

CULTURE OF GIVING

PARTNERSHIP PROGRAM

The American School of Warsaw is the most significant international school in Poland since the 1950s.

Our culture has always been focused on what we give back to the community, not just in the form of enlightened minds of the young people we launch.

We nurture the spirit of giving within all members of our community, inspiring a broad range of projects according to need. ASW has led decades of work in changing the world for the better!

Here, it's all about what you **CAN** do rather than what you can't. Every student from any culture is happy and excited to study at ASW because they can choose **HOW** they want to learn and give, and not just **WHAT** they want to learn and receive.

ASW is truly a multicultural and multilingual community hosting on average students from over 50 countries.

This diversity is reflected in our Culture of Giving approach which allows and encourages all forms and sizes of giving through a wide variety of events, grants and partnership projects.

MISSION

We are determined to be a community that changes the world for the better

CORE VALUES

Put the same into life as you put into school.

Step forward and make things happen. Don't wait.

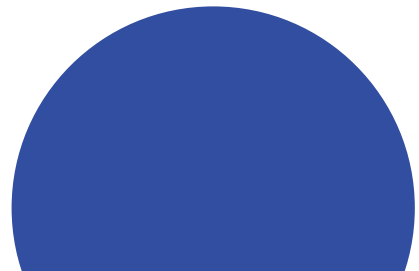

Work together. Because Without us all, we're nothing.

Make the whole world your classroom.

Bounce back when things don't go your way.

A photograph of two young women hugging each other. They are both smiling and have colorful powder (purple, blue, yellow) on their faces and hair. The woman on the left has curly hair and is wearing a purple t-shirt. The woman on the right has straight black hair and is wearing a light purple t-shirt. They are outdoors, and other people are visible in the background, also with colorful powder on them.

LET'S GROW & GIVE TOGETHER

At the American School of Warsaw, we're determined to change the world for the better. We've created an environment where the Culture of Giving is integrated throughout the whole community.

The ASW Culture of Giving Partnership Program creates a wide spectrum of cooperation

possibilities both between companies and ASW, and between private individuals and ASW.

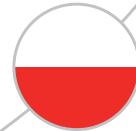

We believe that close partnerships with progressive and visionary companies or individuals who share our values and embrace our mission, will empower our journey into the future.

**WE WORK TOGETHER ON
THE CULTURE OF GIVING
ONE STEP AT A TIME.**

**BECAUSE WITHOUT US ALL,
WE'RE NOTHING.**

ASW FOUNDATIONS

To truly cater to our current community and prior international ASW alumni, we created two educational foundations, one based in Poland and one based in the USA.

Contributions made through these foundations are tax deductible for corporations and individuals, residents of Poland or the USA, respectively.

The ASW Foundations are used to support scholarships and offset tuition increases through investment opportunities.

Funds accumulated through either one of our foundations will go into building new school wings, creating innovative programs, improving infrastructure, changing the campus for the better, and implementing new programs or educational initiatives.

ASW Foundations also provide a location for the development of endowment funds that can serve long term needs through capital preservation and established utilization goals.

SCHOLARSHIPS & GRANTS

create a community that changes
the world for the better

ASW has a proud history of a mission-driven imperative to reward excellence, assist with innovative projects and ideas, and support individuals who otherwise might not be able to access advanced educational opportunities here at ASW or beyond.

BENEFITS TO ASW PARTNER

- ESG public recognition
- Person-to-person engagement
- Potential involvement in application process and designation of funds to specific areas of achievement

BENEFITS TO ASW

- Diversity goals for enrollment
- International and national alliances
- Accomplishment of mission through a broader reach into the community and beyond

BENEFITS TO STUDENTS

- Individual recognition
- Opportunity to develop dreams and passions
- A better chance to enter university of choice

If you are interested in donating, a list of current ASW Scholarships and Grants can be found on the ASW website under Culture of Giving. Alternatively, if you are interested in creating your own scholarship or grant in partnership with ASW, we are happy to discuss this with you. Please contact our Advancement Office for more information.

CHARITABLE EVENTS AND ACTIVITIES

ASW organizes various fundraising events through the Culture of Giving Project, PTO events, student-led clubs, art and sports activities, and service learning initiatives.

They all form part of our Tree of Giving. A portion of the money raised during the various Culture of Giving fundraising events is allocated to supporting local charities, schools, hospitals and communities.

The current list of ASW charitable events and activities can be found on the ASW website under Culture of Giving and on the ASW Alumni platform, as well as on the ASW Facebook and Instagram accounts. We encourage members of our community to

**PUT THE SAME
INTO LIFE AS
THEY PUT INTO
SCHOOL.**

INDIVIDUAL DONORS

Step forward and make things happen. Don't wait.

Philanthropy lets you give a little piece of yourself back and see it grow. As an individual you can assist us in strengthening the ASW Culture of Giving in many ways, both big and small, through monetary or other contributions.

Our foundations, scholarships and grants are open to individual donors as well as to corporations.

Perhaps your family would like to make a donation and create a legacy.

Or you may choose to support a cause that is particularly close to your heart through a particular scholarship or grant.

Your time and experience are also important to us — an individual can become a valuable mentor to an ASW student even if he/she is already retired or was never a professional.

If you think you have a skill or talent that a young individual could benefit from, and if you have the time and the energy, please step forward and make things happen. Become a mentor.

Last but not least, there are many charitable activities and events at ASW that we encourage you to look into and get involved in. Any and all support is always welcomed and appreciated.

CORPORATE PARTNERSHIP & ESG OBJECTIVES

ASW has a unique position in the expatriate - and host country - community in Poland, bringing together a diverse range of cultures with a broad global reach.

We provide a unique opportunity for collaboration in brand recognition while supporting your ESG objective. Of particular interest to ASW are projects associated with sustainability and global responsibility.

Partnering with ASW is a worthwhile investment because together we bring cohesion and purpose to our diverse international community while offering employee engagement toward accomplishing common social responsibility goals. We partner and we work together

**BECAUSE
WITHOUT US
ALL, WE'RE
NOTHING.**

BRANDING & SPONSORSHIP

● **PRODUCT PLACEMENT**

ASW has an on-campus cafeteria, coffee shop and merchandise store. We provide opportunities and easy access for our students, staff, and parents to purchase a variety of products within ASW facilities.

● **BRANDING**

When we share a common mission and vision, we would love to incorporate your corporate branding into the ASW environment through the sponsorship of durable goods including items of common use in schools. Whether through sportswear, clothing designs, or other products, your logo could be seen together with ASW's as a testament to our public endeavor toward common goals.

● **ASW EVENTS**

How about being a part of ASW UN Day, Living History Day, Warrior Day or our annual alumni gatherings?

Sponsor events revolving around multinationalism, WWII remembrance, celebrating excellence in sports or strengthening our ASW Alumni Association.

PROJECT CO-OPERATION

As an ASW supporter, you will enjoy the freedom and flexibility to work with ASW on any long-term, community-focused project.

Build a research or design center together. Provide opportunities for discovering new artistic talent. Start an annual fundraising marathon. Support our development of a new facility.

Within the Project Co-operation sphere, “the sky’s the limit” for opportunities we can make happen together while

**CHANGING THE
WORLD FOR
THE BETTER.**

MENTORING & INTERNSHIP

Allow the ASW students to learn from you or from your company – become a mentor or let us help you to create an internship program in your organization for ASW students.

We look for mentors and internships in the following areas:

- business management and administration,
- marketing and advertising,
- economics and financial planning,
- foreign relations,
- medicine,
- law,
- engineering,
- technology,
- art and design.

We are eager to explore your suggestions on how to improve and enlarge our Mentoring and Internship scope beyond what is mentioned above. At ASW, we always provide our students with an opportunity to learn inside and outside the classroom.

We want to

**MAKE THE
WORLD THEIR
CLASSROOM.**

Please help us to make this ASW Core Value a reality.

PRIORITY SEAT PROGRAM

Provide your recruited employees with a key benefit.

Education for the children of corporate ventures is a critical recruitment tool in the current world. Our Priority Seat Program provides a unique way of supporting high quality education while rewarding your team with priority admission to the most prestigious school available. The purchase of priority seats is an investment in a legacy that gives back to your employees as a reward for their service.

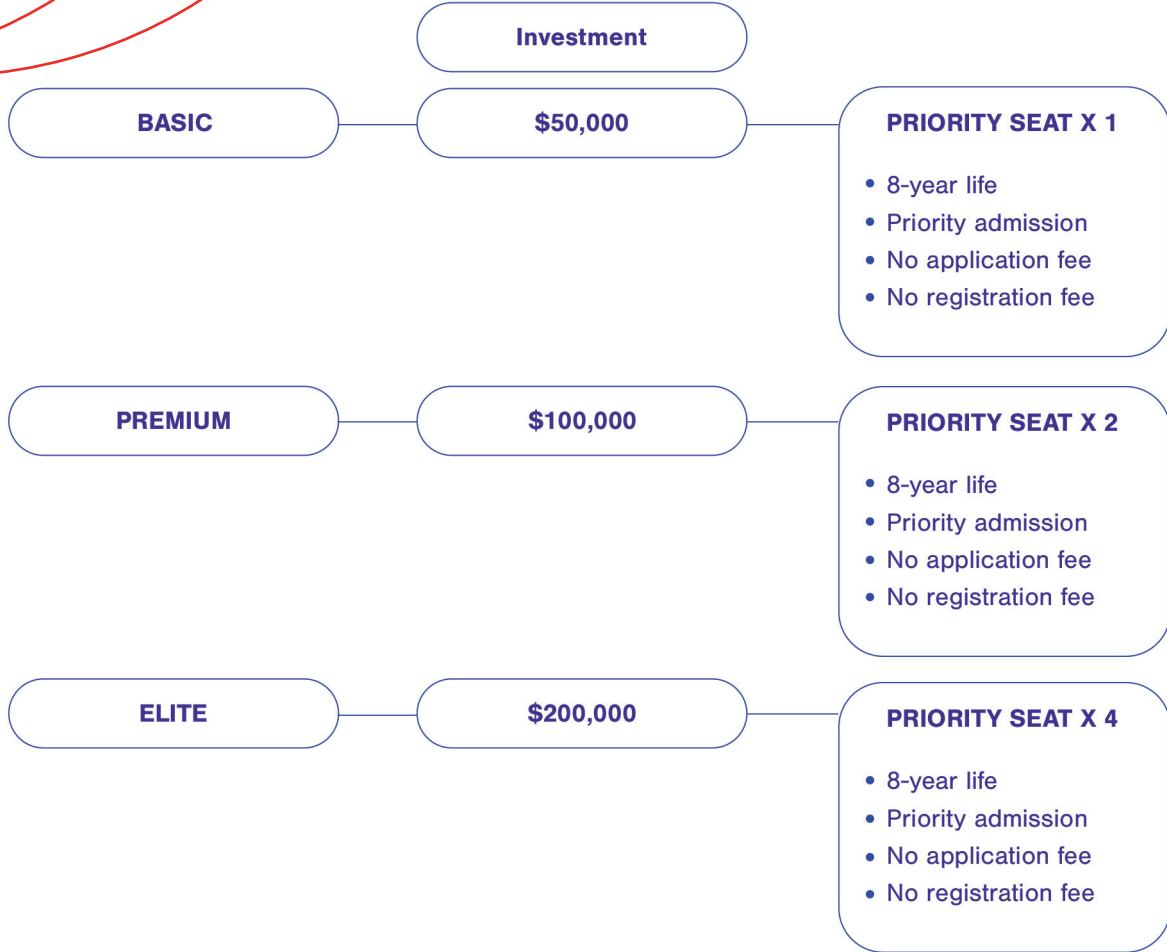

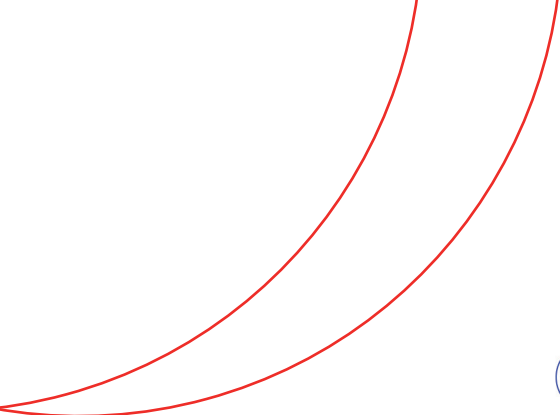

The priority seat fee also provides for financial incentives that eliminate the application and registration fee for students enrolled under this program.

But, most importantly, it is a way to fundamentally partner with ASW by supporting the long term goals that will keep our school on the leading edge for the foreseeable future while keeping overall tuition rates reasonable and competitive.

The reservation of a seat in the school, to be used at any time over eight years, provides guaranteed priority placement in classes ahead of other applicants.

It is a benefit that provides an avenue to **BOUNCE BACK WHEN THINGS DON'T GO YOUR WAY.**
