

YOUTH APPRENTICE NIGHT!

LAUNCH YOUR CAREER IN AEROSPACE & ADVANCED MANUFACTURING!

AJAC and Renton School District are launching the fifth cohort of aerospace and advanced manufacturing Youth Apprenticeships this spring!

How Can A Student Benefit From Youth Apprenticeship?

AJAC Youth Apprentices will receive **tuition-free** college credits from a local technical college. This program is a combination of **paid on-the-job training** (part-time) and college-level classroom instruction. This is a **no-cost program** to qualified participants. Upon completion, students will receive industry recognized journey-level certification as a Production Technician.

What Will They Learn?

Through 1:1 mentorship, Youth Apprentices will use state-of-the-art equipment to develop new products, technologies – and their skill-set.

Youth Apprentices will become proficient in:

- CNC set-up and operations,
- precision measuring and blueprint reading,
- advanced machining technologies
- math for manufacturing.

Join Us Tuesday, April 18th!

Time: 6:00p.m. - 7:00p.m.

Zoom: <https://rentonschools.zoom.us/meeting/register/tZwtduiugz0oGdRnOJxTR4v1zLHJSAr3qVJR>

Target Group: Current Sophomores & Juniors
