Will you accept a position as alternate for the year?      Yes      No

*An alternate is a team member; however, an alternate is not guaranteed a performance or competition opportunity. An alternate participates in warm-ups, technique, drill downs and learns all the routines. Full class participation and team travel is required. When a member is absent from a practice or injured, an alternate will have the opportunity to fill in; when a member is absent for a performance, an alternate may or may not be able to fill the performance position depending upon time preparation and the technical ability of the alternate. An alternate is in "training" throughout the year with the primary goal of becoming a performer within a year.*

**We acknowledge we have viewed and read all information regarding the commitment and expectations required of a MHS dance team member. This includes meeting and maintaining the academic requirements and the athletic code once selected. I understand the purpose of the program, program requirements, practice policies, performance expectations, competition expectations, apparel, financial commitments, cell phone/social media usage, communication and the discipline. My parents and I understand the selection process is based on the expertise of a judging panel and the coach; although these tryouts generate enthusiastic and emotional feelings, we will accept the decision of the judging panel and the coach as final. I will give 100% in order to make Mead High School Dance the best team possible and commit to it all year long. I am eagerly looking forward to becoming an active member of the 23-24 MHS Dance Team upon being selected for a position.**
