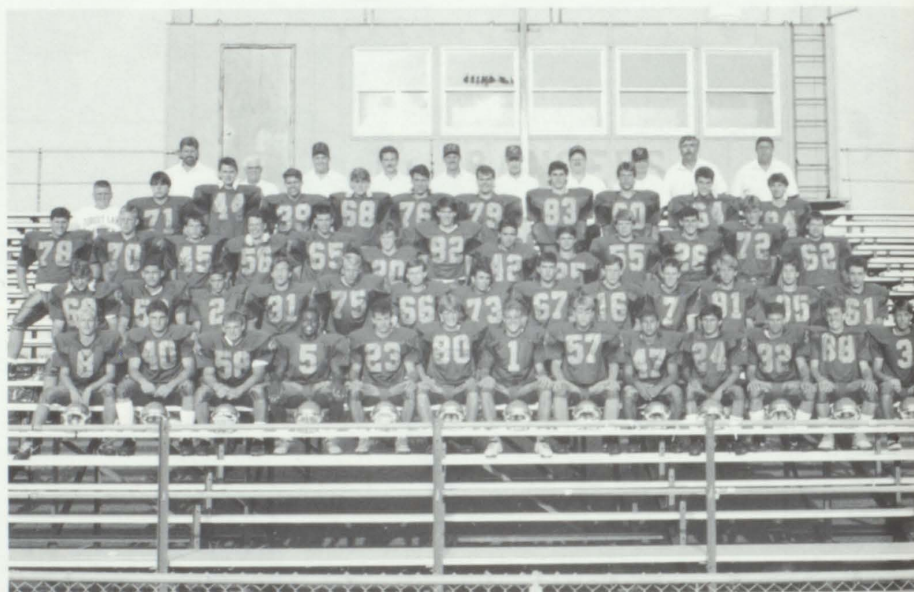

Chad Bounds — senior defensive tackle; Andy McCurdy — senior split end; Scott Norquist and Mike Humphreys — junior tight end.

Coach Mike Grant received Coach of the Year honors in the Twin Cities Suburban Conference. The Coach of the Year honors are chosen every year by all the coaches during a Conference meeting. When asked how Grant feels about receiving this award he replied, "It was an honor for me and for the team! I would like to share this with my assistants and with the team." Grant also said, "I recognize the fact that this group of players took us from the bottom of the Conference to one of the top teams in the Conference. This is the finest group of young men I have worked with."

# JUNIORS

# JUNIORS JUST WANNA HAVE FUN!

Wouldn't you say that juniors have it easy? They don't have to worry about being new sophomores: finding rooms, harder work, and being looked down on. They don't have the worries that seniors do: graduation and applying to colleges. Of course the life of a junior isn't perfect. They still have homework, and job pressures, but over all, your junior year is your best year.

# SOPHOMORES

# BEWARE OF SOPHOMORES

High school is a big change for Sophomores. Their day starts with finding their way around the school, and finding a place in the cafeteria. Then, once they become acquainted with the school, they fit a social life into their schedule. Just when they think they have adjusted, second semester comes around the corner bringing in new room numbers, new teachers, and almost all new faces. This time, adjustment is a breeze and they get the hang of it! Finally the year comes to an end and they look forward to being a Junior.

## CHARACTERISTICS OF SOPHOMORES

The definition of sophomoreic behavior according to Webster's Ninth New Collegiate Dictionary: 1: conceited and overconfident of knowledge but poorly informed and immature 2: of, relating to, or characteristic of a sophomore.

- \* They ride the bus to and from school
- \* Fights
- \* Duck away into the locker bays before school to make sure their jeans are rolled up properly
- \* Congregate in one spot in the middle of the hallway making it impossible for others to get to class
- \* Have a dumbfounded expression across their faces
- \* Strive to fit in rather than assert their individuality
- \* Walk briskly between destinations staring blankly at the floor
- \* Stare at the room numbers above the doors
- \* Take driver education classes

# ACADEMICS

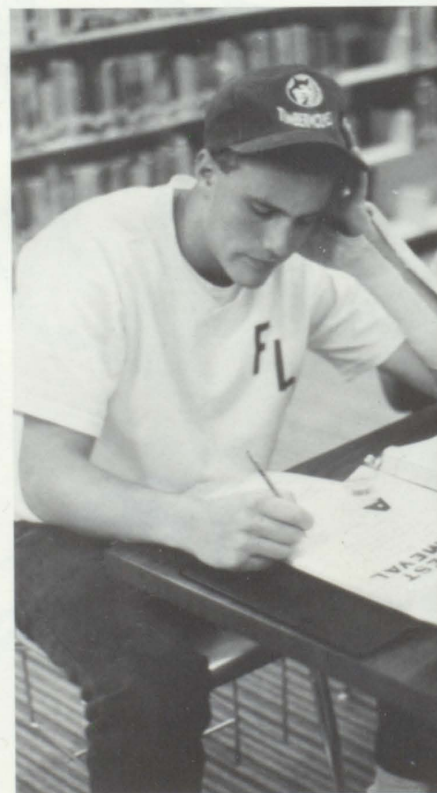

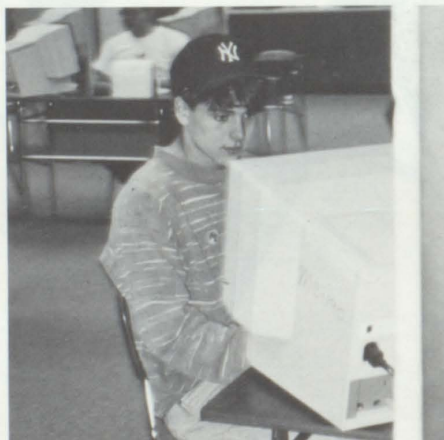

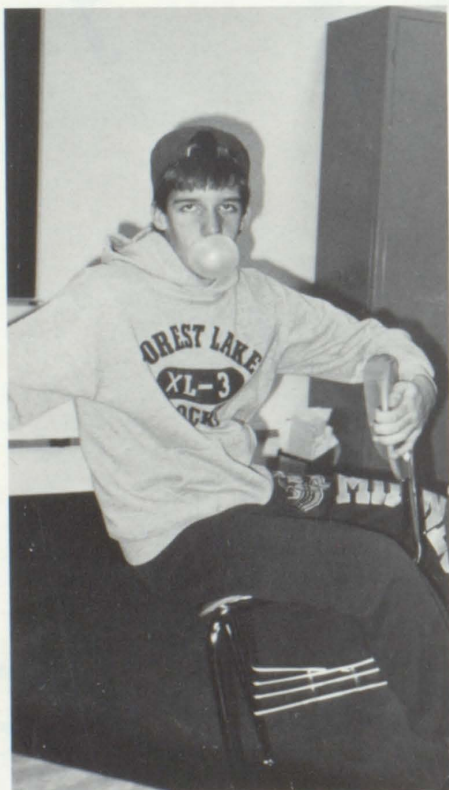

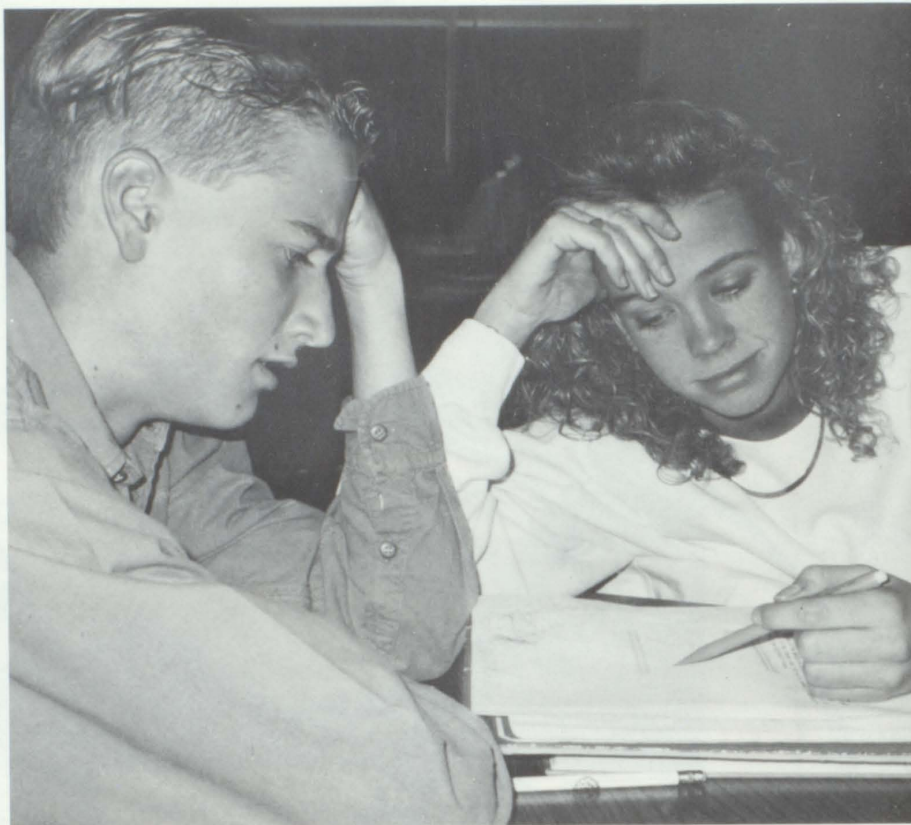

# ACADEMIC PRESSURES

Where are you going to go?  
What are you going to do?  
What are you going to be?

Everyone has heard these questions sometime in their high school years, but seniors cannot avoid these questions any longer. Deciding what you are going to do with your life is the reason why you turn to your guidance counselors for help, advice, and support.

One of our school counselors, Mr. Grove, explains that pressures have increased. "More students are going on to college and the pressures that they face are getting good grades and being accepted to the college of their choice. Education is very important today in the world we live in, technology is changing. To meet our needs for an improved society we must further our educational opportunities."

Making time in your last year of high school to plan for further education leaves you with many kinds of pressures. There's social pressure, emotional pressure, parental pressure, peer pressure, and more. Pressure about applications, deadlines, trying to figure out what you're good for, and what meets your needs. Whether you know it or not, these pressures help prepare us for the reality of the pressures to come in our futures.

# LEARN WHILE YOU EARN

College in the Schools is a new course offered by the U of M at Forest Lake Senior High. This is the first year it has been offered to Forest Lake students. Eventually, it will give Jr. and Sr. students the chance to complete their first year of college in High School. The courses offered this year are Freshman Honor Writing Practice I, and Intro to Modern Fiction, each worth five credits. Mr. Baldwin and Mrs. Eikren are the only Forest Lake teachers to have gone through the special two week training session in the summer. College in the school classes will take place on school grounds during school hours, starting next semester. The classes will cost nothing. Starting next year German and Social

Studies will be available to students. Long term goal is to draw more students from neighboring districts to Forest Lake. This program was started in 1986, and is now offered in 34 metro-schools and 1500 students are attending.

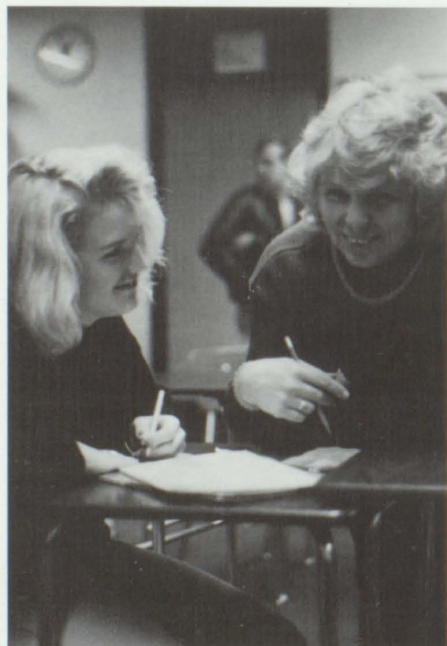

This course is the exact thing you should expect at college. After completing your course you earn 5 credits towards college, without setting foot on campus. Mr. Reynolds feels within the next few years there will be more courses offered. College in the Schools is something different for Forest Lake Senior High and is already getting good responses. More students have applied than accepted.

## New and Improved National Honor Society

National Honor Society is a non-profit organization of students who help out in the school and community. Forest Lake's National Honor Society has existed for decades, but was not active in the community or school until Mr. Reynolds came in 1979. He came from schools where National Honor Societies were active. He worked with advisor, Mrs. Bev Larson to suggest that someone make our's active. Bev Larson was the chosen one, and began working almost immediately.

Plans were made and active groups were set up. More attention and recognition was given to the organization. All thanks to the hard work and determination of Mrs. Bev Larson. The 1990-91 school year will be Mrs. Larson's first non-active year. Mrs. Larson says that she feels that she has been active for so long, that it was time for someone new to take over. Mr. Bernauer has

taken over this year, and we wish him the best of luck.

If you think you can make it really easy, you're wrong. It's hard, for you must be in the top 5% of your sophomore class, 10% of your junior class, or 15% of your senior class. Then after you achieve that, you must have 6 signatures of teachers who believe you possess the following 4: Leadership, Service, Character, and Scholar. Then you will be accepted in the Spring Introductory Ceremony for the following year. Currently there are 67 juniors and seniors participating this year, with sophomores being accepted in the spring. This year the four voted-in officers are Britta Ramseth, Scott Norquist, Jim Hackbarth, and Eric Moratzka. This year's activities are: Valentine sales, visits to the Nursing Home, loose change that will be given to charity, and letters to people in the Persian Gulf.

## Is there another option besides High School?

Yes, post-secondary option (PSO) is a choice some students make after consulting with the school counselors. PSO makes it possible for students to obtain college credit while still in high school. Students Michelle Atkinson, Jerry Johnson, Bobbie Hummel, and Ann Gagner chose this option.

Michelle Atkinson, Jerry Johnson, Ann Gagner, and Bobbie Hummel are among the ones attending Lakewood Community College besides going to high school.

Students choose PSO because the state pays for it. The program also gives them a head start and a feel for college.

# A.P. — An Added Challenge

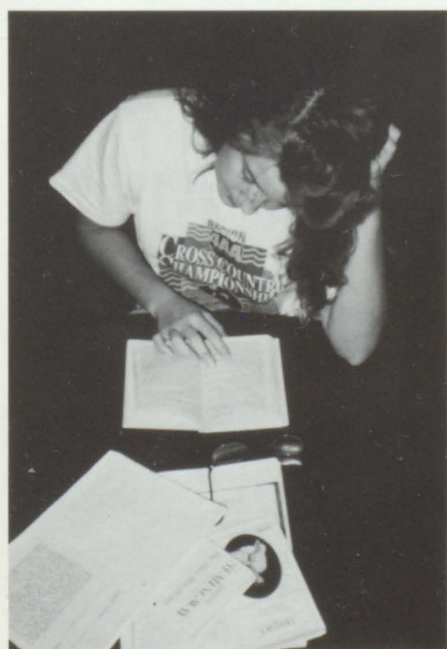

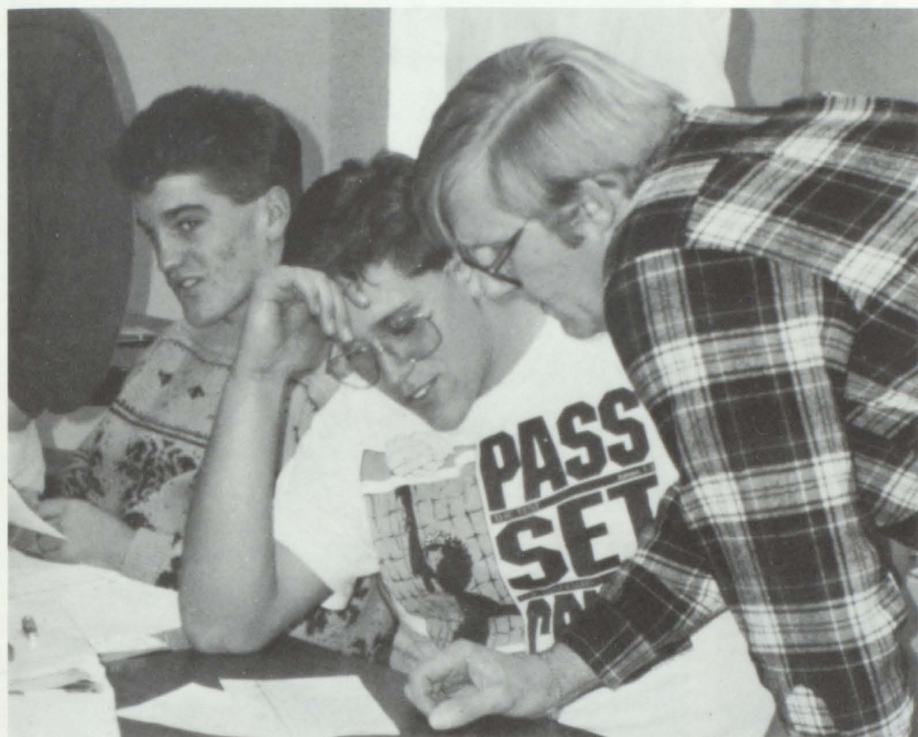

A.P. may be the first two letters in the word apple, but they have another significance. A.P. stands for advanced placement. There are A.P. language, mathematics, art, english, and history courses.

The students enrolled in A.P. classes are generally very motivated and definitely need to be. Teachers often remind these students that ideally they should be spend-

ing about three hours a night on A.P. homework. However, the night before big assignments are due or before a test it is possible to call them at one o'clock in the morning and they would still be up working. This is because many of them pull the famous, but hated all night marathon.

These classes have their benefits. A.P. courses are usually organized differently

than the general courses. They are less formal, less structured, and more flexible compared to normal classes. Often times these courses can give students an extra edge when applying for scholarships and colleges. A test at the end of the class may allow students who do well to test out of having to take the course in college. In the long run, it may save them both time and money. No matter how well individual students do on the final A.P. test, they agree that the class will have prepared them very well for the college course. Students in advanced placement classes agree that the courses are valuable, challenging, and demanding, but are also fun.

# FOREST LAKE ALTERNATIVE

## A LAST CHANCE CHALLENGE

The Forest Lake Alternative School operates under the premise of giving students another chance to get their diploma. Its goal is to provide an environment which will allow students to achieve academic success. The words "alternative school" make the whole thing sound ominous, but all it really means is that it is a school for those people in danger of not graduating, or who did not meet graduation requirements previously. There are over 50 students enrolled in this program at this time. Some students go full time to the alternative school, while others go for just one hour to pick up extra credits for graduation. No matter what your needs are, the alternative school is a great opportunity to take responsibility for your own education. "People who attend the alternative school are more determined," says faculty member Pat Cheyne. "They have a goal and they must accomplish it."

"The kids are fascinating and interesting;

substantially different from the traditional students because they choose to be here and they take ownership of their own education," says counselor Loey Weber.

Student Sara D. says "It has changed my life dramatically. Without it I would never have graduated. It gave me another chance to succeed. I never thought I would go back to school, but the Alternative School has really made a difference in my life."

"Without the opportunity of the Alternative School I would never have made graduation requirements. It has made me a more responsible person and really turned my life around," says Dawn Horsch.

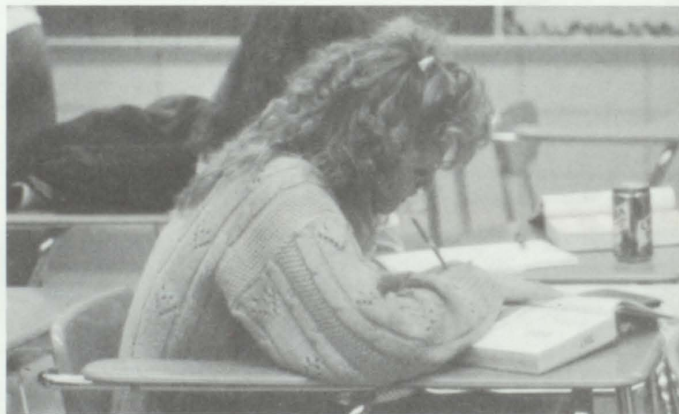

The school runs from 3-9 p.m. every day, although some classes meet for just two days a week. There are seven teachers working at the school, which is located at Southwest Junior High.

# ON THE JOB TRAINING

A STEP BEYOND THE SCHOOL DAY

On the Job Training, also known as the Work Experience Program is an opportunity for students in grades 10-12 to go to school, work, and still get credit for it.

It is designed to provide students with skills in the areas of communication, decision making, employment, self-concept, safety, finances, life skills, basic skills, career development, and family and community responsibilities.

The purpose of the OJT program is to identify and support students who train for their future. It assists students in their school setting and prepares them for the world of work.

If there was one goal to achieve through the Work Experience Program it would be to

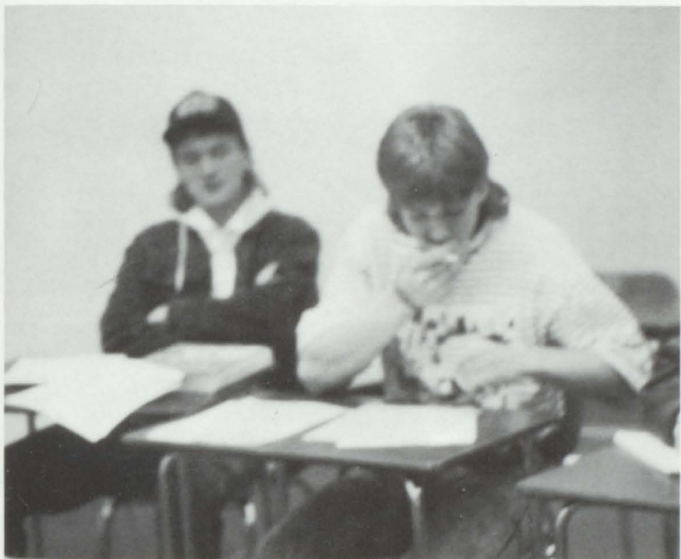

increase awareness of self and others, leading to confidence and respect.

"I was introduced to this program by my counselor. From that day on it has been a fun learning experience," says student, Brian Wilson.

Other students say: "It helped me prepare for the real world." "I think OJT is beneficial because it gives people the chance to work and learn together."

Elisa Tuominen says, "The work program is beneficial for gaining work experience and learning useful work skills."

The program serves a variety of students and is taught by work coordinators Janet Wylie, Jeff Wilson, and first year teacher, Jean Engblom.

# TEACHER FEATURE

**JEAN ENGBLOOM**  
(WORK COORDINATOR)

"I really like the staff. They have been very supportive and made me feel welcome to Forest Lake Senior High. The students are very down to earth and a fun bunch of kids. The thing I like most about teaching is the challenge and that day by day it changes."

**KEITH GEORGE**  
(ENGLISH)

When asked what he thought about Forest Lake High School he said that it was a very nice school. Mr. George started out his career in the business world and said that it's the same boring thing every day, and with teaching you have a different challenge every day. This is Mr. George's first year of teaching.

**NICOLE MERLEY**  
(FRENCH)

Nicole Merley is a Full-bright Exchange teacher here at Forest Lake High School. She switched places with Mr. Chowan who is now teaching in Paris, France. She says her classes are wonderful and she really likes teaching here.

**CAROLA FINKE**  
(GERMAN)

"The staff is friendly and very cooperative." Carola Finke is an Exchange Teacher from Bad Hersfeld, West Germany. She says, "Students have less freedom in this school. There is no such thing as suspension or detention and students do not need a pass every time they leave the classroom." One thing she likes about this school is that she has her own room. In Germany, the students stay in one classroom and teachers go from one room to the other.

**JILL BECKEN**  
(MATHEMATICS)

Jill Becken is presently teaching at Southwest and the Senior High. She says, "I like the maturity of senior high students and being able to communicate with them." Jill Becken is also a Basketball coach at the Senior High and she likes that she can coach and teach in the same building.

**DIANE MAUS**  
(SPANISH)

Diane Maus has had many years of experience teaching Spanish and music. Before coming to Forest Lake she taught for four years at Austin High School. She teaches third level Spanish here at the High School. All photos by: Dawn Horsch and Kim Gulbraa

# NEW TEACHERS MAKING WAVES

**CAROL MCEL RATH**  
(SPECIAL EDUCATION)

"I enjoy students. I like to see how they grow academically and mature. I used to be a classroom teacher and there wasn't enough time to devote to each child so now I feel I have enough time to spend with each person."

**LUCIA STEUVEN**  
(FRENCH)

"I am impressed with the support given to world Languages at Forest Lake High School and I enjoy every hour spent in this school," confesses the Romanian born teacher.

**LUANNE WYSSMANN** (SPECIAL EDUCATION)

When asked what she liked about Forest Lake High School she said, "Teachers are very friendly and I have a great start with the students that I am teaching."

**JUDY MCDONOUGH**  
(FRENCH AND ENGLISH)

"It's good to be back in the high school atmosphere. Teaching is always what I wanted to do and it keeps you up with what's going on around the world." McDonough is also teaching at Central.

**MARILYN ORLICH**  
(HOME ECONOMICS)

"It's enjoyable to get reacquainted with old friends and meeting new. Students are very cooperative and eager to learn," says Marilyn Orlich, who has taught at the Senior High before.

**MICHAEL MULLINS**  
(GERMAN)

"There's a chance to be creative and do new things," says Michael Mullins who's teaching at Central, Southwest, and the Senior High. He also says, "Most students are involved in classes but are not necessarily engaged." All photos by: Dawn Horsch and Kim Gulbraa

## WAR!

Earlier in this yearbook (page 20) an article was published concerning the threat of war in the Middle East. Being as the different sections of the yearbook are published in stages, the staff is able to offer you this update. This article will stand with the date of February 14, 1991.

Soon after Iraq invaded Kuwait the United Nations imposed a January 15, 1991 deadline, stating that if Iraq had not withdrawn by this date, war would be declared. As this deadline neared, nations watched intently as Iraq showed no intentions of withdrawing. And on January 15 our worst fears were realized when Iraq was still firmly entrenched in Kuwait.

At 7:00 (Central Standard Time) Wednesday evening, January 16, 1991 President Bush declared to the nation "The liberation of Kuwait has begun." Later that night the United States and Great Britain began the air-raids against Baghdad.

And, although any death is one too many, because we have not yet begun ground warfare the death toll has remained relatively low. Yet, the final outcome remains to be seen.
