IPM statement

It is the goal of the **Panama-Buena Vista Union School District** to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to:

Provide long term pest management to insure a safe and healthy learning environment for students, faculty, and the community. The first line of defense will be environmental and ecological controls followed by industry practices as needed.

IPM team

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions applying pesticides, and complying with the Healthy Schools Act requirements, include:

Name and/or Title	Role in IPM program
Michael A. Buckey, Director M.O.G.	IPM coordinator
Brian M. Dingman, Supervisor of Grounds	Detection

Pest management contracting

- ✓ Pest management services are contracted to a licensed pest control business.
Pest Control Business name(s): Orkin Pest Control
- ✓ Prior to entering into a contract, the school district has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.

Pest identification, monitoring and inspection

Pest Identification is done by: Orkin Pest Control, School District Staff

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by District staff and results are communicated through a work order system to the IPM Coordinator.

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include:

District facilities are monitored during daily cleaning. Pest concerns are then reported and tracked through the District maintenance work order system.

Pests and non-chemical management practices

This school district has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

Pest	Remove food	Fix leaks	Seal cracks	Install barriers	Physical removal	Traps	Manage irrigation	Other
ants	✓	✓	✓					sanitation
roaches	✓	✓	✓					sanitation
bees				✓	✓			
mice/rats	✓		✓	✓		✓		sanitation
spiders			✓	✓	✓			Remove webs
wild life/ skunks, possums, etc.	✓			✓	✓			

Chemical pest management practices

If non-chemical methods are ineffective, the school district will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property and the environment.

This school district expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by school district staff or licensed pest control businesses.):

Pesticide Name	Active Ingredient(s)	Interior/Exterior Treated
TALSTAR PRO	Bifenthrin	THESE PESTICIDES ARE USED ON AN I.P.M. PROGRAM BASIS (Integrated Pest Management) ONLY WHEN NEEDED
NYGAURD IGR	Phenoxyphenoxy ethoxy pyridine	
PRECOR IGR	(S)-Methoprene	
PRECOR 2000	(S)-Methoprene, Permethrin, N-octyl Bicycloheptene dicarboximide	
ONSLAUGHT FASTCAP	Esfenvalerate, Prallethrin, Piperonyl butoxide	
VENDETTA ROACH GEL	Abamectin	
EXCITER	Pyrethrin, Piperonyl Butoxide	
OPTIGUARD ANT GEL	Thiamethoxam	
Herbicide Name	Active Ingredient(s)	Landscape Areas Treated
GALLERY 75 DRY FLO	Glyphosate	THESE HERBICIDES ARE USED OUTDOORS ON LANDSCAPE AREAS ONLY
GLYPRO PLUS	Glyphosate, N-Phosphonomethyl Glycine	
REMUDA	Glyphosate	
ROUNDUP PRO	Glyphosate, Isopropylamine salt of N-Phosphonomethyl Glycine	
SAF-T-SIDE	Petroleum Oil	

Healthy Schools Act

- ✓ This school district complies with the notification, posting, recordkeeping, and all other requirements of the Healthy Schools Act. (Education Code Sections 17608- 17613, 48980.3; Food & Agricultural Code Sections 13180- 13188)

Training

Every year school district employees who make pesticide applications receive the following training prior to pesticide use:

- ✓ Pesticide specific safety training (Title 3 California Code of Regulations 6724)
- ✓ School IPM training course approved by the Department of Pesticide Regulation (Education Code Section 16714; Food & Agricultural Code Section 13186.5).

Submittal of pesticide use reports

- ✓ Reports of all pesticides applied by school district staff during the calendar year, except pesticides exempt from HSA Recordkeeping are submitted to the Department of Pesticide Regulation at least annually, by January 30 of the following year, using the form provided at www.cdpr.ca.gov/schoolipm. (Education Code Section 16711)

Notification

This school district has made this IPM plan publicly available by the following method:

- ✓ This IPM plan can be found online at the following web address: <http://www.pbvUSD.k12.ca.us>

Review

This IPM plan will be reviewed (and revised if needed) at least annually to ensure that the information provided is still true and correct.
Date of next review: June 30, 2017

I acknowledge that I have reviewed this school district's IPM Plan and it is true and correct.

Signature: Michael A. Buckley Date: May 3, 2016

¹ These pesticides are exempt from all Healthy Schools Act requirements, except the training requirement: 1) products used in self-contained baits or traps, 2) gels or pastes used as crack and crevice treatments, 3) antimicrobials, and 4) pesticides exempt from U.S. EPA registration. (Education Code Section 17610.5)
