Summer Discover at Keefe Tech

This is the original, much loved program experience for area youth in its 30th summer season. We attempt to be everything for all kids: building, cooking, creating, designing, traditional sports. Whatever it takes to send a child home happily exhausted each and every summer day, that's the goal of Summer Discover at Keefe Tech.

INTRO Camp

(for campers going into 3rd and 4th grade)

Our INTRO Camp includes a variety of career choices, modified from our Core Program, to give campers the maximum benefit for their ages. Campers will have fun-filled mornings involving sports and recreation and career activities in the afternoon. The day will run opposite to the Core Program.

CORE Camp

(for campers going into 5th, 6th, 7th and 8th grade)

CORE campers select two career explorations, one for each week, for each session. The mornings are spent in hands-on, project-based discovery. The afternoons are a potpourri of sports and recreation activities sure to keep anyone amused & active. Studio, where campers can explore their creative side with acting or singing, is offered as an alternative to sports and recreation.

Extended Day

We offer extended day in the morning and in the afternoon. Extended day in the morning starts at 7:30 a.m. and includes a continental breakfast in the cafe. The cost is \$10; \$5 for additional siblings. Extended day in the afternoon runs until 4:45 p.m. The cost for the afternoon is \$20; \$10 for additional siblings.

"My daughter has been going to camp since age 5 – this is the only one she begs to return to.

By far the best camp anywhere!" – Parent of an INTRO camper

**** Registration Starts 2/19/2023 ****

All registrations are processed in the order they are received. Incomplete, registration will delay your child's registration

Summer 2023 Tuition - \$630.00 for session 1 & \$700.00 for session 2

Tuition includes: Lunch • T-shirt • Material costs for projects

Camp applications and all release forms are available online at www.keefetech.org

Our staff is a combination of dedicated, trained professional adult teachers, coaches, and enthusiastic aides

Sports & Recreation • Career Exploration

INTRO Camp -- for campers going into 3rd and 4th grade

Our INTRO campers start their day engaged in skills-based activities such as throwing activities and kicking skills. The groups rotate every 20 minutes. Campers also have a block of time where they choose the activity they want to participate in such as arts & crafts or volleyball to name a few. After lunch, campers will experience a small taste of different careers, enjoying a new career every day.

CORE Camp -- for campers going into 5th, 6th, 7th and 8th grade

AUTOMOTIVE

BAKING

COMMERCIAL ARTS

COSMETOLOGY

ARTISTIC FLORAL AND WREATH DESIGN - Campers will get hands-on experience designing and creating a floral centerpiece, bouquet, and wreath. We will cover the principles and elements of Floral Design, as well as fresh flower care and handling to ensure proper care of arrangements and designs to be brought home. Each camper will express oneself by participating in the artistic activity of arranging flowers and wreath making. Each camper will make a custom container to display their centerpiece as well as their own custom frame for their wreath. All flowers, materials, and tools will be provided you can take home each project. No experience is necessary!

AUTOMOTIVE -- Boys & girls will be introduced to automotive tools and fasteners, make and model identification, engine disassembly, tire rotations, and On-Car fluid maintenance inspection.

BABYSITTING -- Boys & girls will have the opportunity to learn about strategies related to First Aid, CPR, and basic safety protocol related to babysitting.

COMMERCIAL ARTS -- Boys & girls will create a variety of visual arts projects. Materials used range from fuse beads to paper mache to various art media.

COSMETOLOGY -- Boys & girls will have lots of fun while learning different hairstyling techniques, manicuring, and face and hand massage techniques.

CULINARY ARTS (Also includes Baking & Pastry Making) -- A basic cooking experience for the budding young chef! Boys and girls will be introduced to different ways of building flavors in a variety of savory soups, meals, and entrees which will be brought home every night. (Only register once for culinary arts. If you accidentally register twice; we will adjust your registration accordingly. We will use our waitlist to adjust as needed.)

DIGITAL PHOTOGRAPHY -- Boys & girls will get hands-on experience with some of the latest digital cameras and professional techniques, taking photos and learning how to download, save and print their pictures.

ELECTRICAL -- Boys & girls will learn basic wiring and lighting systems while building a unique take-home project.

GRAPHIC ARTS -- Boys & girls will learn how to create and configure graphic images and text and make assorted printed products. Students will work with Mac computers and design with the Adobe Professional software, InDesign.

Career choices for core campers -- campers choose 2 careers for each session

METALS

PASTRY MAKING

PIPE DESIGN

ROBOTICS

INTRODUCTION TO GREEN ENERGY TECHNOLOGIES AND ENGINEERING: Campers will get hands-on experience designing and constructing a prototype of a windmill (wind turbine) prototype. Each camper will bring home a wind turbine that they personally designed, constructed and redesigned using the Engineering Design Process.

METALS -- Boys & girls will learn to safely bend and form steel along with welding the steel together while creating a fun take-home project.

PIPE DESIGN -- Boys & girls will learn basic skills of cutting, fitting and gluing PVC materials relevant to the plumbing industry while designing and creating a fun unique project.

ROBOTICS -- Boys & girls will learn basic mechanical assembly and soldering skills to complete a battery-operated robot capable of several different missions.

SPORTS & RECREATION -- A variety of sports games for those who love to stay active all day.

VIDEO PRODUCTION -- Boys & girls will be introduced to video design, production, special effects and digital editing techniques while creating their own unique project.

WEB DESIGN -- Boys & girls will learn how to set-up, operate and troubleshoot their own website.

WOODWORKING -- Boys & girls will learn basic carpentry skills while creating a great take-home project.

Training Career Professionals for our Modern World

Now in its 49th year of providing modern, comprehensive vocational-technical training for high school students and adults alike, Keefe Technical School proudly offers many new opportunities. For students in grades 9-12, there are new articulation programs with area colleges and collaborative training in industry through the school-to-career program. Adults can sample any number of new offerings through the continuing education department. Serving the towns of Ashland, Framingham, Holliston, Hopkinton, and Natick, join us as we celebrate our 49 years of service to the people of MetroWest.

For more information, contact the day school guidance department at 508-416-2270, the office of continuing education at 508-935-0202, or visit our website at www.keefetech.org.
