

DR. RENEE MURLEY
HEAD OF SCHOOL

As a premier independent Christian school, we desire for our students to know the love of Christ, to show the love of Jesus through their words and actions, and to become lifelong learners. Our prayer is that each student's experience at Boyd-Buchanan provides a foundational spiritual framework as they graduate and move forward in life.

At this time in our history, we have record enrollment, academic and athletic successes, outstanding musical productions, service learning impact, and exciting opportunities to expand our campus through capital-building projects. Over the past ten years, we have completed multiple capital improvements totaling nine million dollars while acquiring minimal new debt. As part of our strategic plan, we have begun the construction of our 21,000 sq. ft. Performing Arts Center and the planning of our expansion of Roland Dining Hall. The Performing Arts Center will provide additional classrooms, office spaces, and an auditorium for not only musical and theatrical performances, but also for weekly Chapel programs.

Our current Dining Hall space was built in 1962 when our enrollment was 176 students. Presently, we serve 1200+ students, staff, and faculty daily. Our plans will include expanding the dining hall, renovating and updating the kitchen facilities, and enhancing the dining experience.

With these new projects, we have a need to raise six million dollars through our ***Built to Last*** Capital Campaign 2023. We commit to continue our practice of effective financial management for expansion and improvement. Your generous giving will impact the students of today and build a lasting legacy for future Buccaneers.

A handwritten signature in black ink, reading "Renee Murley". The signature is written in a fluid, cursive style with a large, elegant initial "R".
