

MUNICH  
INTERNATIONAL  
SCHOOL

## **BUS FEES 2023 / 2024**

The Munich International School provides an extensive School Bus Transportation System. Offering more than 70 different routes with more than 500 stops, MIS bus routes cover approximately 80% of the areas in which MIS students reside.

Our aim is to provide a service that ensures students are transported safely and efficiently to and from school. We work with selected bus company partners that have served the MIS community for a number of years to ensure that the best possible service is offered to you.

In determining annual bus routes, factors such as cost, time and distance are taken into consideration. Taking pertinent legal issues into consideration, we try to accommodate a pick-up/drop off point as close as possible to your home. However, in some cases the implementation of a new bus stop may exceed time and economic constraints of the system and may, therefore, be deemed unfeasible.

Enrolling your child/ren with the MIS School Bus Service will not only help to reduce traffic congestion in our car park, but will also help in reducing the CO2 emission by fewer individual vehicles and traffic.

The bus service at MIS is an optional service. School bus fees are calculated to cover the costs for the buses, based on distance and travel time as well as all administrative expenses associated with the service. The cost of the service is dependent on the number of buses required to serve all routes and the number of users enrolled in the bus system.

The bus contract is legally binding for the entire school year, unless a lesser duration is ticked on the bus contract or a written statement to this effect has been submitted no later than 2 weeks after the bus contract was signed.
