Quarterly Learning Report

Winter 2023

Dear Community,

It is hard to believe we are more than halfway through the 2022-2023 school year. We have been digging into all of our data to decide how we can best prepare our students for the State Tests coming up in April. This issue of the Quarterly Learning Report includes some of that overall data, as well as examples of excellent instruction. I know that teachers are working hard to make our students feel confident and excited. While tests and assessments are valuable for us as educators to collect data on the success of our instruction, we know that they are not the only measure of a good student. We try to emphasize with students that the tests are an opportunity to *show what they know*, not a judgement of them as a student.

Another page you will see on this issue highlights the amazing work that is being done to roll out our academic pathways to high school students. An academic pathways is an organized approach to career planning that helps student use their skills and interests to plot a course of action for future training, education, and career development. Career exploration is a big part of building a foundation to help students know careers that are out there and exactly what those careers do, the training required, and much more. While many high school students have been taken on job visits and career fairs this year, we also have plans to help expose students PreK-12 to all of their future career options. We want all of our students to dream big for their future!

Sincerely,

Vickie Hoffman

TRIAD ELEMENTARY SCHOOL

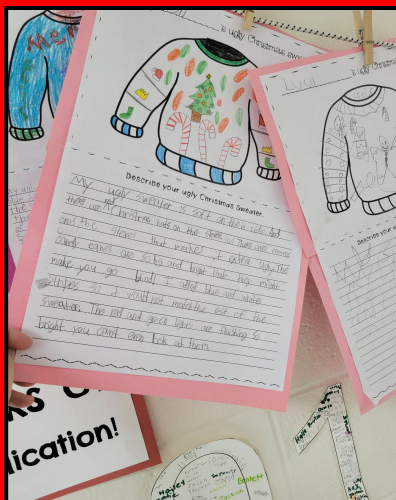

Even with the coming of the holiday season, our elementary teachers did an amazing job developing meaningful instructional activities to keep the students engaged and learning!

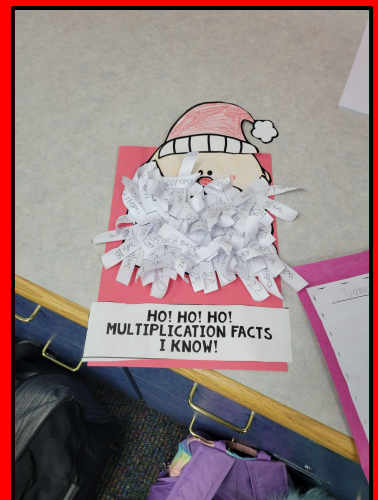

Fourth graders presented a Christmas story via a reader's theater format to our first, second, and third grade students. Fourth Grade ELA teacher, Margie Williams, worked with the students to perfect their presentations. They also read their self-authored Christmas stories, complete with illustrations, to our kindergarten, first, and second grade students. Mrs. Leslie Gregg, our library aide and technology instructor, taught the students how to use Google slides to publish their work!

Our first grade students out of Mrs. Campbell's class wasted no time getting 'back to work' on January 5th as each table pod collaborated on a hands-on science project!

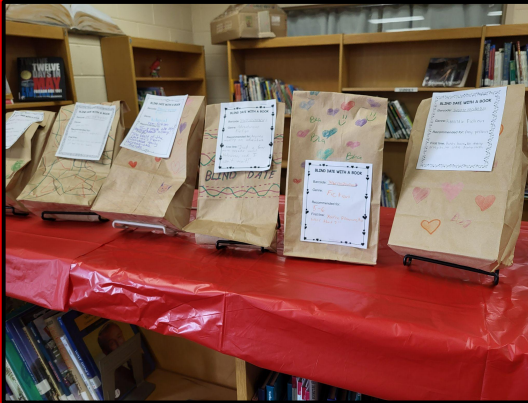

Third grade students sharpened their literacy skills in both writing and math as they worked on describing their ugly Christmas sweaters and filling out Santa's beard with multiplication facts they could explain.

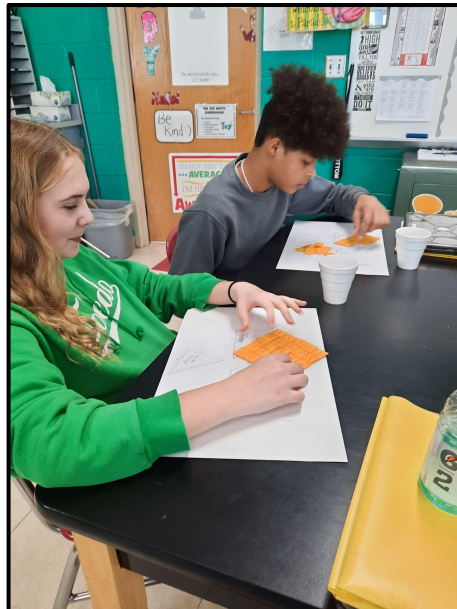

Lee Claypool
Elementary School Principal
claypool@triadk12.org

TRIAD MIDDLE SCHOOL

Mrs. Graham organized a "Blind Date with a Book" day for ELA classes to come to the library and participate in. Students wrapped a book they wanted to recommend in a decorated, brown paper bag and only gave the following information: Barcode, Genre, Recommended for __, and First Line. Other students got to check out the books blindly, without opening the package. If they read the first 20 pages and filled out a brief review, they got a treat.

8th grade students used cheese crackers to see how the Pythagorean Theorem proves which triangles are right triangles.

Vinnie Spirko

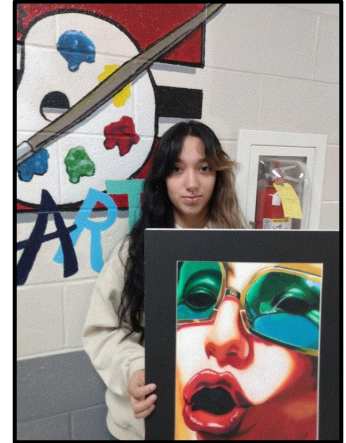

Middle School Principal
sprikov@triadk12.org

TRIAD HIGH SCHOOL

Our November and December artists of the month were Zane Jackson and Lunya Hernandez.

Triad students and staff will greatly miss Mr. Pat Graham in his retirement and we appreciate all of the love and artistry he showed our students through the years.

Students in Jon Smith's Meat Sciences class and FFA have been active preparing breakfast for various student groups and working on the process of making different kinds of jerky. Yum!

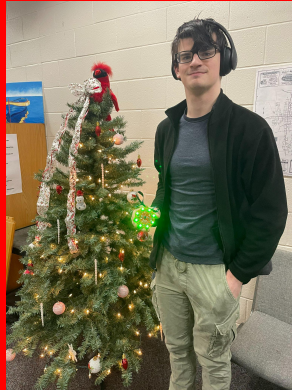

Todd Schneider

High School Principal

ACADEMIC PATHWAYS

Triad HS currently has two students in the Design and Development Academic Pathway taking Robotics courses through Ohio Hi-Point at Urbana. Reid Lightle is shown above with a holiday ornament that he soldered in the class.

Triad is excited for the upcoming career expo that will involve our juniors and seniors on February 22nd at the Champaign County Fairgrounds. The Career Expo will focus on the 3 E's for after HS: Employment, Enlistment and Enrollment. The Expo will also allow for community involvement in the afternoon from 2:30-6pm.
