## *Promising Student with a Bright Future!*

Mr. Diaz is supported through Allen Lund Company's participation in the Verb's Employee Adopt-A-Student Program, where the employees help fund the gap in the cost of his education. They take a direct hand in Mr. Diaz's success!

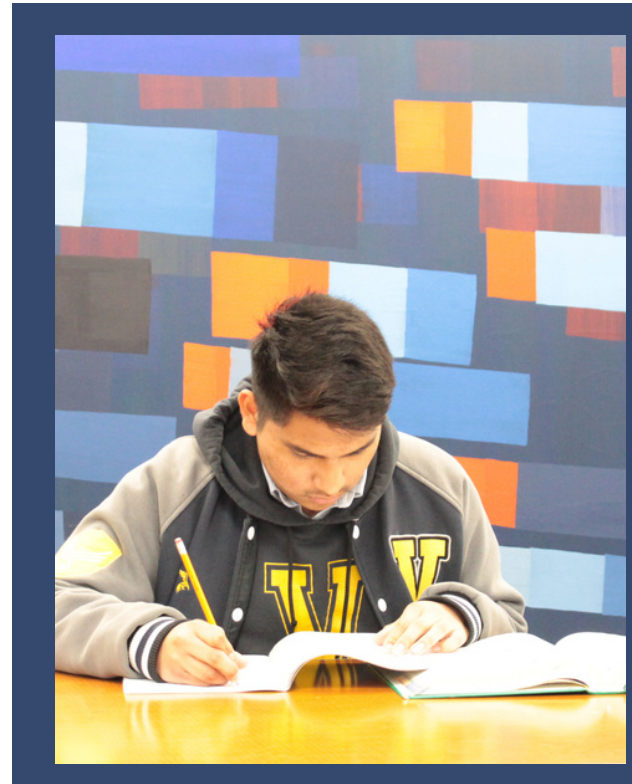

Bryan has his eyes set on three possible schools in the Fall, Whittier College, St. Johns (Minnesota) & LMU.

*"My coworkers aided & guided me in making the decision to apply to Whittier College, Saint John's University, and LMU. Their advice along with the fact that I have always attended catholic schools, and going to a university makes me feel more at ease."*

As you can see, our students would not have opportunities to grow and realize their full potential without the support and sponsorship of our corporate partners, donors, and individuals alike through the Employee Adopt-A-Student Program. Thank you all for your support, as it is an investment in our students' education, careers, and futures!

Bryan Diaz, class of 2023, is a promising student with a bright future ahead of him. Bryan has a cumulative GPA of 4.28 with a strong interest in mathematics. He currently works at Allen Lund Transportation Company and has been there for the past two years. He's worked in both the human resources department and the information technology department.

*"Working in those departments has been fantastic because I am trusted with important responsibilities without being monitored. I feel responsible every time I am handed a task and make sure to have everything done on time before my lunch break so I can transition over to the other departments."*
