Resolution No. 2208

Recognizing a State of Emergency and Authorizing Teleconferenced Meetings

WHEREAS, in response to the novel coronavirus (“COVID-19”) pandemic, Governor Newsom adopted a series of Executive Orders allowing the legislative bodies of local governments to meet remotely via teleconference so long as other provisions of the Ralph M. Brown Act (“Brown Act”) were followed; and

WHEREAS, on September 16, 2021, Governor Newsom signed AB 361, which immediately amended the Brown Act allowing governing boards to continue holding virtual meetings outside the teleconferencing requirements of Government Code section 54953(b), if the board makes a finding that there is a proclaimed State of Emergency, and either (1) state or local officials have imposed or recommended social distancing measures, or (2) meeting in person would present imminent risks to the health or safety of attendees due to the emergency; and

WHEREAS, on March 4, 2020, Governor Newsom declared a statewide emergency arising from COVID-19 pursuant to Government Code section 8625; and

WHEREAS, social distancing measures have been recommended by the Santa Barbara County Public Health Department to mitigate the spread of COVID-19; and

WHEREAS, the Santa Barbara County Board of Education is committed to open and transparent governance in compliance with the Brown Act; and

WHEREAS, the Santa Barbara County Board of Education is conducting virtual meetings by way of telephonic and/or internet-based services as to allow members of the public to fully participate in meetings and offer public comment.

NOW THEREFORE, BE IT RESOLVED, by the Santa Barbara County Board of Education:

1. The Santa Barbara County Board of Education has reconsidered the circumstances of the State of Emergency and recognizes that the State of Emergency in the State of California continues to exist due to the COVID-19 pandemic;

2. The Santa Barbara County Board of Education recognizes that social distancing measures remain recommended by state and local officials;
3. The Santa Barbara County Board of Education authorizes the use of teleconferencing for all meetings in accordance with Government Code section 54953(e) and all other applicable provisions of the Brown Act, for a period of thirty (30) days from the adoption of this resolution, or such a time that the Governing Board adopts a subsequent resolution in accordance with Government Code section 54953(e)(3).

HEALTH OFFICIALS AB 361 SOCIAL DISTANCE RECOMMENDATION

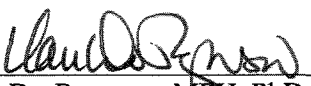

Issued: September 28, 2021

COVID-19 disease prevention measures, endorsed by the Centers for Disease Control and Prevention, include vaccinations, facial coverings, increased indoor ventilation, handwashing, and physical distancing (particularly indoors).

Since March 2020, local legislative bodies-such as commissions, committees, boards, and councils- have successfully held public meetings with teleconferencing as authorized by Executive Orders issued by the Governor. Using technology to allow for virtual participation in public meetings is a social distancing measure that may help control transmission of the SARS-CoV-2 virus. Public meetings bring together many individuals (both vaccinated and potentially unvaccinated), from multiple households, in a single indoor space for an extended time. For those at increased risk for infection, or subject to an isolation or quarantine order, teleconferencing allows for full participation in public meetings, while protecting themselves and others from the COVID-19 virus.

Utilizing teleconferencing options for public meetings is an effective and recommended social distancing measure to facilitate participation in public affairs and encourage participants to protect themselves and others from the COVID-19 disease. This recommendation is further intended to satisfy the requirement of the Brown Act (specifically Gov't Code Section 54953(e)(1)(A)), which allows local legislative bodies in the County of Santa Barbara to use certain available teleconferencing options set forth in the Brown Act.

Re: Williams/Valenzuela Settlement Legislation - Annual School District Reports

Dear Mrs. Daane:

California Education Code Section 1240 requires that we evaluate schools in our county ranked in deciles 1-3 of the 2012 base API, verify specific information supplied by the schools and school districts, and report to you the results. It is a pleasure to submit this report on the condition and state of these 31 schools in Santa Barbara County for 2020-21.

Santa Maria High School

The purpose of the visits as specified in California Education Code 1240 were:

1. To ensure that students have access to “sufficient” instructional materials in four core subject areas (English language arts, mathematics, history/social science, science).
2. To assess compliance with facilities maintenance to determine the condition of a facility that “poses an emergency or urgent threat to the health or safety of pupils or staff,” and
3. To determine if the school has provided accurate data for the annual school accountability report card related to instructional materials and facilities maintenance.
4. To determine the extent to which pupils who have not passed the California High School Exit Exam (CAHSEE) by the end of grade 12 are informed that they are entitled to receive CAHSEE intensive instruction and services for up to two consecutive years after completion of grade 12 and the extent to which pupils who have elected to receive services are being served.

The law further requires Santa Barbara County Education Office to:

1. Annually monitor and review teacher assignments in decile 1-3 schools;
2. Receive quarterly reports on complaints filed with the school district concerning insufficient instruction materials, teacher vacancies and misassignments, emergency or urgent facilities, and CAHSEE intervention instruction and services issues under the Uniform Complaint Procedure; and
3. Include a review in the areas of use of instructional materials program funds, teacher vacancies and misassignments, and information reported on the school accountability report card.

While the areas enumerated in this paragraph are not mandated to be a part of this report to you, they are being included so that you and the citizens of our communities will have a complete understanding of the environment in which Santa Barbara County schools are functioning.

Before proceeding with the report, let me define some basic terms:

- “Sufficient instructional materials” means every pupil, including English language learners, has a textbook in the four core areas to use in class, after class, and to take home.
- “Facilities standards” means that each school district that received state funding for facilities is required to establish a facilities inspection program and to ensure that each of the schools is maintained in good repair.
- “Good repair” is defined as maintaining schools that are clean, safe, and functional.

The findings related to the six areas evaluated (instructional materials, facilities, school accountability report card, teacher vacancies or assignments, Uniform Complaint Procedures, and CAHSEE intervention and instructional services) are summarized below.

GENERAL INFORMATION

Due to the COVID-19 pandemic, no site visits were conducted during the 2020-21 school year. As per Education Code 1241, the visits were prioritized for the 2021-22 school year and the Santa Barbara County Education Office Williams Evaluation Team completed those visits between September 1 and September 22, 2021. The principals were organized, and, in most cases, the staff and students had been informed about the purpose of the visit. School principals, as well as others (district representatives, assistant principals, custodians, etc.) accompanied the evaluation team on the visit and were eager to share information about their

school. Their cooperation made the visitation process more manageable and allowed the team to accomplish the task quickly with little disruption to students in classrooms. A pre and post briefing was conducted with the principals to review the visitations process, update information, and answer questions.

INSTRUCTIONAL MATERIALS

Twenty-five percent of elementary classrooms (193 of 602) were visited, including at least one class from each grade level and special education, and 20 percent of junior high and high school core courses (216 of 1059). Junior high and high school visits included science labs, health, and world language courses, if applicable.

It was determined that sufficient textbooks and instructional materials have been provided for every pupil, including English language learners, for use in class, after class, and to take home. Textbook inventories were provided and verified as evidence of sufficient materials.

Each district provided a listing of standards-aligned State adopted or board-adopted textbooks in the four core areas, and the evaluation team verified that these are the instructional materials that are being used in each class or course.

SCHOOL FACILITIES

The evaluation of the facilities included classrooms, offices, libraries, labs, auditoriums, gyms and locker rooms, stadiums, storage rooms, cafeterias, all restrooms, grounds, ball fields, tracks, bleachers, storage sheds, mechanical equipment rooms, etc. All facilities were found to be in good repair. At sites where construction projects were in progress, every effort was being made to secure the safety of the students. No Emergency Facilities Needs Projects were identified. In most cases, school custodians are responsible for the daily cleaning and some minor repairs. The district offices take an active role in providing repairs and upkeep in a timely manner.

SCHOOL ACCOUNTABILITY REPORT CARD

School districts are required to include data for these topics in the SARCs:

- Sufficient textbooks – availability of sufficient standards-aligned textbooks and other instruction materials.
- Facilities - Safety, cleanliness, and adequacy of school facilities, including needed maintenance to ensure good repair.
- Teacher Vacancies or Assignments/Misassignments – number of teacher vacancies or misassignments.

All schools provided SARCs to SBCEO. The Evaluation Team verified that the data was accurate.

TEACHER VACANCY OR ASSIGNMENT/MISASSIGNMENT

With the passage of AB 1219, teacher credential monitoring is now completed through the California Statewide Assignment Accountability System (CalSAAS) reporting system.

UNIFORM COMPLAINT PROCEDURES

Uniform Complaint Procedures signs (including notice for complaints related to instructional materials, condition of facilities posing an emergency or urgent threat, teacher vacancies/ misassignments, and CAHSEE intensive instruction and services) were posted in all classrooms visited and it was verified that the complaint forms are available in the school offices.

All Santa Barbara County districts have submitted quarterly reports indicating that there were no unresolved Williams/Valenzuela Legislation complaints.

CAHSEE INTENSIVE INSTRUCTION AND SERVICES

The CAHSEE requirement was suspended by the California Department of Education in 2016 and repealed by Governor Brown, October 2017.

In conclusion, we find the Santa Barbara County schools we evaluated to be in compliance with the Williams/Valenzuela Settlement Legislation. The districts and schools are to be complimented, again, for their cooperation and efforts to comply with and implement these requirements. If you have any questions or wish to discuss this report further, please let me know.

Sincerely,

Bridget Baublits
