## Predesignation of Personal Physician

The *Predesignation of Personal Physician* form was created by the Division of Workers' Compensation to allow an injured worker to predesignate a physician prior to an industrial injury.

The form lists the requirements to be able to predesignate a physician. If a physician was properly predesignated before an industrial injury, then an injured worker can go to that physician instead of a company selected physician. This applies whether there is a Medical Provider Network (MPN) in place or not.

The employee must complete the form with their name, address, name of insurance company, plan or fund providing health coverage for nonoccupational injuries or illness and sign where indicated. It is imperative that the employee's doctor complete and sign the form.

The completed form must be received and on file with the Health, Safety and Wellness department at the District Office **prior** to an injury.

If you have any questions please contact Health, Safety and Wellness at 661-831-8331 Ext. 6177.
