MADE IN MADEIRA

Every member of the MHS Class of 2020 attending a college, university, career training program, or entering the military is the recipient of a $250 monetary scholarship. They are only the third graduating class in school history to receive this unique award.

The scholarships were established thanks to a generous donation from the estate of Homer O. Amos, a long-time Madeira resident and business owner who was proud of his sons' graduations from Madeira High School in the early 1970's. When Mr. Amos passed away in 2016 at the age of 90, his generous gift of close to $785,000 provided the foundation the unique Made in Madeira Scholarship has been built on.

Grant Breit
Madeira Class of 2020 Valedictorian

As you know, Madeira is an incredibly special place. Students, your parents and this Madeira community have supported you each step of the way. This scholarship reads, *"Being Made in Madeira is not about how you start, it's how you finish. It's not only about who you are but who you can become. Being Made in Madeira is not about getting, it's about giving. And if things aren't quite perfect or you've hit a roadblock or a bump along the way, being Made in Madeira means that it's never too late to change your path or course of direction - because above all else being Made in Madeira means that you never, ever give up."*

- Superintendent Kenji Matsudo to members of the Class of 2020

Made in Madeira Means ...

"If we view high school as a season in our lives like we view a season of our favorite show, there's no way we're going to be able to remember the whole thing. Instead, we're going to run the days back in our heads like a highlight reel or a "best-of." It's important to me, especially in light of the fact that it would really easy right now to focus on what's lost, that we instead fill the highlight reel with what we were lucky enough to have."

Turner Burton

"From the first day of school it was all of the little things that stuck out to me the most. The administrators, counselors, and teachers knew everyone's name and wouldn't hesitate to say hi in the hallways. The close knit learning environments in every classroom. And really just how close everyone was. The culture at Madeira is truly special and I feel so lucky to have been able to experience it."

Emma Beck

"I want to be a high school teacher. And there are others in the class of 2020 who are studying education. It is hardly a surprise that I want to teach considering my sister Maria, my mom, and both of my paternal grandparents are teachers. However, I can confidently say it is also due to the many selfless sacrifices the teachers at Madeira made for us and because of the joy and enthusiasm that they radiate. It would be an honor to one day impact a student of mine in a manner even close to the amount of influence that Madeira teachers have had on me."
