

## **Preschool Special Education**

Madeira City Schools provides a continuum of special education services for preschool-age children (3 to 5 years old) identified with a disability as required by federal and state laws and regulations. The focus of the preschool program is to meet the educational needs of children according to each Individualized Education Plan (IEP) while providing the children with a curriculum that meets the Early Learning Program Guidelines and the Early Learning Content Standards.

For more information about Madeira's Preschool Special Education Program please contact:
