

IQ TESTING

Administration of the Wechsler Preschool and Primary Scale of Intelligence (WPPSI) or the Wechsler Intelligence Scale for Children (WISC) is required as a part of the application process for students entering first through eighth grade. (IQ testing is not required for entry into the Junior Kindergarten and Kindergarten programs.) The IQ test serves as a helpful measure of a child's cognitive ability and potential. Children with a full scale IQ score of 125 or above are considered for admission to SAA. A complete evaluation report is required, which includes a full scale IQ score, sub-test scores, evaluator commentary, and recommendations for educational programming and special services, if needed. Testing must be completed by a licensed psychologist. Please keep in mind that IQ testing is only one component of the application process, as all aspects of the applicant's qualifications are considered when making admissions decisions.
