February at MCI

Greetings from MCI Residential Life!

February seemed to be a quick blip on the radar for us as we had just finished up exams for the first semester and started the second semester. Everyone was awaiting the upcoming February break with Winter Carnival immediately upon its heels when we returned to begin March. We took several students to the State House in Augusta, ME on February 7 to represent our school and promote private school education in Maine at the state capitol. We were very proud of them for being outstanding ambassadors and representing the school maturely and effectively.

We had some fun winter activities in February including a couple of ski trips to Sugarloaf USA, a trip to watch the University of Maine play ice hockey, a trip to the trampoline park, and a fun night on campus cooking sweets and enjoying each other's company. Movie and restaurant trips were sprinkled in too, as always. The winter athletic season came to a conclusion in February and our drama team was in full force preparing for the State Drama Festival to be held in March.

Looking ahead, we have the always popular Winter Carnival followed by warmer weather and spring peeking through, which is always a highlight that gets us through the natural March doldrums. In our March newsletter, look for photos and videos of this fantastic tradition, along with all of the wonderful activities that we will have for students.

Sincerely,

Tom Bertrand
Dean of Student Life
