

Whitley County School District
ARP ESSER Plan
Updated 3-13-23

1. Describe how funds will be used to:

(a) implement prevention and mitigation strategies consistent with the Center for Disease Control and Prevention guidance on reopening schools.

Funds will be utilized to purchase PPE and disinfectant to assist in following the guidance on reopening schools from Governor Brashear, the Kentucky Department of Education, and The Center for Disease Control and Prevention. We have and will continue to purchase supplies to sanitize and clean all facilities. Our district has provided and will continue to provide funding for salaries for substitute teachers and instructional aides due to previous quarantine regulations as well as for providing continuity of services. We plan to purchase additional materials and equipment to be used individually by students including, but not limited to, headphones, headphones with microphones, manipulatives, etc. Additionally, we purchased two buses to limit the number of student riders and reduce the risk of spreading the virus. As a continuation of previous ESSER funds, we have utilized funds for facility renovations and repairs to reduce risks of virus transmission, health hazards, and support student health needs. This included updating HVAC systems, cafeterias, lunchrooms, etc., and installing water bottle filling stations. We purchased a program along with related costs for touchless sign-in for staff and administrators. We plan to continue to employ school nurses and use funds for their salary and fringe. We are expanding the space for the physical education classroom in order to maintain appropriate social distancing for students in courses utilizing these areas and for both school and sport events. We have replaced/repared the roof at our middle school to help reduce student exposure to environmental health hazards caused by leaks.

(b) address the academic impact of lost instructional time through the implementation of evidence-based interventions.

Funds are being utilized to address the academic impact of lost instructional time and to accelerate learning through the implementation of evidence-based interventions. Our district is continuing to provide after-school/tutoring and summer programs for all of our students along with transportation. Funding includes all associated costs such as salary and fringe for drivers,

pupil transportation insurance, and fuel. We will continue to provide teacher training focuses on productive, efficient instructional strategies for our most vulnerable students. We will continue to provide additional training for teachers and administrators districtwide that focuses on effective teaching practices and instructional strategies that will promote cooperative learning and communication, boost students' confidence, and increase student engagement. This will include all associated costs such as registration fees and travel costs. Additionally, we have used funding and will continue to use funding to provide subject-specific professional learning for teachers as identified in their professional growth plans. Funds were used to purchase programming that assisted with on-line training in order to provide for individual needs and professional growth of teachers and administrators. We plan to use funds to continue to build capacity in leadership skills for our administrators. We have utilized funds and will continue to utilize funds for salaries and fringe for teachers, counselors, and instructional coaches to help with class size reduction, small group learning, and ongoing professional learning. Funding have been and will be used for general supplies including STEAM materials and resources and to effectively implement our plan. We have utilized funds to expand the opportunities in our CTE programs and plan to use funds for materials for CTE programs. We have used funds for upgrading and expanding school and district network systems due to increased devices for students and teachers. These funds will be used to continue to support chromebook usage, ipads, etc. as well as instructional services such as Google Classroom and Zoom platforms. We plan to use funds to update/purchase band equipment so that students have their own instrument and are able to adhere to the guidelines in preventing virus spread. Funds will also be utilized for instructional field trips, leadership conferences, and academic and career skills competitions for students.

(c) utilize actions, strategies, programs, or methods as a continuation of previous ESSER funds

Funds will be used to continue initiatives and programs that were purchased and implemented with previous ESSER funds. We have purchased and will continue to purchase curriculum and materials for each of the core subject areas: English, math, science, and social studies for the elementary, middle, and high schools. We have purchased and will continue to purchase academic assessments as well as curriculum software. We have purchased and will continue to purchase technology equipment including the purchase/replacement of chromebooks, chromebook carts, desk-top computers, touch panels, equipment for mobility of touch panels, thumbdrives, printers, copiers, and document cameras. Funding will be used to replace furniture such as student and teacher desks, fixtures, supplies, and materials. Funds will continue to be utilized for the career and technical education pathways which will include salary and fringe for CTE personnel for new and emerging programs, resources, equipment, hardware, and software. We also plan to provide funding for the salary of mental health counselors. We will continue to fund additional program personnel, teachers, preschool teachers and aides, security services, general liability insurance, postage, cell phone services, and newspaper advertisements.

2. Describe how the district will ensure that interventions address the academic impact of lost instructional time and respond to the academic, social, emotional, and mental health needs of all students.

The district will ensure that interventions address the academic impact of lost instructional time and respond to the needs of all students by monitoring the usage and data of programs by school administrators, instructional coaches, and district personnel. School PLC's will target student needs through data analysis of academic assessments, intervention and academic programs, and behavior programs. Through PLCs, at-risk students from in-school, afterschool, and summer programming are identified for academic, social, emotional, and mental health needs of students. Appropriate learning plans are being developed for identified students and additional resources and services identified and implemented.

3. Describe how the district conducted meaningful consultation with the required stakeholders and how stakeholder feedback was utilized in planning.

The Whitley County School District convened a Pandemic Committee that consisted of the Superintendent, Deputy Superintendent, Director of Pupil Personnel/Safe Schools Coordinator, Director of Special Education, Director of Transportation, Chief Information Officer, Director of Human Resources, School Nutrition Director, School Principals, the school district health care provider, school nurse, and lead teacher representatives. This committee routinely consulted with the Whitley County Health Department and local government agencies regarding safety protocols, continuation of services, mitigation strategies, etc. The Pandemic Committee performed a needs assessment gathering feedback from parents, faculty, and staff regarding their needs and concerns. Furthermore, school principals performed a needs assessment and updated the committee with the individual needs of their school. The committee developed a plan to address the identified needs in order to provide the most effective services and assistance to students and staff in our district. Stakeholder input was collected from discussions, conversations, and surveys from parents, students, teachers, principals, staff, Family Resource directors, the McKinney-Vento liaison, Title 1 Coordinator, and community members as well as from representatives of various groups within our county. These groups include the Kentucky Education Association – Whitley County Chapter, Kentucky Association of Professional Educators, Save the Children, Whitley County Board of Education staff, etc. The ongoing committee discussions are continuously relayed to members of the Whitley County Board of Education.

The Whitley County District Leadership Team reviewed all input and responses while developing Whitley County's ARP ESSER Plan. These responses were analyzed for alignment with the district's mission and for compliance and allowability under the ESSER guidelines. Many of the various actions and strategies in the plan were voiced by multiple stakeholders confirming that the district plans to use the funds to fulfill its mission and goals for the students, parents, and teachers in the Whitley County School District.

The Whitley County District Leadership Team continues to monitor and update the APR ESSER Plan and budgets quarterly.
