Affording Trinity

Trinity Presbyterian School is committed to making our Christian education affordable. The published tuition is the first step in a process, and should not prevent a family from even considering the possibility of joining the Trinity family. Our main goal is to ensure that families whose children meet the admission requirements and want to be a part of our school community are not deterred because of the cost. We offer tuition assistance based on demonstrated financial need to current and new families in K5 through 12th grade.

Tuition assistance is offered in the form of a grant and does not require repayment; however, families are encouraged to make financial contributions to the school if and when their financial situation improves. Each family is expected to pay a portion of the cost of their student's education or find resources apart from Trinity. It is important that families carefully consider their financial obligation for the amount that is not provided, either through others or Trinity tuition assistance, including the incidental costs. Families must reapply each year, and the amount of assistance may change.

Decisions regarding tuition assistance are made separately from the admission process and those wishing to apply for tuition assistance must first be accepted for admission. To continue to obtain assistance, students must maintain the grade point average required to attend Trinity.

The Tuition Assistance Process

Trinity currently utilizes the Financial Aid of School Tuition (FAST) program provided by Independent School Management (ISM) to objectively determine a family's ability to pay for tuition, and Trinity reviews this information with strict confidentiality. Families applying for tuition assistance are required to complete the application. They are also required to submit to FAST a signed copy of their most recent federal and state income tax returns, including a copy of a W-2 and other forms. Awards are made pending FAST's comparison of the application to the submitted tax reports. Should significant discrepancies be discovered in the information provided to the FAST system, the school reserves the right to withdraw tuition assistance at any time during the school year. The link to FAST can be found on MyBackpack after the school application has been processed.

Alabama Accountability Act of 2013

The Alabama Accountability Act of 2013 permitted the formation of non-profit "scholarship granting organizations" (SGO). These SGO's are funded by individual and corporate contributions and provide scholarships to financially eligible lower income K5-12th grade students in the state of Alabama. SGO scholarships can provide some or all the funding for students to attend independent schools. Trinity is an approved school partnering with Scholarship for Kids and with Alabama Opportunity Scholarship Fund (AOSF). Please contact the Admission Office for more information about this scholarship opportunity. To apply for a scholarship, a student must meet Trinity's admission requirements.
