

WAUNAKEE COMMUNITY SCHOOL DISTRICT DESIGN AND CONSTRUCTION UPDATE

WORKING TOGETHER for a STRONG FUTURE

Vol. 02 | MARCH 2023

MIDDLE SCHOOL VISIONING UNDERWAY

Waunakee Community School District is committed to engaging teachers and support staff in the architectural design process. Our staff has unique insights into the needs of our students, and their participation in the design process ensures physical facilities support the district's current and future needs. By involving these stakeholders in the design process, architects can create more functional and practical learning environments, helping to foster academic success.

Currently, Waunakee Community Middle School staff are working with a team of architects and designers from EUA in a "Visioning" process. This process involves a series of meetings over several weeks where staff members explore ideas, review designs, and provide feedback. It is important to remember that the EUA design team will gather input from all staff, not just the Visioning Team, during upcoming phases the design process.

The results of this process will be a creative and innovative middle school that supports Waunakee Community School District's current and future curriculum, mission and vision, as well as student needs. By involving teachers and support staff in the design process, the school will truly be a learning environment tailored to meet all student and staff needs.

MIDDLE SCHOOL VISIONING TEAM VISITS

The Waunakee Community Middle School Visioning Team recently toured several area schools for inspiration, brainstorming, and the latest in innovative learning design. Middle school staff, administrators, and EUA designers toured the newly renovated and expanded Middleton High School, Forest Park Middle School (Franklin), Karcher Middle School (Burlington), and Waunakee Intermediate School.

Staff provided their feedback to the design team, which used the input to help inform design ideas for subsequent Visioning Team meetings.

HERITAGE ELEMENTARY SCHOOL GROUNDBREAKING

You will start to see construction activities at the site of the new Heritage Elementary School. We will be hosting a groundbreaking ceremony where the community, families, and students can come and celebrate with us. **More details to come!**
